Genie Joins MTA

We are delighted to welcome Genie Educational into the MTA family.

All your favourite Genie Education brands and resources are now available from MTA.

This brings together the best of both businesses, combining over 100 years of knowledge to offer you the largest and most comprehensive range of Mathematics resources available.

NEW

Natural Maths Sorting & Counting Kit

Bring nature into your maths classes! This kit includes a wealth of natural resources to reinforce key maths concepts such as sorting, counting, classifying, comparing, sequencing, patterning and much more. The kit consists of a wooden ten frame tray (YD1081), a natural sorting tray (YD1080), natural wooden beads (SH787), sea shells (CL1688), oval branch cuts (TH0025), round branch cuts (TH0030), thick twigs (TH0045), and twig chips (TH0015).

Conditions apply, see website for details.
Valid until 31st December 2018.
Promotional value excludes GST.
Offer excludes export & new projects.

MTA Maths Topic Kits

MTA's Maths Topic Kits have been designed to make life easier for the busy teacher, ensuring that a varied and appropriate set of resources is always on hand. Each kit includes popular maths resources, which can be used to cover a number of activities.

*All kits are supplied in heavy-duty 60-litre containers. Components in each kit may vary slightly subject to availability.

*Geometry and Fundamentals kits do not include storage containers

Early Numeracy Kit

This kit includes a wide range of resources to let young students practise with early numeracy concepts. The hands-on resources will encourage children to actively engage during maths lessons. Packed in storage container. Contents may vary. Not all kit components are shown.

- 1 x Two-colour Counters (200pc)
- 1 x 1000 Solid Counters
- 1 x 1000 Translucent Counters
- 1 x 10 Decks of Playing Cards
- 1 x Polyhedra Dice (152pc)
- 1 x Large 6-, 12-, and 20-sided Dice
- 1 x Dominoes (6x6, 9x9 and 12x12)
- 1 x Dice in Dice (72pc)
- 10 x Student Number Lines 0-100
- 10 x Student Number Lines 0-30
- 1 x Wall Number Line 0-100
- 30 x Ten Frames Whiteboards
- 30 x Blank Whiteboards
- 2000 x Unifix Cubes
- 30 x Number Charts 0-120
- 5 x Pattern Block Sets
- 20 x Student Sand Timers

Interview Kits

Don't waste your precious time searching for "stuff" trying to complete your early years numeracy interview kit. We've done it for you! That's right! The complete kit! MTA has collected all the materials* you need for the Early Years Numeracy Interview Kit. We have then sorted them into the relevant sections and individually containerised them. All of the sections are then housed in a large storage container. Alternatively, each of the sections are also available individually.

*As specified in the Early Years Interview Booklet (DET Victoria). Please note: We do not supply the interview book or food items. Due to copyrights restrictions, we are not able to supply the photocopied cards.

50 Counter Activities

50 Counter Activities is a set of 50 double-sided activity cards for teaching math skills with counters. Topics include: addition, subtraction, counting, probability, number bonds, equivalence, skip counting, multiplication, division, remainders and estimation. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Math manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL320 50 pieces \$35.95

Concepta
– Concepts Diagram Game

4+ yrs

Concepta consists of six different coordination tasks, whereby every task focuses on a different aspect of sorting. Every coordination task makes use of two coordination strips and 16 concept cards. The strips and the cards have borders of the same colour. Set contains 2 boards, 12 coordination cards and 96 concept cards.

RO2005 Each \$198.95

Circle Fun
Shapes Development

4+ yrs

Children can discover which different shapes can be used to fill in a circle. In addition to discriminating between colours and shapes, children also gain an understanding of proportions, mirror images and mathematical concepts such as half, quarter and an eighth. Children can fill in the circles independently or use the example cards. The box contains 180 shapes in 6 different colours, 6 example cards, printed on both sides, with 3 levels of difficulty, 2 wooden shape boards and 1 manual.

RO2020 Each \$175.95

Hands on Maths Trays Complete Set

Children sort, count, pattern, graph and compare with skill-building trays that are perfect for use with any type of maths counters! Children just place the counters right into the trays to explore concepts hands on and easily keep the pieces in place as they work. Complete set includes all 5 sturdy plastic trays shown; each is a big 27 x 36cm. Counters are sold separately.

