NEW 2017 LEGO® Education

Roles and responsibilities

NEW

Our Town

LEG5021 **\$239.95**

16 280 3-5yrs

There's a lot happening in Our Town. It's a busy community full of buildings, everyday heroes and activity. As children have fun collaborating and constructing different urban environments, they intuitively discover what it means to be part of a community.

Understanding relationships

Community Minifigure Set

LEG5022 **\$99.95**

16 256 4+yrs

Let children explore their world through the people that make a community function. They will construct characters representing different roles, professions and cultures while role playing and playing fun games using the included game cards.

Fantasy Minifigure Set

LEG5023 **\$99.95**

16 213 4+yrs

Unleash children's imagination with 21 unique LEGO® characters taken from real-life, make-believe and history. Watch as they immerse themselves in an exciting and inspiring world of role play, collaborating with others as they play games and bring their stories to life.

NEW

Role play

LEGO® Education

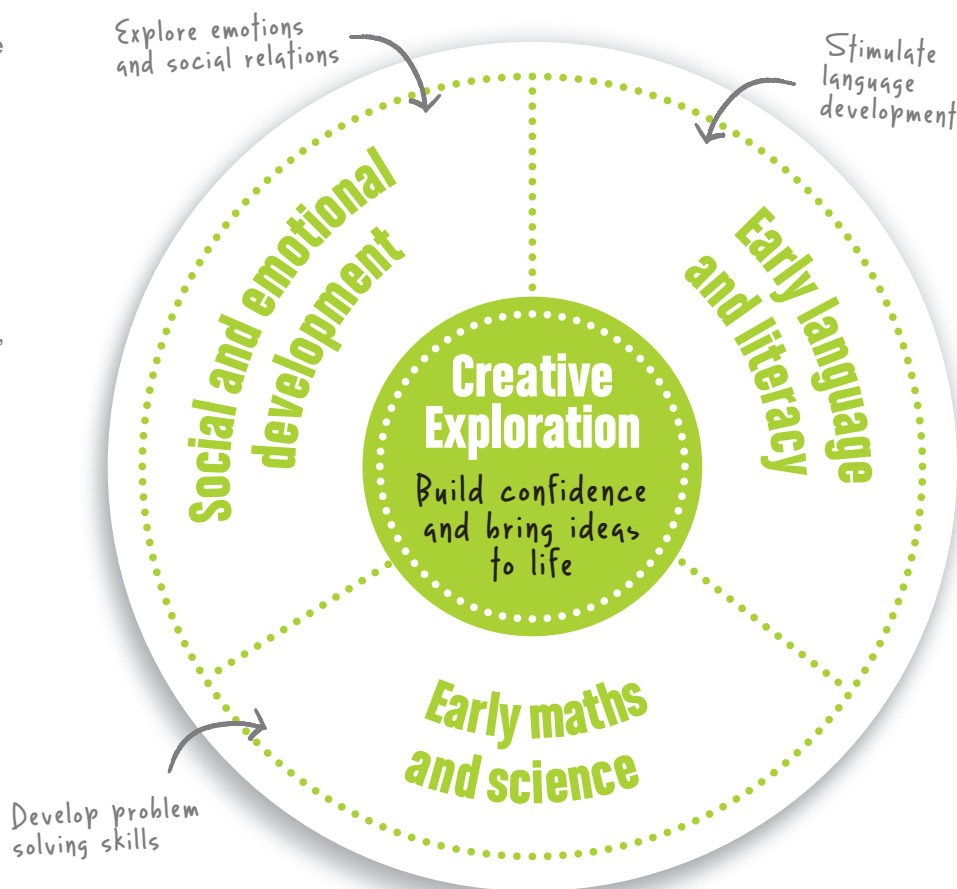

Supporting teachers to stimulate children's curiosity to explore

LEGO® Education enables every child to succeed in early childhood through safe and durable solutions, developing preschoolers from where they are and promoting the use of social skills to help children collaborate and communicate with the world around them.

Our playful learning solutions encourage children to discover their own capabilities and support the acquisition of fundamental skills to be ready for school and life. With LEGO Education there are so many ways to learn together.

An immersive world of learning through play

We provide opportunities for creative exploration to build confidence as children bring their ideas to life alongside social and emotional development, early maths and science and literacy skills. Children explore emotional and social relationships, problem solving skills and language development through a fun cycle of constructing, contemplating, using and re-constructing their creations.

Creative Exploration

Children express themselves creatively and artistically while constructing the wonderful ideas from their imaginations. LEGO® bricks automatically engage multiple children, inviting them to construct together;

discussing ideas and negotiating roles. Children use the bricks as a tool for thinking, communicating and developing an understanding and appreciation of each other's ideas and contributions.

