Heavy Duty Light Weight Trolley – 2 Shelf

Designed for laboratory use, these great trolleys are made to handle a hard life being pushed around carrying a heavy load. They are great for storing class sets of microscopes, power supplies and general apparatus. Included in the design is a thoughtful lip around the edge of each shelf, specially designed to stop anything sliding off while moving between prep rooms and remote laboratories. Designed to carry 250kg. Durable heavy duty construction. Two swivel wheels and 2 locking brakes. Lightweight for easy mobility.

Siqura Foaming Hand Sanitiser

SIQURA™ Antibacterial Hand Sanitiser is a simple and effective way to stop contact-based infection. It is alcohol-free and helps keep your skin soft and healthy. It is suitable for use by children, and can be used around food, pets and plants. Unlike traditional alcohol-based hand sanitisers that only provide short term protection, our unique QuatLok technology creates an invisible microscopic layer of protection on your skin which continually destroys bacteria for up to 24 hours (assumes typical daily activity). Available in 50ml & 375ml pump bottles.

EXCLUSIVE

Handheld Digital Microscope with Polariser

The Anyview USB Microscope with polarizer is a handheld colour digital microscope with high quality 2.0 megapixel image sensor. It is small, easy to operate and portable fun for professional application.

SER5006006 200x \$165.95

Digital Microscope – USB 5MP with Software

A USB microscope with a simple but incredibly useful stand that allows students to make fine adjustments to the vertical height of the microscope and swivel the scope arm around a 360 degree range. This permits a greater level of viewing accuracy and stability. On either side of the stand there are two metal holders to lock your object in place and a printed ruler to help you get an approximate feel for the length of objects. The optics built into this microscope are excellent. The sharpness of texture on magnified objects is incredible to look at. You will spend hours searching for things to magnify. It comes with a great piece of software for capturing 5MP (2592x1944) res JPGs, BMPs, TIFFs or PNGs and 1280x960 pixel AVI files. Compatible with WinXP/Vista/7/8, Mac 10.6-10.8. Magnification ratio: 10x, 300x (at 5MP res). Find full specifications on our website.

\$179.95

Power Supply - 1 Ampere

A compact regulated power supply offering 1.5, 3, 4.5, 6, 9, 12 Volts at currents up to 1 Amp. Both DC and AC outputs may be used simultaneously up to rated output. The unit is short circuit & overload protected with 0.4 Amp. fuse on the back panel. Complete with moulded mains lead and plug. Operates on 220 V AC / 120 V AC 50 Hz. Size 18 x 14 x 10 cm

EIS1323A
\$114.95

Power Supply 0-25V AC DC 6-10A with Digital Voltmeter

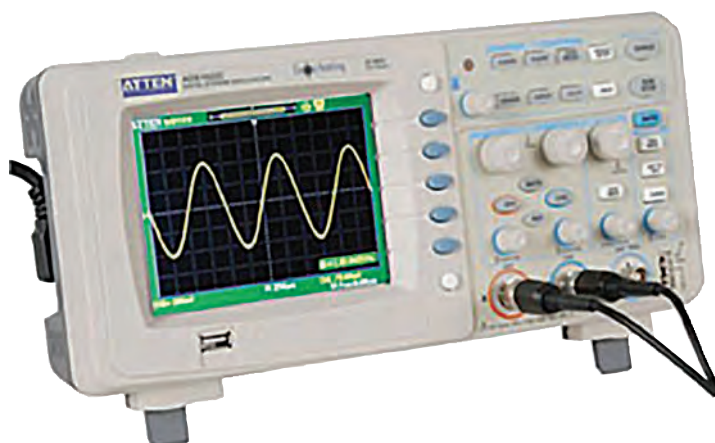

This is a robust and compact unit suitable for most laboratory experiments where large current and smooth adjustment from 0 to 25 volts of both AC and DC is required.

IEC2641002
\$699.95

Oscilloscope – Dual Trace Digital – 20Mhz

A high quality economic double channel analog oscilloscope for processing and analysing the waveform and bandwidth of electronic signals. Display these as a graph as a function of time.

SER1149001 Oscilloscope \$749.95
SER1137001 Oscilloscope Connector, BNC \$11.95

Signal Generator – Dual Sound Wave

This dual sound wave generator provides two sources of oscillating, sine, triangle or sawtooth waveforms from one microprocessor. These waves can be perfectly in phase or shifted in frequency and phase relative to one another.