LS745 \$152.95

Penguins on Ice Counting & Sequencing Set

3+ yrs

This is a super versatile set which reinforces so many maths concepts (numbers, counting, patterning, sorting, operations, hundreds and base ten). The ice bars hold 10 penguins each and connect 2 ways - horizontally (number line) or vertically (hundred grid). Includes 10 plastic ice bars 30(L) x 2.5cm(H), 100 plastic penguins in 10 colours and Activity Guide.

LER3311 \$59.95

Shapes Don't Bug Me - 2D Shapes Set

3+ yrs

Create masterpieces while becoming familiar with geometric shapes! Fun and friendly maths activity for engaging children in composing 2D shapes. Pieces are relational and translucent, so there are several ways to 'paint' each picture. Includes 20 double-sided activity cards (40 activities!), 136 pieces and Activity guide. 14 different shapes to work with!

LER1762 \$44.95

Tessellation

Tessellating shapes are the perfect integration of maths, languages and the arts. M.C Escher's famous tessellations are created when a shape's form is repeated over again, covering an area without any gaps or overlaps. Students can explore geometric transformations (translation, rotation and reflection). Assorted designs, choice of rounded, straight-edged and abstract shapes. Made of sturdy plastic. 10cm or less in length.

NEW

Tessellation Shapes - Class Pack

A combination of the Abstract, Geometric and Rounded Tessellation Shapes in a container complete this set for the class. Contents include:

- 1 x Tessellation Shapes - Abstract
- 1 x Tessellation Shapes - Geometric
- 1 x Tessellation Shapes - Rounded
- 1 x Storage Container

SMART TRAY®

The Smart Tray® system is a self-checking activity system. Each card slides into the tray for tile matching activities to improve maths skills. Smart Tray® uses two types of unique cards - 'Matching' and 'Question' cards. Students will have hours of fun, completing activities and checking the reverse of the Smart Tray® to see if they have completed the task correctly by the pattern produced. Smart Tray and card sets sold separately.

Perfect for self-checking activities

Smart Tray

An innovative multi-sensory system for self-checking activities. The Smart Tray uses Accelerator Cards that slide into the tray for tile matching activities for spelling, reading and mathematics. Students will have hours of fun completing activities and checking the reverse of the Smart Tray to see if they have completed the task correctly by the pattern produced. Smart Tray and Accelerator Cards sold separately.

Number Lines

F.U.N. Empty number line

F.U.N.™ stands for Fluency and Understanding Numbers. The F.U.N.™ Empty Number Line represents the number system while, at the same time, is a manipulative where numbers can be moved, matched and plotted, up and down the entire number line. The grade specific F.U.N. cards make this number line suitable for every grade level.

F.U.N.™ Empty Number Line System

The possibilities for using the number line to identify equivalent numbers are endless, including whole numbers, fractions, decimals and negative numbers. Contents include two 15 x 101.5cm double-sided write-on/wipe off number line sections, 6 suction cups, 26 binder clips, 150 blue links, 25 blank write-on/wipe-off cards and user guide. A set of 50 blank write on/wipe off cards (LAD7996) can be purchased separately. Each card measures 7.6 x 10cm. Grade level cards are sold separately.

LAD7992	Each System	\$152.95
LAD7996	50 Blank Cards	\$19.80

F.U.N.™ Empty Number Line Grades F-1

This set of 240 cards for grades F-1 allows you to add cards to your F.U.N.™ Empty Number Line System. Demonstrates that the magnitude of the numbers increases as a student is 'counting up' and decreases when 'counting down'. Additionally, decomposing numbers into pairs can be displayed, and comparing one digit or two digit numbers can be modeled. The number line can be used to quickly identify '10 more' or '10 less' as well as many other concepts. Cards available separately (LAD7982) or purchase the cards and Number Line System together (LAD7982K).

F.U.N.™ Empty Number Line Grades 4-5

This set of 511 cards for grades 4-5 allows you to add cards to your F.U.N.™ Empty Number Line System. Teachers/students can extend previous work and use the number line for increasingly complex whole number calculations and to compare multi-digit whole numbers. It can be used to focus on additional grade level targets, including comparing fractions, multiplying fractions by whole numbers, adding and subtracting fractions, and comparing and rounding decimals.