Key learning values

- Creativity
- Self-expression
- Exploring the world
- Sorting and categorising
- Roles and responsibilities

◀ Creative LEGO DUPLO® Brick Set

LEG5019 \$99.95

1-6 160 3-5yrs

Set children's creativity free with this imaginative LEGO DUPLO® Core Set. Not only will it inspire big ideas in young minds, it will encourage self-expression and develop fine motor skills as they build, deconstruct and build again. Building cards provide support and inspiration so children can enjoy endless building fun!

XL LEGO® DUPLO® Core Set

LEGG9090 \$429.95

10+ 562 1½+yrs

With 562 elements, this set is a dream come true for children to explore their creative potential by building all sorts of environments and models. Features illustrations of suggested models and a world of figures and special elements.

Shape & colour recognition

Collaboration

562 bricks!

Self-expression

LEGO® DUPLO® bricks are 8 times the size of original LEGO bricks - yet they both connect together!

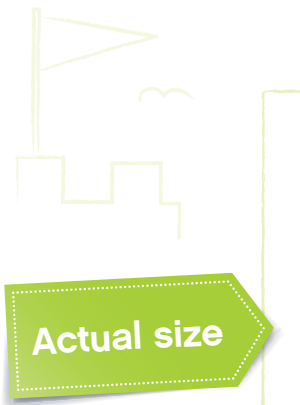

LEGO Soft Brick Set

LEG5003 **\$949.95**

This award-winning set is packed with standard and curved LEGO® Soft elements that make it easy for children to develop physical skills and spatial awareness as they build life-sized figures, walls, towers, and obstacle courses. This set encourages exploration of space, shape, and colour while it also develops gross motor skills. Observe as children creatively set the scene and retell stories using these unique bricks.

Actual size

9.5CM

“My children love building with the LEGO Soft bricks.” - Beth Mason, Early Childhood Educator

Collaboration

Gross motor skills

Use with the Cafe+ set (LEG5004) to build your own café, restaurant or kitchen.

Creativity

Social and Emotional Development

Early childhood teachers have the challenging task of preparing children for school and life. Building social skills is one of the most critical factors in children's development and will have an influence on the rest of their lives.

Children collaborate on a range of building experiences, while recognising feelings and identifying similarities and differences.

Key learning values

- Recognising and understanding emotions
- Understanding relationships
- Collaboration
- Sense of self
- Taking turns

18 53 2-5yrs

Community People & Vehicles Set

LEG5010K **\$199.95** SAVE \$29.95

Kit includes: 1x LEG5010 Community People and 1x LEG5006 Multi Vehicles Set. A total of 53 pieces. Ages 2+ years

NEW

Roles and responsibilities

Understanding relationships

◀ **Our Town**

LEG5021 **\$239.95**

16 270 3-5yrs

There's a lot happening in Our Town. It's a busy community full of buildings, everyday heroes and activity. As children have fun collaborating and constructing different urban environments, they intuitively discover what it means to be part of a community.

Build Me "Emotions"

LEG5018 \$129.95

Build Me "Emotions" invites preschoolers to explore emotions and physical characteristics in a fun and engaging way. As children collaborate on a range of character building experiences, they recognise feelings and identify similarities and differences. Building cards provide support and inspiration so children can continue to build and rebuild characters again and again!

Share your feelings in a hands-on, engaging way!

Exploring the world

Roles and responsibilities

◀ **Multi Vehicles Set**

LEG5006 **\$129.95**

1-8 32 2-5yrs

Explore the world through the power of creative play! By role playing both familiar and new exciting travel scenarios, children will learn about transportation, discover the importance of interpersonal relationships and explore our place in the wider world. It is also a great way to expand existing LEGO® DUPLO® sets!

World People Set

LEG5011 **\$99.95**

1-8 16 2-5yrs

The World People Set is a powerful tool that encourages discussions about respecting similarities and differences among people. The set invites children to role play with four different families and opens their minds to exploring cultures, gender, age and family relationships.

Understanding relationships

Exploring the world

Role play

Actual size

6.5CM

Wild Animals Set

LEG5012 \$129.95

Invite children to explore the world through animals, animal families and habitats. As children construct a home and setting for each animal, they will learn about what animals need to survive and how they are different from one another. Teachers can even introduce early maths through sorting and categorising activities. The possibilities are endless!

