SLIME Recipe

Makes about a handful of standard gooey slime

1. Half a cup (125ml)  KIDS PVA
2. Add a tsp. of your favourite  Paint or Fun Dye colour
3. Add 2 tbsp. of *liquid laundry detergent (*we use the brand Cold Power)
4. Mix until the slime has reached the desired consistency and is no longer sticky
5. Stretch & squish your slime until it's just right
5. Keep your slime in a snap lock bag or sealed container after use

Extend the creative experience

Take your slime creations to the next level by mixing with different  novelty paints

Make your slime glow with  fluorescent Paints

Add Pearlescent effects with  Pearl Paints

Add Metallic effects with  Metallic Paints

Make your slime glitter with  Glitter Paints

At Educational Colours safety is our first priority!

We recommend mixing Cold Power laundry liquid to get the best slime consistency, please read cautionary notes on the back of laundry liquid bottles before proceeding.

CAUTION

KEEP OUT OF REACH OF CHILDREN. IF SWALLOWED: Drink slowly a glass of milk or water and seek medical attention. **EYE IRRITANT:** If product contacts the eyes, rinse thoroughly with water. Seek medical attention if irritation persists. Avoid contact with sensitive skin. **For Medical Advice** call 13 11 26 (Australia) 0800 764 766 (New Zealand).