Student F.U.N.™ Empty Number Line

Now you can get the powerful F.U.N.™ Empty Number Lines into the hands of every student so they can truly internalize number sense. It has a double-sided, write on/wipe off surface so students can follow along with the teacher or use them individually. This student sized version measures 4.5 x 44.5cm. (Fraction bars not included).

LAD7997	10 pieces	\$46.95
---------	-----------	---------

Write-on Board with Magnetic Number Tracks

This set helps children develop fluency with number sequences, fractions and decimals. Each set includes 5 double-sided magnetic number tracks (1-20 and blank, 50 x 3cm), 20 double-sided magnetic number lines (five 1-30 and 1-1000, five 1-100 and 1-100 blank, five 1/2, 1/3 & 1/4 Fractions and fraction wall, and five tenths and decimals), each measuring 50 x 3cm and 5 write-on boards (50 x 15cm). Includes a 12 page teacher's guide.

A total of 5 complete sets

KNB2116 \$177.95

Foldable Write & Wipe Number Lines

This number line is strong and sturdy and perfect for classroom demonstrations. It is suitable to use with a dry erase marker. The number line shows 0-120 on the front and a blank number line on the reverse side. It measures 12 x 228cm when completely unfolded (12 x 38cm when folded, perfect size to store when not in use!). Clips are not included.

KNB2120 0-120 \$35.95

NEW

Book of One Thousand

1-1000! This book features random number prompts throughout each of the 10 pages beginning at 1-100 and ending at 901-1000. A blank grid is provided to either extend your number range or recreate different prompts.

Abacuses & Counting Frames

Rekenrek

The rekenrek supports the natural development of number sense. Although it looks like a counting frame, it is used in a different way. It is more similar to ten frames, where students learn to count in 2's, 5's and 10's. It consists of 2 rows of 10 beads, each row broken up in 2 sets of 5 beads. Using 5 and 10 as anchors for counting, adding and subtracting is clearly more effective than counting by ones and will teach them to develop addition and subtraction strategies such as doubles, plus or minus one, making tens, and compensation.

Rekenrek Class Pack

TFC17202K Kit \$148.95

This kit includes 1 large teacher sized Rekenrek - number rack (TFC17202), and 10 students sized number racks (TFC10635).

Flip Array 0-119/1-120

6+ yrs

The Flip Array is the only board with the unique feature of both 1-120 (red/black) and 0-119 (blue/red) numbers on one product. Simply turn the unit around to swap between 1 to 120 and 0 to 119. There are no pieces to lose. Numbers reset at the flick of a wrist. Board measures 65 x 55cm.

DC015 Each \$198.95
 TFC10012 Set of 4 \$467.95

Benefits

- You can start an activity at zero or one.
- Numbers go beyond 100 to 120.
- You can highlight or hide patterns.
- Cubes can be turned to blank to customise the board, for example, display only the numbers from 1 to 50.
- The board can be turned upside down so that smaller numbers are at the bottom.
- White dots on the reverse side can be used for substituting and showing part or whole relationships of numbers.
- Dots can also be used to show arrays, explore coordinates, give directions and present data as a graph.
- The cubes can easily be reset and numbers cannot get lost.

Turn & Learn 0 to 120 Number Board

The Turn & Learn 0 to 120 Number Board provides teachers with a resource to encourage children to look for patterns in number sequences and use these patterns to make predictions about maths problems. The board measures 54 x 64cm.

Cubes - GeoCubes

Geocubes® are the perfect 2cm building cube.

Geocubes are specially designed so that all of the peg sides of the cubes can be concealed to create a flat surface, enabling students to create perfectly symmetrical geometric figures. Their unique construction also allows for offset assembly which makes the construction of towers and pyramids possible. GeoCubes® can be used for exploring symmetry, geometry, area, volume, spatial awareness, measurement, operations, fractions, patterns and creative play. GeoCubes® connect and separate with ease and come in ten colours and five different interlocking shapes:- cubes, 2 different right triangles, and equilateral triangle and quarter rounds.

