These fantastic teacher resources are included as a free bonus with many of our new curriculum aligned science kits. Look for this bubble

Sandra Bishop

Discovering Science Book Series

The Discovering Science Teacher book series is fully aligned to the Australian Curriculum and covers each of the three interrelated science strands - Science Understanding, Science as a Human Endeavour and Science Inquiry Skills and also the related sub-strands. It includes subject planners, week-by-week lesson plans and assessment record sheets for the teachers, as well as worksheets, resource and self-evaluation sheets for the students. Each lesson plan includes content descriptions, required resources, skills, a step-by-step activities section, extension activities and assessment ideas.

Conditions apply, see website for details. Valid until 31st December 2019. Promotional value excludes GST. Offer excludes export & new projects.

The curriculum links for each of the kits are shown where you see this icon.

Science Kits for the Australian Curriculum

The MTA Engaging with Science Kits have been specifically designed to use in conjunction with many of the available commercial Science programs that follow the Australian Science Curriculum (ACARA). The kits contain many of the suggested resources needed to complete lots of the activities set out in programs such as Hawker Brownlow's, R.I.C. Publications's Hands-on Science and the Australian Academy of Science's Primary Connections. All kits come in their own large container with lid and can be stacked and shelved in optional racking. Please note: we do not supply the programs with the kits. We supply the materials that can assist with using these programs.

Biological Science Foundation Kit TFC57001 Kit \$293.95

Blindfolds

Card 270qsm

• Eucalyptus Oil

Funnel

• Glue Stick

Cotton Balls

Living things have basic needs,

- · Identifying the needs of humans such as warmth, food and water, using students' own experiences.
- Recognising the needs of living things in a range of situations such as pets at home, plants in the garden or plants and animals in bushland
- · Comparing the needs of plants and animals.

Earth & Space Sciences Foundation Kit TFC57002 Kit Explore Day and Night and the 4 Seasons with this kit for foundation level students. Contents may vary, Balsa Wood Bucket – Collapsible Card A4 150gsm · Card A4 270gsm • Gratnells Clip-on Lid • Thermometer Classroom • Gratnells Jumbo Tray Clothes Pegs Wood Thermometer Digital • Coat Hanger Wire Hessian Thermometer Immersion Inflatable Globe Corrugated A4 Plastic Daily and seasonal changes in our environment, including the weather, affect everyday life (ACSSU004) · Linking the changes in the daily weather to the way we modify our behaviour and dress for different conditions, including examples from different cultures • Investigating how changes in the weather might affect animals such as pets, animals that hibernate, or migratory animals · Learning how Aboriginal and Torres Strait Islander concepts of time and weather patterns explain how things happen in the world around them

Foundation

Curriculum Kits

Biological Science Kit Year 1 TFC57003 Kit \$199.95

Compare the external features of living things with your Year 1 students using this kit. Contents may vary.

- Dessert Spoon
- Exploring Animals Chart Pack
- Gloves Disposable
- Gratnells Clip-on Lid
- Gratnells Jumbo Tray
- Jar
- · Life Cycle of a Butterfly Poster
- Magnifier Bi-Focal
- Manilla Folders
- Paint Brushes
- Rope
- Self-Adhesive Notes
- Spray Bottle
 - Living things have a variety of external features (ACSSU017)
- Recognising common features of animals such as head, legs and wings
- Describing the use of animal body parts for particular purposes such as moving and feeding
- Identifying common features of plants such as leaves and roots
- · Describing the use of plant parts for particular purposes such as making food and obtaining water

Physical Science Kit Year 1 TFC57004 Kit \$352.95 \$396.00 Have fun exploring Light and Sound with this Year 1 Physics kit. Contents may vary. \$352⁹⁵ Book • Balloons Mirrors SAVE \$43.05 • Blu Tack • Play Money - 20 Cent Coins • Candles Percussion Set • Cellophane - Packet e la • Torch Coat Hanger Wire • Cotton Twine • Cups • Gratnells Clip-on Lid Gratnells Extra Deep Trav Phoe Light and sound are produced Ð Bostik by a range of sources and can be sensed (ACSSU020) • Recognising senses are used to learn about the world around us: our eyes to detect light, our ears to detect sound, and touch to feel vibrations • Recognising that objects can be seen when light from sources is available to illuminate them • Comparing sounds made by musical instruments using characteristics such as loudness, pitch and actions used to make the sound

