Features of Guided Audio CD Collection

- A lesson on CD to support guided reading. Expertly read to engage students with the book.
- Designed to engage one group of children in a meaningful book based activity.
- Students will benefit from an 'extra' lesson where they will be guided in an in-depth exploration of the text.
- Students will hear the book read aloud. The modelled reading will support the children in their own reading.
- The CDs DO NOT replace the guided reading lesson with the teacher but do provide an extra 'mini' lesson to support student growth in reading.

Teaching Points

The lessons, using selected LM Literacy titles, explicitly teach a range of text features including:

- letter-sound relationships
- grammar
- text structure
- punctuation
- spelling
- visual literacy
- reading strategies

Different aspects are in focus in the various titles.

A lesson on CD to support guided reading

Teacher Support

Download from www.teaching.com.au

- Each CD title contains notes to assist the teacher in organisation and to provide an overview of the content of the lesson the group will be engaged in.
- In addition, each of the Guided Audio lessons is accompanied by a response to the reading in the form of a blackline master.

Filter Options

All Wushka titles can be filtered by:

- title
- theme
- comprehension strategy
- text type
- fiction or non-fiction
- number of pages

to assist with focused literacy planning and teaching.

Easy-to-use narration & navigation buttons

Develop Listening, Reading and Writing Skills

Each of Wushka's levelled readers is narrated so as to cover every aspect of literacy learning. The speed of narration progresses with the difficulty of the reader and can be turned on or off at the teacher's discretion.

Comprehensive digital literacy program

Easily Manage Students' Home and School Reading

Teachers can manage their own class and set individual student reading profiles for school and home reading, easily editing settings such as reading levels, reading groups, access permissions and quiz and narration options. Initial set-up of teachers, classes and students is simple using our drag-and-drop system and can be managed by our Head Office Support Team.

Comprehension Quiz for Every Title

Each reader is accompanied by a comprehension quiz that can be set as compulsory or optional, or turned off altogether, at the teacher's discretion. The quizzes focus on literal, inferential and evaluative questioning.

Monitor Students' Progress

Ongoing reading statistics are available at individual student and whole class level and provide detailed insights into students' level of interaction, comprehension and progression, both at school and at home. Infographics and progress bars help teachers to monitor students easily.

Teacher Support Material for Every Title

Lesson plans, blackline masters and printable readers are available for all titles. Additional support materials such as reading records, discussion cards, sequence strips and word cards are available for selected titles, depending on the reading level.