NEW

Brick

Ideal for school use. The Brick is easy for little fingers to manipulate making it perfect for all levels of Primary School and beyond. The Brick range includes full brick, half brick, end caps and stands producing a wide variety of models which can be displayed as self-supporting pictures. 11 strong colours are ideal for pattern making. The Brick is ideal for early numeracy activities. Some children enjoy building freestanding models on various themes while others delight in creating tiling patterns and brick patterns such as those seen in pictured buildings.

NEW

Brick Faces

Appealing 'smiley' faces are printed on the blocks. Children enjoy bringing models to life.

Base 10 Class Sets

When children initially undertake the learning of numbers, it's generally done by some kind of continuum, where the numbers just go on and on and on. Rote learning of numbers does not necessarily introduce the children to the important structure of our number system, grouping of tens, hundreds, thousands and so on. Base 10, otherwise known as MAB (Multi-base Arithmetic Blocks) materials, are one of the most commonly found pieces of equipment in schools. This powerful visual model is an excellent approach to introducing and reinforcing trading/exchanging of place value in numbers.

Place Value

Introducing the latest version of the three prong abacus.

Exciting design enhancements have been made to an old favourite! This three prong abacus is more powerful than ever when teaching place value. To begin with, maybe your class is only ready for units and tens. If so... simply twist the prong and remove it from the base. What is clever about this abacus is the forcing of place value. Each prong will only hold 9 beads, so when the prong is full the children must trade all 9 beads off the prong and place a new single bead on the next prong to the left. What if your class is ready to move beyond 999? Why not join the bases together to create thousands or hundreds of thousands - why not even millions!!!! Decimals - no problem, just place a sticky dot onto your frame (and/or number cards) and there we go. So much more can be achieved with this FANTASTIC Place Value Abacus. Additional coloured hex beads makes this product fit to the TFC Place Value colour code system.

NEW

Place Value Pocket Chart

This quality chart has 3 clear counting pocket, 1 storage pocket, 200 counting sticks, 20 double-sided number cards, 1 title card, 2 place value cards and an activity guide included.

TFC10337 Each \$23.80

NEW

Place Value Pocket Chart - Advanced

13 clear vinyl pockets, long, horizontal double layer pocket, storage pocket with hook and loop tape closure, 283 cards; 109 x expanded notations, 4 x commas, 1 x decimal, 150 x digits, 12 x symbols, 5 x place values and 2 x blank cards. All cards are write on/wipe off. Resource guide.

CD158022 Each \$93.95
2 or more - Each \$64.95

Place Value Bingo – Beat the Penguin

Teach place value concept and number word problems in a fun and exciting way! This bingo game is played in a similar manner to traditional bingo games. Kids select one card at the time and try to match it to an answer on their board. However, if a penguin card is turned over, it must be placed on the Penguin Board. If the penguin board fills up before the answer boards, the penguin wins. Comes complete with four wipe clean boards (25 x 33cm), 81 laminated cards in sturdy box.

LF3381 Each \$29.20

NEW

Place Value and Ordering

These unique cards display components of a hundreds board with a starting point so that children can predict neighbouring number patterns. The reverse side is blank to enable pupils to make up their own patterns. 25 write-on/wipe-off cards.

SMK024 Each \$29.20

NEW

I Have, Who Has? - Place Value

I Have, Who Has? games are an engaging way to practice and reinforce math skills with the whole class or in small groups. These fast-paced place value card games are perfect for developing fluency with basic facts, for use as a quick assessment of students' understanding, as a centre activity, or for a whole-class review. Available in two levels: grade 1-2 (7+ years) and grades 3-4 (9+ years).

TFC10720 Grade 1-2 - 7+ years \$11.60
TFC10721 Grade 3-4 - 9+ years \$11.60

NEW

50 Place Value Activities

50 Place Value Activities is a set of 50 double-sided activity cards for teaching math skills with place value materials. Topics include: decades, Ty numbers, adding in tens, adding in hundreds, addition, subtraction, multiplication, division, thousands, number bonds, groupings, multiples rounding, big numbers, decimals, fraction equivalences. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Math manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL327 50 pieces \$35.95

SumBlox

SumBlox are a multi-sensory maths tool that allows children to visualise the value of numbers through height, making elementary maths concepts (addition to fractions) significantly easier to understand and remember. These blocks are made from high quality, solid hardwood and come with lessons and activities that teach through games.

