Build a Christmas snowman using oven bake clay. Assemble materials in a jar, then shake the globe to watch it snow

What you will need:

- Glass Jar (AM1780)
- Oven Bake Clay - White, Red, Green, Black & Orange (KC1025)
- Hot Glue Gun (TH120)
- Glitter Shaker Tubes - Silver & White (CS2400)
- Glitter Stars (CL6586)
- Modelling Tools (EC1163)
- Toothpicks x 3 (X404)
- Aluminium Foil (ST0180)

make a Christmas snow globe

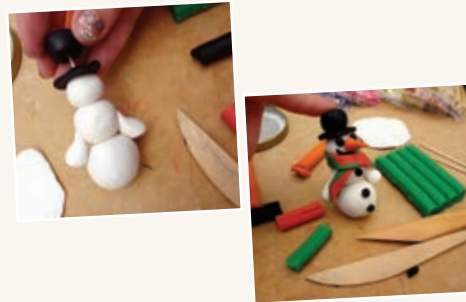

Step 1

Cut out a small, medium and large piece of white oven bake clay. Roll each piece into a ball. Connect each ball with a toothpick, shaping into a snowman. Leave the toothpick sticking out of the top to attach a hat.

Step 2

Model a black hat, buttons, a red and green scarf, white stumpy arms, eyes, mouth and an orange carrot nose with the oven bake clay and attach by simply sticking them onto the snowman.

Step 3

Scrunch up a ball of aluminium foil and lay a flat piece of white oven bake clay over the foil to be used as the snowman's base. Attach the snowman on top of the base with half of a toothpick.

Step 4

Pre-heat the oven to 130 degrees Celsius. Bake your snowman upright for 15 minutes. Once the timer goes off, take the snowman out of the oven and let it cool before handling. Now your snowman is solid.

Step 5

Glue the snowman to the inside of the jar lid with a hot glue gun, this requires adult supervision. (Do not use water-based glue as the snowman will not be secure once water is added). Add white and silver glitter to the jar, fill to the top with pre-boiled water (ensure water has cooled before pouring). For a bit of colour, food dye can be added.

Step 6

Set the jar in a bowl and carefully place the snowman into the jar filled with water. It will overflow, however, this prevents an air-bubble from forming in the jar. Screw the lid on tightly. Shake the jar and watch the snowflakes float around your snowman!

Our Christmas Favourites

new