\$222.55

- Foil (Aluminium) Roll
- Food Colouring
- Gratnells Clip-on Lid
- Gratnells Extra Deep Trays Sieve
- Jar

Different materials can be combined, including by mixing, for a particular purpose (ACSSU031)

· Exploring the local environment to observe a variety of materials, and describing ways in which materials are used

Modelling Clay

ć

• Popsticks

- Investigating the effects of mixing materials together
- Suggesting why different parts of everyday objects such as toys and clothes are made from different materials
- Identifying materials such as paper that can be changed and remade or recycled into new products

Earth & Space Science Kit Year 2 TFC57007 Kit \$328.95

This kit is suitable for using with Year 2 students who are exploring the curriculum area of Earth's resources. Contents may vary.

Book

A change of state between solid and liquid can be caused by adding or removing heat (ACSSU046)

Ð

- Investigating how liquids and solids respond to changes in temperature, for example water changing to ice, or melting chocolate
- Exploring how changes from solid to liquid and liquid to solid can help us recycle materials
- Predicting the effect of heat on different materials

<image>

Living things, including plants and animals, depend on each other and the environment to survive (ACSSU073)

- Investigating how plants provide shelter for animals
- · Investigating the roles of living things in a habitat, for instance producers, consumers or decomposers
- Observing and describing predator-prey relationships
- Predicting the effects when living things in feeding relationships are removed or die out in an area
- · Recognising that interactions between living things may be competitive or mutually beneficial

lence

Living things have life cycles (ACSSU072)

- Making and recording observations of living things as they develop through their life cycles
- Describing the stages of life cycles of different living things such as insects, birds, frogs and flowering plants
- Comparing life cycles of animals and plants
- Recognising that environmental factors can affect life cycles such as fire and seed germination

Chemical Science Kit Year 4 TEC57014 Kit \$587.95

Forces can be exerted by one object on another through direct contact or from a distance (ACSSU076)

- Observing qualitatively how speed is affected by the size of a force
- Exploring how non-contact forces are similar to contact forces in terms of objects pushing and pulling another object
- Comparing and contrasting the effect of friction on different surfaces, such as tyres and shoes on a range of surfaces
- Investigating the effect of forces on the behaviour of an object through actions such as throwing, dropping, bouncing and rolling

Earth's surface changes over time

as a result of natural processes

and human activity (ACSSU075)

landforms, rocks or fossils

gully, sand dunes or river banks

Australia and in the Asia region

• Investigating the characteristics of soils

• Considering how different human activities cause erosion of the Earth's surface

• Considering the effect of events such as floods

and extreme weather on the landscape, both in

Collecting evidence of change from local

• Exploring a local area that has changed as a

result of natural processes, such as an eroded

Year 5

- (ACSSU077) • Recognising that substances exist in different states depending on the temperature
- Observing that gases have mass and take up space, demonstrated by using balloons or bubbles
- Exploring the way solids, liquids and gases change under different situations such as heating and cooling
- Recognising that not all substances can be easily classified on the basis of their observable properties

- Magnifying Glass
- Marker Permanent
- Masking Tape

The growth and survival of living things are affected by the physical conditions of their environment (ACSSU094)

- Investigating how changing the physical conditions for plants impacts on their growth and survival such as salt water, use of fertilizers and soil types
- Observing the growth of fungi such as yeast
 and bread mould in different conditions
- Researching organisms that live in extreme environments such as Antarctica or a desert
- Considering the effects of physical conditions causing migration and hibernation

Reversible or Irreversible? Support students as they investigate changes of state with this Year 6 Chemistry kit.

- Gratnells Jumbo Tray
- Ice Cube Tray
- Cups
- Mixing Bowl
 - Paper Towels Roll

ć

- Changes to materials can be reversible, such as melting, freezing, evaporating; or irreversible, such as burning and rusting (ACSSU095)
- Describing what happens when materials are mixed
- Investigating the solubility of common materials in water
- Investigating the change in state caused by heating and cooling of a familiar substance
- Investigating irreversible changes such as rusting, burning and cooking
- Exploring how reversible changes can be used to recycle materials

FREE freight on all orders over \$199. Conditions apply, see website for details.