Operations

Triangle Match-Ups – Addition & Subtraction

These Triangle Match-Ups provide students with the opportunity to see patterns and connections between the basic addition and subtraction facts by introducing the thinking strategies: counting on, build to ten, doubles and near doubles, and bridge ten. Includes 4 sets of 40 triangle cards, answer cards and teacher's guide.

KNB2001 160 Triangle Cards \$56.95

What's My Number? – Game of Number Patterns

Help children learn to count from 1 to 50 with this exciting number patterns game! Children will love the interactive game as they flick down numbers to best predict their opponent's number. Teaches numbers and patterns and number properties. Contains: game board (37 x 33cm), 50 number cards and 10 question and activity cards.

JNL150 Each \$58.95

Addition & Subtraction Bingo – Beat The Dragon

The children will be so intent on completing their boards before the picture of the dragon is put together that they will barely notice they are practising the addition and subtraction facts for numbers 1-10! A laminated number line 0-10 is included to allow the players to check their answers without adult supervision.

LF133 \$32.95

Multiplication Bingo – Beat The Crocodile

Try to beat the crocodile by matching the multiplication bingo cards with the correct answer on your answer board. If the crocodile board fills up before yours, you lose, unless you fill up your answer board first. Contains 4 durable wipe clean mats (25 x 33cm), 80 sturdy playing cards in a storage container.

LF3325 \$32.95

Magic Triangles – Addition & Subtraction

This simple format allows young children to work without adult supervision while they learn, memorise and self check the addition and subtraction facts for numbers 1-10. Use a whiteboard marker to complete the revision exercise on the back of each laminated card and check the answer on the reverse.

LF1313 \$29.20

Magic Triangles– Multiplication & Division

The simple design allows individual students to work independently as they learn and memorise the multiplication and division facts from 1-12 and complete the revision exercise on the back of each card, using a marker on the write and wipe surface. The cards are colour coded to indicate the level of difficulty. Contains 76 sturdy laminated cards (12.3 x 12.3cm) in durable storage container.

LF2424 \$29.20

Catherine Attard

Catherine is an Associate Professor in primary mathematics education, a Western Sydney University Distinguished Teaching Fellow, and a Senior Researcher at the Centre for Educational Research. She is a multiple award-winning educator recognised nationally for transforming teaching and learning in primary mathematics at Western Sydney University for over 10 years. Catherine combines great dedication for teaching engaging mathematics with her own experiences as a primary classroom teacher and her research to motivate and inspire pre-service and qualified teachers. She presents workshops and keynotes nationally and internationally and is a past president of the Mathematical Association of New South Wales, past editor of the professional journal, Australian Primary Mathematics Classroom, and current Secretary of the Mathematics Education Research Group of Australasia.

NEW

Maths Wheels Addition/Subtraction

Maths Wheels are an excellent classroom tool to promote recollection of facts and self-correction of equation facts to 9. Use in conjunction with the multiplication/division wheels for classroom group activities. Measures 12cm(dia). Age 7-11 years.

TFC15930 8 pieces \$26.90

Double-sided

NEW

Maths Wheels Multiplication/Division

Motivate your children into learning and practising multiplication and division facts to 9. Turn the wheel over for answers to each equation. Wheels are made of sturdy plastic, are self-correcting and easy to use. Measures 12cm(dia). Age 7-11 years.

TFC15953 8 pieces \$26.90

NEW

Multiplier Board

Use this Multiplier Board to model multiplication, to represent fractions and as the basis for the area formula. For example, The Multiplier Board quickly and clearly illustrates that an array with 6 rows and 4 squares in each row, has the same number of squares as an array with 4 rows with 6 squares each. This proves that $4 \times 6 = 6 \times 4$. The Multiplier Board is made of plastic and measures 21 x 21cm. Each board is printed with numbers on one side and solid red and blue circles on the reverse.

