### **MyBurrow Tunnel - Wombat**

The MyBurrow wombat is an essential sensory tool made of premuim fabric that is safe for children to crawl through like a tunnel. With firm attachments to the carpet, small groups of children can access the Wombat together. And older children can produce big movements underneath. The uniqueness of MyBurrow in comparison to weighted vests, body socks, and traditional Lycra tunnels is that is is highly flexible in that it may be used with a variety of children at the same time, without losing time that is associated with swapping and sharing vests. It allows for continuous sensory stimulation throughout an activity. Its fixed positioning ensures ease of accessibility and safety in most classroom and home environments. Size: 270(L) x 150(W)