SER1052320 \$479.95

Signal Generator – Tri-Mode Type

This tri mode signal generator functions as a regulated power supply, a signal generator and an audio amplifier with oscilloscope output and internal speaker making it an value for money laboratory essential item.

SERLB3758-001 \$699.95

Oscilloscope – Microphone BNC Connector

Designed for use with an oscilloscope, this microphone can be used for a variety of sound based experiments.

SER1024024 \$41.95

Microphone – Oscilloscope and Signal Generator

Demonstrate wave forms of sound easily on the oscilloscope without the use of amplifier with this oscilloscope signal generator,

SER1104008 \$34.95

Multimeters

Multimeters are a must have in every lab! These cool tools are able to work as a voltmeter, ammeter and as an ohmmeter, allowing you to measure voltage, current and resistance in any electrical circuit. In our range you will find both analogue and digital Multimeters. Let your students learn the basics of electricity with these easy to use Multimeters.

Dual Range Volt & Amp Meter

A versatile, dual range Volt & Amp meter, that measures both Volts and Amps. Simply slide the selector from A to V to change between Amps and Volts. Amps: 5A / 1A / 100mA / 100uA, Volts: 50V / 10V / 1V / 100mV.

SER1052023

\$29.95

Digital Multimeter

This digital multimeter has a large, easy to read LCD screen with a maximum reading of 1999. It has full range overload protection and automatic negative polarity indication. The multimeter is powered by a 9V battery and comes with test leads and low battery indication, the power will automatically be cut off when the multimeter hasn't been used for 15 minutes. It also has a stand, and the screen position can be adjusted for easy viewing at different angles.

NK0411

\$25.95

Digital Multimeter

This full feature digital multimeter with plug-in 0.4cm probes and transistor tester is the ideal first multimeter for any classroom. The meter. Features 3.5 digit, 1.25cm high LCD display, transistor test, diode test and 10amp current plug-in leads.

EL1500

\$16.95

Voltmeters

A Voltmeter is an instrument used for measuring the electrical potential difference between two points in an electrical circuit. Our wide range of Voltmeters includes both analogue and digital devices. In our range you will find single, double and triple range Voltmeters. MTA has all the essential Voltmeters for your classroom.

Voltmeter - Double Range - DC 0-50-500mV

A double range voltmeter that can measure direct currents ranging from 0-50 millivolts, and 0-500 millivolts.

SER1040013

\$29.95

Voltmeter - Student - Double Range - AC 0-12-36V

A double range student voltage meter that can measure an alternating current. This voltmeter can measure from 0-12 volts, as well as 0-36 volts.

SER1040020

\$29.95

Voltmeter

An analogue DC voltmeter used for measuring electric potential in volts. Measuring range: -0-15V

EIS1080A

\$19.95

Voltmeter - Double Range - DC 0-2-20V

A double range voltage meter which can measure direct currents ranging from 0-2 volts, and 0-20 volts

SER1040006

\$29.95

Voltmeter - Double Range - DC 0-1-10V

This double range voltmeter can read direct currents ranging from 0-1 and 0-10 volts.

SER1040014

\$29.95

Voltmeter - Digital - 0-19.99V Range

A digital voltage meter, which will allow you to measure voltage use from 0 - 19.99 volts. Displays the voltage in a numerical format, which will allow for easy reading.

SER1040035

\$69.95

Voltmeter

Quality voltmeters that measure electrical potential difference in electrical circuits.

SER1040007

SER1040016

Single Range - AC 0-20V \$34.95
Centre Read - DC 10-0-10V \$34.95

Physics

Voltmeters & Ammeters

Ammeters

An Ammeter is used to measure the current of a circuit. Find all the high quality ammeters that MTA has to offer right here.

Ammeter – Digital

These digital ammeters are useful for measuring electrical current in a circuit, with an accuracy of $\pm 2.5\%$. Features Low battery indicator, Overload protection, and Automatic Negative Polarity indication. Uses 4 AA Batteries.

SER1040037	DC 0-199.9mA	\$69.95
SER1040034	AC/DC 0-19.99A	\$69.95
SER1040004	AC/DC 0-19.99A	\$34.95

Ammeter – Single Range

These single range Ammeters feature a standard centre pole moving coil, with construction incorporating rectifiers and housed in a sloping front plastic case. Mirror backed scales for more accuracy in reading, up to $\pm 2.5\%$. Also features colour coded 4mm input terminals.