QE35100 5 pieces \$31.95

Number Crunchers

100 bones printed black on yellow for optimum visual clarity, with a special plastic slider that conceals any one part of the number sentence at a time. Calculate the value of the unknown number. This simple to use and yet incredibly versatile set includes 100 plastic bones with sliders to conceal any part of the addition and subtraction number sentences to 20. Each bone measures 21 x 6cm.

Algebra - Building Big Ideas

This book is designed to introduce students in middle/upper primary to the mathematical concept of algebra and its place in everyday life. The appealing activities and problems are designed to give students the confidence to reach beyond their current experience. Featuring an introductory teachers page highlighting the 'big idea' to be investigated, a description of the activity including the skills incorporated, background information, presentation ideas, detailed explanations of appropriate problem solving strategies and reasoning, work sheets, transparency masters and solutions.

RIC0562 Grades 5+ \$52.95

NEW

Developing Algebraic Thinking

There are several common thoughts to what 'algebraic thinking' is - exploring and conjecturing about patterns, formalising patterns, verbalising relationships, making generalisations, symbolising relationships, working with functions, making connections between real world situations and algebraic statements. Together, all these interrelated components form a framework for algebraic thinking. This resource allows teachers to engage their students in active exploration of components of algebra, helping to formulate a solid foundation for understanding algebra. This book contains detailed teachers notes and a wide range of activities using number tiles to actively involve teachers and students.

Fraction Fortress

6+ yrs

The exciting game of fractions! Stack as many fraction wholes as you can to win. Teaches visualising fractions, comparing equivalent fractions and building fractions to make a whole. Comes with a fraction spinner. Contains: 76 stackable fraction blocks, 1 spinner and game guide. For 2 to 4 players.

JNL165 Each \$58.95

Magnetic Fraction Cubes & Spheres

6+ yrs

Engage students' minds and hands as you teach fractions with these magnetic manipulatives. Unique 3D form brings concepts to life. Use interchangeable $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$ pieces to show relationship to a whole cube or sphere. Cubes and spheres measure 7.6cm each. Includes labelled storage tray.

LER1911 20 pieces \$71.95

FREE freight on all orders over \$99. Conditions apply, see website for details.

Fractions, Decimals & Percentages

Fractions Bingo – Beat the Hippo

Beat the Hippo (Fractions) is played in a similar manner to traditional bingo. Children have to complete their fraction cards before the Hippo card is completed. A delightful way to learn and practise the use of fractions. Contains 4 durable, wipe clean boards (25 x 33.5cm) and 81 sturdy playing cards in storage container.

LF2533 Each \$29.20

Equivalence Giant Flashcards

This set of equivalent giant flashcards has been designed to help students link fractions, decimals and percentages, and associate them with pictorial references. There are 12 cards in each category: fractions, percentages, pie charts and diagrams. Set of 60 cards, measuring 16.5 x 14.3cm. Includes activity guide.

LF4812 Each \$29.20

Fraction Balance

The fraction balance kit is a visual hands-on manipulative which illustrates the relationship between basic fractions and decimals, and assists with addition, subtraction and multiplication with fractions and decimals. Use the measurement tiles with the balance or individually. The size and weight of the cards is in relation to their value. The set includes the balance scale, 31 double-sided, stackable fractions/decimal tiles and instructions.

QE48344 \$58.95

My First Fractions Puzzle

3+ yrs

My First Fractions Puzzle is perfect for introducing basic numeracy and fractions to young students. This puzzle introduces counting and the concept of fractions using brightly coloured wooden puzzle pieces that include numbers and shapes. Match the coloured shapes to the numbers and colours on the base board and count out how many pieces make a whole as you work out how the pieces fit together. Board measures 38 (L) x 22cm (W).

BJT459 Each \$58.95

Fraction Bingo

Learners master fractions and their equivalents from halves through to twelfths. Boosts skills in visualising, comparing and reducing fractions. Ages 10+.

T06136 \$25.70

NEW

Percentages, Decimals and Fractions Match Bingo

This high-quality bingo game will encourage children to recognise and match percentages, decimals and fractions. Children will see and learn the equivalence across these concepts. Up to 9 players can take part in a game (one person as caller). Contains 8 game boards and 48 match cards. Ages 8+.