Year 6

Earth & Space Science Kit Year 6 \$293.95 TEC57023 Kit

This kit is perfect for use with Year 6 students as they investigate the effects of earthquakes, tsunamis and other major geological events on the Earth's surface. Contents may vary

\$356.60 SAVE \$62.65

- Card A4 270gsm
- Adhesive Dots
- Envelopes
- Gratnells Clip-on Lid
- Magnifying Glass Map of Australia • Marker Permanent

• Gratnells Extra Deep Tray

- Measuring Beakers
- Modelling Clay • Petri Dish
- Non Interlocking Cubes
- Popsticks Self-Adhesive Notes
- Toothpicks

- Sudden geological changes and extreme weather events can affect Earth's surface (ACSSU096)
- Investigating major geological events such as earthquakes, volcanic eruptions and tsunamis in Australia, the Asia region and throughout the world
- Recognising that earthquakes can cause tsunamis
- · Describing how people measure significant geological events
- Exploring ways that scientific understanding can assist in natural disaster management to minimise both long and short-term effects
- Considering the effect of drought on living and non-living aspects of the environment

Physical Science Year 6 TFC57024 Kit \$1,077.95

All about Electricity! This exciting kit is suitable for use with Year 6 students as they study electrical circuits and how electricity can be generated.

- Adhesive Tape
- Alligator Clips with Leads
- Alnico Bar Magnets
- Balloons
- Battery AA
- Battery D
- Battery Watch
- Battery Holder 2 x AA
- Blu Tack
- Bulb Holders
- Bulbs 1.5v
- Buzzer Electric
- Card A4 270gsm
- Cellophane
- Ceramic Magnets Round
- Clothes Pegs
- Corrugated Plastic Sheets

Electrical circuits provide a means of transferring and transforming electricity (ACSSU097)

- Recognising the need for a complete circuit to allow the flow of electricity
- Investigating different electrical conductors and insulators
- Exploring the features of electrical devices such as switches and light globes

 Cutting Knife Dessert Spoon Digital Multimeter

Copper Wire

Cotton Twine

• Cups

- Ferrite Magnets Set
- Foil (Aluminium) Roll
- Foil Tray
- Gratnells Clip-on Lid
- Gratnells Jumbo Trays
- Hessian
- Light Bulbs Collection
- Magnifying Glass
- Manilla Folders
- Marker Permanent
- Masking Tape
 - Energy from a variety of sources can be used to generate electricity (ACSSU219)
 - Investigating how moving air and water can turn turbines to generate electricity
 - Investigating the use of solar panels
 - Considering whether an energy source is sustainable

Year Level Sets

These Year Level Sets are clearly labelled, with each Science sub-strand having its own coloured and named container. Additional kits can easily be added to a Gratnells storage frame as more Year Levels are acquired over time. The Foundation Year Level Set contains resources for the Biological and Earth & Space sub-strands. The Year 1 set contains resources for the Biological and Physical sub-strands. All other Year Levels sets contain kits for all 4 sub-strands.

Sub-strand Sets

Curriculum Kits

Biological Kit – Foundation to Year 6

Help students investigate living things and how they rely on and affect their environments. These kits assist in understanding the diverse range of life we have on Earth.

Chemical Kit – Foundation to Year 6

Help students explore relationships between substances and their properties. These kits assist in understanding that substances can change

Help students develop an understanding of the concept of motion and energy. These kits assist in understanding that forces affect the behaviour of objects and that energy can be transferred to and from a particular object.

Water Garden 2.0 – Aquaponic System

Learn about aquaponics and find out how plants and fish help each other to create a better living environment. Please note that the seeds included in FLD006 are not available in NZ/WA/TAS. We suggest the purchase of FLD006-NS (no seeds included) for these customers.

The award-winning Water Garden has been beautifully designed with new features including:

- · Elegant curved tank
- Double the growing space!
- Customised Grow Pods for easy planting and harvesting
- · More seeds to continue growing for months
- · Easy tank access to personalise your betta's home
- · Includes free access to accompanying STEM educational curriculum for kids
- FLD006-NS Tank without seeds \$217.95

Kit includes

Aquaponics Flower Tower

The Aquaponics flower tower is perfect for growing herbs, vegetables and flowers inside or out. Just add fish and seeds! The planter holds 80 litres of water and has a clear cover so you can easily view and feed the fish. The flower tower comes with 16 convenient planter locations. The water flow regulator ensures an even flow of water down the internal slides of the tube to water the plants. The plants will filter the water for the fish, while the fish fertilise the water for the plants. A perfect ecosystem! The aquaponics flower tower needs to be assembled.