SER1040002	AC 0/5A	\$34.95
SER1040001	DC 0/5A	\$34.95
SER1040022	AC 0-10A	\$43.95

Ammeter – Double Range

These double range Ammeters feature a standard centre pole moving coil, with construction incorporating rectifiers and housed in a sloping front plastic case. Mirror backed scales for more accuracy in reading, up to $\pm 2.5\%$. Also features colour coded 4mm input terminals.

SER1040011	AC 0/50/500mA	\$34.95
SER1040019	AC 0/1/5A	\$34.95
SER1040018	DC 0/50/250mA	\$34.95
SER1040005	DC 0/50/500mA	\$34.95
SER1040017	DC 0/1/5A	\$34.95
SER1040008	DC 0/1/10A	\$34.95

Ammeter – Centre Read

These centre read DC Ammeters feature a standard centre pole moving coil, with construction incorporating rectifiers and housed in a sloping front plastic case. Mirror backed scales for more accuracy in reading, up to $\pm 2.5\%$. Also features colour coded 4mm input terminals.

SER1040010	DC 1/0/1A	\$34.95
SER1040029	DC 20/0/100uA	\$34.95
SER1040003	DC 60/0/60uA	\$34.95
SER1040012	DC 100/0/100mA	\$34.95
SER1040023	DC 500/0/500mA	\$34.95

Decade Resistance Box – 3 dial

These 3 dial decade resistance allow for variable resistance within a circuit to simulate specific electrical resistance quickly and easily. Ranges from 0.1 Ohm to 10 Ohm. Feature compact and robust design for both industrial and student use. Anodised aluminium dust resistant enclosure with earthing terminal. 4mm spin free captive socket head terminals for use with wires or banana plugs. Internal connections are by printed circuit board for better reliability. Each dial provides 10 steps of resistance so that the values are selected in complete decades.

SEREM2821-001	3 dial x 0.1 Ohm	\$199.95
SEREM2822-001	3 dial x 1 Ohm	\$179.95
SEREM2823-001	3 dial x 10 Ohm	\$179.95

Decade Resistance Box – 4 dial

These 4 dial decade resistance allow for variable resistance within a circuit to simulate specific electrical resistance quickly and easily. Ranges from 0.1 Ohm to 10 Ohm. Feature compact and robust design for both industrial and student use. Anodised aluminium dust resistant enclosure with earthing terminal. 4mm spin free captive socket head terminals for use with wires or banana plugs. Internal connections are by printed circuit board for better reliability. Each dial provides 10 steps of resistance so that the values are selected in complete decades.

SEREM2831-001	4 dial x 0.1 Ohm	\$239.95
SEREM2832-001	4 dial x 1 Ohm	\$219.95
SEREM2833-001	4 Dial x 10 Ohm	\$249.95

Decade Resistance Box – 5 dial

These 5 dial decade resistance allow for variable resistance within a circuit to simulate specific electrical resistance quickly and easily. Ranges from 1 Ohm to 100 Ohm. Feature compact and robust design for both industrial and student use. Anodised aluminium dust resistant enclosure with earthing terminal. 4mm spin free captive socket head terminals for use with wires or banana plugs. Internal connections are by printed circuit board for better reliability. Each dial provides 10 steps of resistance so that the values are selected in complete decades.

SEREM2841-001	5 dial x 1 Ohm	\$279.95
SEREM2842-001	5 dial x 10 Ohm	\$259.95
SEREM2843-001	5 dial x 100 Ohm	\$279.95

Decade Resistance Box – 6 dial

These 6 dial decade resistance allow for variable resistance within a circuit to simulate specific electrical resistance quickly and easily. Ranges from 0.1 Ohm to 10 Ohm. Feature compact and robust design for both industrial and student use. Anodised aluminium dust resistant enclosure with earthing terminal. 4mm spin free captive socket head terminals for use with wires or banana plugs. Internal connections are by printed circuit board for better reliability. Each dial provides 10 steps of resistance so that the values are selected in complete decades.

SEREM2850-001	6 dial x 0.1 Ohm	\$309.95
SEREM2852-001	6 dial x 10 Ohm	\$299.95
SER1035388	6 dial x 1 Ohm	\$xxx.xx

Physics

Light & Optics

Physics Curriculum Kit Refraction Reflection

Teach the basic principles of light absorption, reflection and refraction with this Physics Curriculum Kit. The resources in this kit are in line with the topics of the Australian Curriculum: Science – Physics Year 5.

