SPIKE™ Prime

LEGO® Education SPIKE™ Prime Set

LEGO® Education SPIKE™ Prime is the STEAM learning tool for students in grades 5-8, with a focus on developing skills in creativity, collaboration and critical thinking. Combining new and familiar building elements in a refreshing new colour scheme, easy-to-use hardware, and intuitive drag-and-drop coding language based on Scratch, SPIKE Prime continuously engages students through playful learning activities to think critically and to solve complex problems - regardless of their learning level.

LEGO Education SPIKE Prime offers four units, each with a specific theme focus. All units are designed to develop critical thinking skills through complex, engaging and personally relevant STEAM challenges. The lessons within each unit will become increasingly challenging and all include teacher support, introduction videos, curriculum links, extension exercises and more. The SPIKE App, based on the most widely used programming language in teaching - Scratch - can be used on both iOS and Android tablets, and Windows 10.

Mabot

Mabot is a plug-and-play modular robot for endless combinations and possibilities. Students build, customise and program robots, while exploring mechanisms, engineering, coding and developing STEAM skills. Mabot integrates complex functions into quality ball modules, so students can just simply plug and play! Multi-angle design allows numerous combinations and variations. The Mabot IDE app, designed on Scratch, will walk students through coding basics, allowing them to progress as they master modules. Teach sequences, loops, events, functions, logic, conditionals and more!

Why Mabot?

- Modular design, easy to assemble
- Multi-angle plug for multiple forms of robots
- Hot-plugging function allows easy accessibility and uninterrupted learning
- Comes with an entertaining app that turns learning into a game
- Compatible with LEGO®

Key Components:

- 1 x Control Ball
- 1 x Battery Ball
- 2 x 6-port Connection Ball
- 2 x Drive Ball
- 1 x Colour Sensor