RGP0020

Vegetable Root Viewer with Seeds

Observe vegetables growing below the soil! Perfect for simple root vegetables like carrots. The acrylic window is on an angle, which lets the roots grow against the window for a perfect view! Available in root viewer only (RGP134) or as a kit, with seeds included (carrot and beetroot). Soil not included. It measures 40(L) x 15(W) x 24(H)cm.

RGP134 Root viewer only

Microscope My First Lab[™] Digital

Worth a good look! Use with the digital eyepiece and connect to a computer via the USB port or with the included standard 10X eyepiece. View live colour images, save, edit, add text and even email! Includes: Lab Microscope. Accessories: vinyl dust cover, 5 x prepared glass slides, 4 x plain slides, one concavity slide, 10 x capacity slide box, scalpel, plastic forceps, plastic dropper pipet, cover glass, replacement light bulb and lens paper. Specifications for use with a digital camera: 640 x 480 resolution, auto light contrast and fine focus, software compatible with Windows systems supporting USB (Windows 98 and up).

DC50700

Features

- 10X wide field eyepiece with pointer, three achromatic objective lenses
 4X, 10X & 40X power
 Magnification from 40X to 400X
 9 x 9cm stage with clips
 6 hole disc diaphragm and easy grip knob with built in 15W illumination Digital Eyepiece includes:
 USB port connection, built-in 10X lens
 Ulead® Photo Explorer CD-ROM and 3cm adapter suitable for storeo microscope

Study Scope

Designed for viewing solid or three-dimensional objects rather than traditional glass slides, this scope makes it possible for students to view virtually anything magnified 20X. (This scope does NOT let you view slides.) The binocular head allows comfortable viewing with both eyes (no more squinting) and the built-in light illuminates all specimens for premium viewing every time. Real glass optics provide high-quality images and battery power makes it portable for outdoor use. Perfect for collectors and hobbyists, it allows users to explore the infinite diversity in nature, making it an ideal - and fun educational adventure for young and old alike. Requires 2 AA batteries (not included).

Splats

\$9.30

This set of 10 splats includes the 3 primary colours, the 3 secondary colours as well as black, white, clear and double sided mirror. A great set for exploring light, colour and shape with the very youngest children. Can also be used for display in the painting area.

Light, Colour, Refraction & Reflection Kit

Learn everything about colour mixing, rays of light, reflection and refraction! This kit is a great collection of resources to learn about focal points, angles of light rays and much more. Contents may vary.

ESC007P

Kit includes

- Glow in the dark LED torches– Set of 12
- Newton colour mixing model
- LED ray box
- Acrylic blocks Set of
- Glass lenses Set of 6
- Refraction tank Set of 4
- Wooden lens holder Set of 4
- Refraction & reflection demonstration mod
- Mounted mirrors Set of 10
- Colour paddles Set of 1!

Optical Bench Kit

This kit is ideal for introductory optics investigations. Set comprises of: 1 bench (1m), 8 pcs riders with tightening screw, 1 lamp (12V, 24W), 6 pcs lens holder for 50mm dia lenses, 1 each lens biconvex +10, +20, +50, 1 pc lens bi-concave -20, set of diaphragms, 1 plain mirror (10 x 10cm), 1 translucent screen (10 x 10cm), 1 transparent screen (10 x 10cm), 1 object screen white (10 x 10cm).

EIS0649

\$176.95

Refraction & Reflection Kit EISO614K \$167.95

This kit consists of the refraction & reflection model (EIS0614A) and 4 additional refraction tanks (EIS0585B), which allows you to guickly compare the refraction and reflection of light through different liquids.

(2)

nvestigate ne reflection of light in a liquid

1 Refraction Tank

This refraction tank is an ideal resource to show refraction and reflection of light in a liquid. This tank can be filled with water or any other type of liquid. Size: 20cm in diameter.

EIS0585B

\$14.70

2 Refraction & Reflection Demonstration Model

Investigate the refraction and reflection of light in a liquid with this demonstration model. It's easy to rotate the base and read the angles of the refraction without disturbing the light source. It includes an acrylic semi-circle that can be filled with different mediums to measure the index of refraction. A light source is mounted on the base with a single, double, triple and wide slit attachment, 2 metal shields to block the light and an acrylic lens to focus the beam of light. Includes teacher's instructions. A power supply is required (not included).