Understanding relationships

Sorting & categorising

Roles and responsibilities

Exploring the world

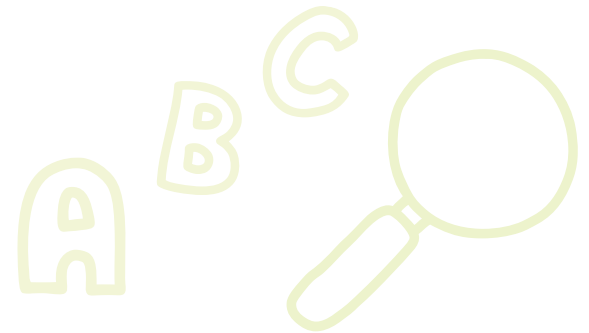

Role play

Community People Set

LEG5010 \$99.95

16 21 2-5yrs

Encourage children to explore the world they live in through different people and occupations. As children role play and talk about each of the 21 unique characters in the set, they will learn important lessons about gender, age, relationships, and the unique roles and responsibilities people have in their communities.

Use Community People Set and Wild Animal Set to enhance role play.

Creative building

Role play

Speaking & listening

Playground

LEG5001 \$164.95

16 104 2-5yrs

Deepen children's understanding of relationships as they construct a familiar place where they can explore the concepts of friendship, feelings and community. The set encourages creative play and imaginative storytelling as it inspires children to role play around important and practical ideas like sharing equipment, conflict resolution, and playground safety.

Encourage social play & communication

Large Farm

LEG5007 **\$229.95**

What's life like on a farm? With the Large Farm Set, you can explore together! The set invites children to construct and role play in this exciting world as they build their collaborative and language skills. They can even work on early maths skills by sorting and categorising the animals.

Understanding the world

Storytelling

Role play

Early Language and Literacy

Children learn about communication as they begin to express their thoughts and ideas. LEGO® Education encourages this development and introduces basic storytelling by asking children to construct fantastic fairy tales and sensational imaginative short stories

with LEGO DUPLO® bricks, characters and inspirational backdrop cards. Enable preschoolers to stand in the spotlight and share with others by telling expressive and imaginative stories together.

Key learning values

- Speaking and listening
- Creativity
- Storytelling
- Collaboration
- Role play

StoryTales

LEG5005 **\$189.95**

18 109 3-6yrs

Promote creativity, imaginative storytelling and language development with this unique and engaging storytelling set. Children will naturally collaborate and develop speaking and listening skills as they build their stories and role play. Anyone can tell a story with StoryTales!

The story starts the moment two bricks come together.

Early Maths and Science

LEGO® Education Preschool solutions naturally inspire young minds to explore numbers, shapes and colours, and problem solving through playing together. Children learn to experiment by endlessly constructing and reconstructing

their different creations. As they build together, the colourful bricks and figures provide an engaging, hands-on way to understand concepts such as simple addition and subtraction.

Tubes Experiment Set

LEG9076 **\$219.95**

Children love to find out how things work! With the Tubes Experiment Set, they'll develop fine motor and problem solving skills while discovering creative new ways to construct the tubes. The set also ignites their inner scientist as they investigate, construct, and test important concepts like cause and effect.

Perfect for
STEM

Key learning values

- Problem solving
- Observing and describing
- Simple addition and subtraction
- Sorting and categorising
- Creativity

Café+ Set

LEG5004 \$149.95   

Stimulate children to play and collaborate as they construct various food items and learn to sort, count, match and pattern. The unique and colourful bricks, as well as menu and recipe cards, inspire language and role play around restaurants, shopping and people's needs. Children will naturally be practising basic maths as they play with this engaging set.

Learning maths through play

Problem solving

LEGO® DUPLO® Maths Train & Accessories
 LEG10506K **\$229.00** **SAVE \$10.90**

Kit includes: 1x LEG5008 Maths Train and 1x LEG10506 Maths Train Accessories Set. Ages 2-5+ years

Maths Train

LEG5008 **\$199.95**

1-6 167 2-5yrs

Discover counting, patterns and simple addition and subtraction with a fun and imaginative set that also teaches the purpose of stations and trains. Children will role play exciting transportation scenarios as they use the crane to load and unload colourful train cargo and construct stations along a delivery route that they create!

Teaches basic math skills as it explores transportation

Lay the STEM Foundation with Early Simple Machines

Early Simple Machines is an engaging hands-on tool that uses real-life LEGO® elements to help kindergarteners and first-graders learn how gears, levers, pulleys, wheels and axles work, while gaining early insight into science and engineering.

Early Simple Machines Curriculum Solution

LEG9656 **\$239.95**

This set features a brick assortment and eight double-sided, full-colour building instructions. The set includes gears, levers, pulleys and wheels and axles, as well as a plastic punch-out sheet with eyes, sails, scales and wings.

Use this set with the accompanying curriculum pack to conduct full lessons, extension activities and problem solving tasks. The support materials provided in this curriculum pack include teacher guides and student worksheets.