ESC005P

\$511.95

Diffraction Grating Kit – Complete

Measure the wavelength of light by viewing a single ray of light through single, double or adjustable slits. For use in the new physics curriculum.

SERHL1670-001

\$59.95

Light, Colour, Refraction & Reflection Kit

Learn everything about colour mixing, rays of light, reflection and refraction! This kit is a great collection of resources to learn about focal points, angles of light rays and much more. Contents may vary.

ESC007P

\$643.95

Kit includes

- Optical bench
- Glow in the dark LED torches – Set of 12
- Newton colour mixing model
- LED ray box
- Acrylic blocks – Set of 7
- Glass lenses – Set of 6
- Refraction tank – Set of 4
- Wooden lens holder – Set of 4
- Refraction & reflection demonstration model
- Mounted mirrors – Set of 10
- Colour paddles – Set of 15

V-Hub & V-Log

Data logging is the easiest way to integrate technology into the science classroom. Award-winning V-Hub and V-Log data loggers from Data Harvest are sure to meet all your classroom needs at a ground-breaking price!

USB & Bluetooth + Charging Tray

Get the most out of your lessons by giving students the chance to work in groups as they discover science together. V-Hub4 (SER100432) five pack solution works with the entire SmartQ sensor range. With a built-in rechargeable battery, V-Hub8 (SER100434) powers all of the sensors. With built in sensors, USB, bluetooth and optional Wi-Fi connectivity, V-Log8 (SER100438) offers all the features you need at a groundbreaking price!

SER100432	5 x V-Hub4	\$1,499.95
SER100434	5 x V-Hub8	\$1,899.95
SER100438	5 x V-Log8	\$2,499.95

Data Logger EasySense – USB & Bluetooth

With USB, Wi-Fi and Bluetooth options, alongside our FREE EasySense software for PC Windows, Mac OS, iPad iOS, Android & Chromebooks (that support Android Apps), we offer a versatile yet simple solution that will cover all of your data logging requirements. With a built-in rechargeable battery, V-Hub8 powers all of the sensors. Classroom management is simplified, as only the V-Hub8 needs re-charging! The V-Hub8 is small and light, it can be mounted on a retort stand along with the experiment apparatus, using the mounting rod supplied.

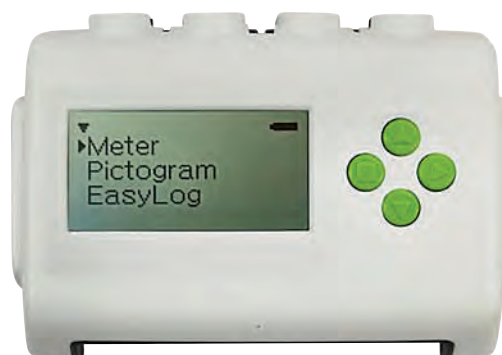

SER2504PK	V-Hub4 – USB & Bluetooth	\$259.95
SER2508PK	V-Hub8 – USB & Bluetooth	\$349.95

Data Logger EasySense – VLog

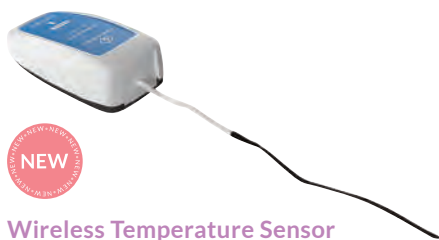

With built-in USB connectivity and optional Wi-Fi, offers all the remote data logging features you need at a ground breaking price! 4 SmartQ sensor inputs, Large graphical display, Remotely record data (14 days), Fast logging mode (50,000 samples per second), Accurate digital timing mode (4 microseconds), Built-in battery, USB rechargeable, USB & Bluetooth connectivity, Optional Wi-Fi module

SER2404PK	VLog 4 (USB)	\$329.95
SER2408PK	VLog 8 (USB)	\$399.95

Data Logging Wireless Sensors

wireless

NEW

Wireless Temperature Sensor – Fast Response

An extremely responsive temperature sensor featuring an exposed thermistor bead. Ideal for determining changes in skin temperature, measuring air temperature and more!

