A selection of writing and drawing tools to create a picture or story

Chalk

- Chalk is great to work with, as mistakes can be removed easily
- Use with chalkboards, black paper or on pavements
- Use the long side for broad strokes and the top piece to draw thin lines

Crayons

- The very first crayons were a mix of charcoal and oil and were always black
- These days, crayons are made of pigment and wax in a variety of colours
- They are easy to work with, non-toxic, inexpensive and not messy

Pastels

- Pastels are sticks of pure pigment
- Hard pastels are able to be shaped and sharpened to achieve more exact lines but are made with less pigment than soft pastels
- Soft pastels crumble more easily and smudge however they contain more pigment

Oil Pastels

- They look like crayons but are much smoother, brighter and easier to blend
- The pigments contain non-drying oils and binders that are less powdery than soft pastels
- They provide a harder edge than “soft” pastels but are more difficult to blend

Charcoal

- Charcoal sticks are made from kiln-fired willow twigs
- Charcoal is mostly used in stick or pencil form for sketching and free drawing
- It is rich, crumbly and smudges easily and can be blended by using fingers or erasers

Graphite Pencils

- Use a combination of both H and B pencils to create a full range of values
- H pencils work for the light and middle values, B pencils for middle and dark values
- 6H is the lightest (hardest), and the 6B is the darkest (softest)

Watercolour Pencils

- Wet the pencil and then draw with it or wet the paper or surface you are working on
- Always use watercolour paper, regular drawing paper will buckle when it gets wet
- When using water it will look a few shades lighter than the pencils you are using

Markers

- These are used to lay down strong areas of colour
- Great for drawing and colouring in
- Available in thin, thick, permanent, whiteboard and metallic and available in a large assortment of different colours

Fabric Markers

- Used for drawing on any type of fabrics or materials
- Great for use with stencils
- Less messy than paint and creates cleaner line work

Pens

- A variety of different styled pens for all drawing and sketching
- A ‘stay anywhere’ pen to write on any surface
- Fine line pens for detailed work
- Gel pens are thick and stand out on dark surfaces

Calligraphy

- Decorative handwritten lettering
- Can use either markers, nibs or brush pens to achieve strokes
- Use with inks on cartridge paper for best results
- Develop your own unique style

Watercolour

Using a watercolour pencil is very similar to using a coloured pencil. Add water to your drawing to reveal their uniqueness. Wet the pencil and then draw with it or wet the paper or surface you are working on. Always use watercolour paper, regular drawing paper will buckle when it gets wet. When using water it will look a few shades lighter than the pencils you are using.