◀ **Tech Machines**

LEGS002 **\$299.95**

Transform your children into expert builders! With the Tech Machines set in your classroom, you'll help children develop their fine motor and problem solving skills while simultaneously unleashing their creativity as they construct classic machines.

Excellent for STEM

Creativity

Fine motor skills

Problem solving

“My five year olds love this set. Tech Machines is usually the most popular thing in the classroom particularly for those children who are looking for a challenge. They especially love the screwdrivers that you use to put the pieces together and the moving parts.” - Kate Macauley, Early Childhood Educator

Engage children with technology

12 Tips For using LEGO® Education in Early Childhood Settings – By Luke Touhill

1. Make LEGO® Education an everyday experience

When children have the opportunity to use LEGO® Education regularly they quickly learn how to use it effectively.

2. Treat LEGO bricks as a creative material

LEGO bricks are a creative material that allows children to explore and express their ideas. Treat it as you would any other creative material – help children learn the skills they need to use it well and then allow them the freedom to use it to express themselves. And don't expect perfection. It's not about creating the perfect model, it's about being creative.

3. Build a collection of specialist pieces

Sometimes children's interest in a particular way or type of building means you need lots of specialist pieces. Consider some of the specialist equipment packs such as vehicle parts, roof tiles or windows and doors to supplement your general LEGO Education collection.

4. Make the LEGO Education area inviting

How have you set up your LEGO Education area? A low table often works well to keep children's constructions off the ground while still allowing children to sit on the floor as they build. Consider whether there is enough space for the number of children who will play there? Are there enough pieces? Does the range of different pieces allow children to build easily and without frustration?

“It’s a flying car... you can sit in the front or at the back or at the side so that you can go in whatever direction you want to. The propellers help it to fly and it has computers so that you don’t get lost” – Will, age 4

Actual size

5. Is it easy to find the right piece?

Think about how children will search for the pieces they want – several containers are often better than one (especially if there are more than 3 or 4 children using the area) and wide shallow containers work better than smaller deeper ones. If you're really organised consider sorting the LEGO bricks into basic categories to make finding the right pieces even easier.

6. Get involved

As with any play experience, adult support and encouragement makes a difference. Don't assume children will automatically know how to use LEGO bricks. As children are learning how to build you might demonstrate how to use certain pieces. As they become more proficient it might be enough simply to talk with them about what they are building – asking open-ended questions to encourage thinking about what they are doing and what they might do next.

LEGO® System

LEGO DUPLO®

6.5CM

LEGO DUPLO®

4.2CM

LEGO Minifigures

7. Make sure there are enough LEGO Education people

Children love to populate their LEGO Education creations with people. Having enough for everyone helps to avoid conflict. A balance of male and female helps, as do multiples of particularly popular characters.

8. Encourage ideas

LEGO Education is about being creative but not everyone can be creative in a vacuum. Sometimes too much freedom is as limiting as not enough. Provide pictures and other stimulus to encourage children's ideas. Those who want them will use them, those who don't will build for themselves anyway. Pictures of real life objects, photos of children's previous models and simple instructions are all good ways to stimulate an initial idea.

9. Dig deeper

Young children's LEGO Education creations rarely look like the picture on the box or in the catalogue. Don't be fooled by appearances. The ideas behind such creations are what is most important. To find out the learning that is going on talk to the children about what they have built and why. Documenting their stories as well as their creations can be a powerful way to show the learning and ideas that LEGO Education inspires.

10. It's not all about the building

Once children have built something they usually want to play with it. Is there room for this to happen? And what happens to the children's constructions once they've finished with them? Is there somewhere safe they can be kept to show parents and siblings at the end of the day or to return to later in the day? Can educators (or children) take a photo of the model for future reference or discussion?

11. Look after the LEGO Education area

Keeping the LEGO Education area in a manageable state is important. LEGO bricks that are not looked after can quickly spread everywhere. A chaotic area also does little to attract and engage children's interest or encourage them to keep it tidy themselves.

12. Enjoy yourself

If you've never played with LEGO bricks before then you might find it hard to appreciate how it works and what it involves. Try it for yourself – get a feel for the different pieces and what you can do with them so that you are able to support the children in their play. Above all enjoy watching children's creativity come alive.

Building Relationships: LEGO® Education & Social Development

For young children LEGO Education play is a social experience. They don't just build - they talk about what they are doing, compare creations, share ideas and pieces, and give each other building advice along the way. All the time learning what it is to be part of a group, to negotiate and share, to take turns and to work together cooperatively.

And that's just the start. Once they've finished building they usually want to play with what they've made... and that's a whole world of social play!