TFC15962 \$35.95

Equivalence Tower Cubes Set

5+ yrs

Durable, interlocking equivalence tower cubes are perfect for exploring and comparing fractions, decimals and percentages. Children learn by building simple, graphic mathematical models that clearly demonstrate relationships of parts to the whole. Each set contains 51 cubes.

LER2509 Each \$29.95

Fraction Tower Cubes

Colourful, durable, interlocking Fraction Tower® Cubes are perfect for exploring and comparing fractions! Children learn by building simple, graphic mathematical models that clearly demonstrate fraction relationships. Set of 51 cubes.

LER2510 51 cubes \$32.95

Fraction Equivalency Pocket Chart

Convey a concrete understanding of equivalencies between fractions, decimals and percentages. Relationally sized cards are colour-coded so equivalent values match, with enough of each size card to equal 1 whole. Includes 153 cards (numerals on one side, number words on reverse), 2 double-sided title cards and activity guide. Grommetted nylon chart with reverse-side storage pocket measures 50.8(L) x 68.5cm(H). Multiples shown.

LER2794 Each \$45.95

NEW

Fraction Tower Card Game

Explore fractions using these cards based on the Fraction Tower Cubes. Each card shows the same fraction 3 different ways; on a number line, with rectangular area and with a numerical representation. Fractions on the cards are colour coded to match the Fraction Tower Cubes, making it easy to use the cards and the cubes together.

ETA1111 Grades 2-6 \$20.50

Fractions, Decimals & Percentages

Match™ Games.

Match™ games can be used individually in the classroom to reinforce concepts of fraction, percentages and decimals. In every game, each tile has a matching tile for example: 1/2 and 2/4 will make a match. There are also 20 bonus tiles in every box that can be used to vary the level of challenge. These games are an excellent resource to use within a differentiated classroom. Match™ Fractions can be mixed up with Match™ Percentage and Match™ Decimal. This is an excellent way to better understand the connection between fractions, percentage and decimal. If you mix up all three boxes, every tile will match with at least five other tiles.

24® Game.

The object of the 24® Game is to make 24. Accomplish this goal by adding, subtracting, multiplying, and/or dividing numbers. All four numbers on the card must be used, but only once. There is at least one solution to every card. Each game has 3 challenge levels - easy (1 dot), medium (2 dot) and tough (3 dot).

NEW

24® Game

Object of the game is to make positive 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. Cards in this edition can also be solved for negative 24. Each card has at least one solution to make positive 24 and negative 24.

Fractions, Decimals & Percentages

F.U.N Empty number line

F.U.N.™ stands for Fluency and Understanding Numbers. The F.U.N.™ Empty Number Line represents the number system while, at the same time, is a manipulative where numbers can be moved, matched and plotted, up and down the entire number line. The grade specific F.U.N. cards make this number line suitable for every grade level.

NEW

F.U.N.™ Empty Number Line System

The possibilities for using the number line to identify equivalent numbers are endless, including whole numbers, fractions, decimals and negative numbers. Contents include two 15 x 101.5cm double-sided write-on/wipe off number line sections, 6 suction cups, 26 binder clips, 150 blue links, 25 blank write-on/wipe-off cards and user guide. A set of 50 blank write on/wipe off cards can be purchased separately. Each card measures . 6 x 10cm. Grade level cards are sold separately.

Australian Curriculum Mathematics - Money

Australian Curriculum Money is a three-book series that supports the teaching and learning of all areas related to money. Money is a very important aspect of students' lives and therefore is an area that needs to be covered well. Written using the Australian national curriculum, Australian Curriculum Money will provide teachers with a comprehensive approach to teaching and helping their students understand money. Through the proficiency strands of Understanding, Fluency, Problem-solving and Reasoning, teachers will be able to immerse students in this area. These resource books contain a large variety of activities including teachers notes, warm-up activity ideas/hands-on tasks, blackline master worksheets, assessment tasks, and a checklist and answers at the end of each year level.