EIS0614A

\$117.95

Light & Colour

EIS0555K 5 x Equilateral + 5 x Right Angle EIS0554C Equilateral EIS0555C Right Angle

This is the perfect set

for reflection, refraction and colour mixing. The light box consists of a light source 12 V, 24W lamp, producing convergent, divergent or parallel beam. On one end, there is an adjustable convex lens, on the other side of the light box is a triple aperture system for colour mixing experiments. The set includes acrylic blocks, 3 mirrors, 2 slit black plates, one with three narrow slits at one end and one narrow slit at the other end. Another black plate with four narrow slits at one end and one wide slit at the other end, 7 mounted colour filters. Supplied with working instructions. Power supply required (not included).

Learning Lab – Electricity & Circuit Kit

Using Gigo's Learning Lab electrical building blocks, kids will learn about series and parallel connection, as well as simple circuit designs by assembling common devices from our daily lives, such as a traffic light, an alarm and a torch, developing knowledge of electricity in the process. The set includes 20 lesson plans, including 16 models and 4 creative works, a student workbook, and 3D Smart Manual to view the model on your tablet in 3D.

GG1236 20 Modules GG1236K Set of 4

\$298.10 \$270.95

Magleads Primary Electricity Kit

All connections are made using transparent wires to show the copper core. Bases are clear to show the path of electricity right to the component. Circuits are made using the superb 'Maglead' system where a tiny, yet powerful magnet at either end of the lead makes the electrical connection when placed near to the connector. Kit contains: six bases; 2 x MES bulbs and holders, 1 x festoon bulb, 1x buzzer, 1x push-to-make switch, and 1x one motor, 10 x magleads, 2 x alligator clips, a length of resistance wire, 3 x battery connectors and teacher's notes. Requires 3 x C batteries (not included). Suitable for primary school use.

Click Electronics Extreme Kit

Over 1200 exciting experiments! The extreme kit is specially designed to further challenge the students and build upon the skills already learnt and to increase knowledge of the principles of electronics in a fun way. Students can experiment by designing their own circuits and using real-life situations as inspiration. Find out about motors, switches, light, sound modules, MW radio, sensors, FM radio, resistance, capacitance, sound recording and more. Simply snap the components together! Comes with an extensive instruction guide. Ages 11+ years

Chromatography Paper – 10 x 30cm

Paper chromatography is an analytic method technique to identify and separate mixtures. A liquid mixture travels through the chromatography paper, each compound at a different speed. This makes it possible to identify the compounds in the mixture. Size of paper chromatography sheets is 10cm x 30cm supplied in a quantity of 100 sheets.

Periodic Table Chart – Double Sided

This periodic table chart is double-sided and will be a great resource for any classroom! One side is illustrated with excellent images of where these elements are found in daily use, while the reverse has no images. Easy to understand colour reference and legends.

Periodic Table of Elements Chart

This periodic table of elements chart measures 75x100cm. The chart shows the 112 elements with a picture of the element used in an everyday object. The chart is printed on polyart plastic sheet, fitted with a plastic roller.

EIS0597A

Stick to Science – Magnetic Periodic Table Investigation

This set includes the first 20 elements of the Periodic Table to illustrate the core concepts of atomic theory. This selection of magnetic element cards designed to minimise the extra information while focusing on essential points. Includes 42 elements cards: Elements 1-20, blank cards, Hydride (H-), 3 Mg Isotopes, Au and Pb. Includes Teacher's notes.

Sunpaper Kit – UV Reacting Paper

students of all ages to

use. Must be completely

immersed for accuracy.

Anti-roll device included.

Measuring range -20°C to 110°C. Pure white,

non-toxic. 31cm(L).

This Sunpaper kit encourages an interest in the photographic process using only sun, water, and a bit of imagination. The paper goes through a chemical change when exposed to light. Place a fern, flower, or other objects on the special paper and set it in the sun briefly. Then rinse the paper in water and watch as a beautiful long-lasting image appears! Content: 15 sheets of 20 x 30cm.

TH891

Learn about the properties of materials

Materials Kit (solids)

This kit consists of 14 materials in the form of rectangular blocks, intended to familiarise students with the appearance, 'feel', texture, harness and density of a range of common substances. Contents in size 5 x 4 x 3cm: wood, paraffin wax, aluminium, iron, foamed polystyrene. In size 2 x 2 x 10cm: perspex, glass, slate, aluminium, softwood, marble. Blocks in other sizes: lead (5 x 5 x 2cm), brass (2 x 2 x 5cm) and iron (4 \times 4 \times 2cm).