DATH1101

\$219.95

NEW

Wireless Magnetic Field Sensor

Explore the nature and strengths of magnetic fields around magnets or solenoids with this robust sensor that accurately measures the direction and magnitude field along three axes.

DATH1140

\$274.95

NEW

Wireless Gas Pressure Sensor – Absolute

Measures the total pressure on a system. When the single port is left open the sensor will measure atmospheric pressure.

DATH1150

\$289.95

NEW

Wireless Light & Colour Sensor

Measure the level of light in the visible spectrum as well as the primary colours of that light and the UV portion of the electromagnetic spectrum. Useful for experiments on reflectivity.

DATH1160

\$249.95

NEW

Wireless Sound Level Sensor

Accurately measure sound pressure level in decibels (dB) or examine the frequency content of sound in waveform (mV).

DATH1145

\$319.95

NEW

Wireless Gas Pressure Sensor – Differential

Measures the difference in pressure between the two ports. If one port is left open the measurement will be relative to atmospheric value.

DATH1151

\$289.95

NEW

Wireless Thermocouple Sensor

A wide temperature range sensor for use in a variety of experiments.

DATH1102

\$364.95

NEW

Wireless Motion Sensor

A sonar device that emits ultrasonic pulses which are reflected to and from an object to determine its relative distance from the sensor. Useful for experiments on velocity and acceleration and more.

DATH1190

\$379.95

NEW

Wireless Rotary Motion Sensor

A bidirectional position sensor capable of measuring a variety of motions eg pendulum, angular, rotational, etc.

DATH1195

\$564.95

NEW

Wireless Force Accelerometer Sensor

Includes a 3 axis accelerometer that measures acceleration force, both static and dynamic and a 3-axis gyroscope for applications where a high performance angular motion sensor is needed.

DATH1120

\$394.95

DATH1110

NEW

Wireless pH Sensor

These sensors combine to form a wireless bluetooth pH sensor pack that measures pH in mV range.

DATH1110

DATH2253

Adaptor \$164.95

Electrode \$124.95

DATH2253

NEW

Wireless Voltage & Current Sensor – 5V

A combined voltage and current sensor to measure both the electric current and the potential difference across a component in a circuit in low voltage AC or DC circuits.

DATH1131

\$394.95

Data Logger Smart Q Sensors

Award winning SmartQ technology offering uncompromised levels of accuracy and reliability. With over 50 sensors to choose from, there's a sensor available for almost all scientific experiments.

Oxygen

The SmartQ oxygen sensor can be used to measure oxygen concentration and changes in oxygen.

SER3131	Electrode	\$229.95
SER3130	Adaptor	\$119.95

Conductivity

Measures the conductivity of a solution. These two items must be used together.

SER3136	Electrode	\$99.95
SER3135	Adaptor	\$99.95

Force

Measure compression and extension forces applied perpendicular to the laser beam.

SER3143	\$199.95
---------	----------

Gas Pressure

Measure absolute or differential pressure with MTA's range of gas sensors.

SER3138	Accessory Pack	\$49.95
SER3139	Differential 10kPa	\$149.95
SER3141	Differential 200kPa	\$149.95
SER3142	Absolute 700kPa	\$149.95

Temperature

Measure changes of temperature in a wide range of experiments.

SER3100	Stainless	\$69.95
SER3101	Fast	\$69.95
SER3105	High (K-Type)	\$159.95
SER3107	Thermocouple Probe - K-Type	\$59.95

Differential Voltage

Measure the potential difference between the ends of DC and low-voltage AC circuits

SER3160	+/-20V	\$79.95
SER3161	0-10V	\$79.95
SER3162	1V	\$79.95

Current

High resolution current sensors measure DC and low-voltage AC currents to investigate power in circuits.

SER3165	+/-1A	\$99.95
SER3166	100mA	\$99.95
SER3167	10A	\$99.95

Magnetic Field

Measures magnetic fields around permanent magnets and electromagnets.

SER3170	10mT	\$149.95
SER3172	100mT	\$149.95

Recycling Stations

Always wondered if the waste recycling has been done correctly and which type of waste should go in which bin? Available in 30L and 60L. The 30L bins measure 57.5(H) x 41(W) x 30(L)cm. The bins come with a swing lid. The 60L bins measure 69(H) x 43(W) x 50(L)cm and come with a foot pedal. Each set comes in 4 colours – blue, green, yellow and red. They are also available individually.