RIC6146	Book 1 - Years 1-2 - 62 pages	\$40.95

Wooden Balance Scale with Weighted Numbers

A new way to practise with basic maths skills! This wooden balance scale comes with weighted numbered bean bags. The bean bag with the number 2 is twice as heavy as number 1. Ideal for practising with addition, subtraction, greater than and smaller than concepts. The balance measures 60 x 25 x 12cm and comes with 10 bean bags (2 of each number).

MJ101

\$152.95

Weighted Number Shapes

Learn about number value, weights and early number skills with these red and blue numbers in five gram weight increments (5 grams to 50 grams). Each number is spelt out on the back to reinforce word recognition while odd and even numbers are colour coded. Each number measures 76 x 50 x 13mm. Ages 3-10. (Scales not included).

Spring Balances - Push & Pull

This unique design of the push and pull spring balances means they not only weigh suspended objects but in addition using the extended rod, can also measure the force of pushing or pulling an object. They are colour coded, calibrated in grams and newtons and have a clear flat area on the rod so you can, using a dry wipe marker, create your own scales.

SET OF 5
\$245⁹⁵
 SAVE \$28.80

The 3-step teaching system: easy to learn and remember.

- Step 1: Read the number at the end of the long hand.
- Step 2: Say "minutes to" if it's pointing to the red side of the clock, or say "minutes past" if it's pointing to the blue side.
- Step 3: Read the number at the end of the short hand. Like this: 8...minutes to...2. It's that easy!

Working battery-operated wall clock with very clear dial that carries all the information children need to learn to tell the time. Supplied with simple 3-step teaching system that enables children to tell the time, in 'minutes past' and 'minutes to' the hour, as soon as they can read numbers. Silent, no ticking, with 'sweep' second hand, showing that time is constant and not stop start.

EasyRead Time Teacher Classroom Wall Clock

This product is the heart of the EasyRead Time Teaching System. Its clear design and simple 3-step teaching system make it very easy for children to learn to read the time in terms of 'minutes past' and 'minutes to' the hour. Teach your children the 3-step system and they will be able to tell the time as soon as they can confidently recognise numbers – what a great way to start the time elements of the National Curriculum.

Measurement - Time

NEW

Hot Dots Talking Pen

Allows students to choose talking feedback, fun sound effects or both, and cheers for students when they answer correctly. Provides immediate visual feedback with red and green lights for incorrect and correct answers. Features child-friendly design that makes the pen easy for young hands to use, works with Hot Dots® Activity Cards for phonics, reading comprehension, math operations, fractions, time and money - perfect for centre activities. Requires 2 AAA batteries, not included.

EN2570 Each \$23.30

NEW

Hot Dots Telling Time

Practice telling time using these double-sided flash cards that students can use on their own or in a group; turn cards over to self-check. Helps students practice identifying different fractions. Provides picture cues that ease the transition from a concrete to an abstract understanding of time.

EN2763 Each \$21.00

NEW

I Have, Who Has? - Time

These exciting mental math games motivate students to practice mathematical skills and vocabulary. Use as a whole class activity to reinforce a particular set of skills. Time the activity and use the same cards (dealt randomly) again in the next lesson to try to beat the previous time.

TFC10742 Time - Ages 7+ \$11.60
TFC10745 Elapsed Time - Ages 9+ \$11.60

NEW

Flash Cards

Use these cards in a variety of classroom activities; fast paced pairs games, whole class activities or group work. These cards have an equation or question on one side and the answer on the reverse. Suitable for mixed ability classrooms, these cards can be easily adapted to a multitude of games. 55 double sided cards in each set.

TFC10743 Grades 1+ - Time Telling \$14.60
TFC10744 Grades 2+ - Elapsed Time \$14.60

NEW

Monthly Calendar Pocket Chart

Teach and demonstrate concepts relative to time, the passage of time relative to routine events, birthdays and other special days, plus the names of days and months. Includes 31 date cards, 7 day-of-the-week cards, 12 month cards and teachers' guide. Measures 63 x 70cm. Ages 5+.

LER2210 Each \$47.95

NEW

Write On Wipe Off Calendar

Trimmed with seasonal symbols, this blank, reusable write on/wipe off calendar invites dozens of uses. Year round activity suggestions on reverse side. Measures 78 x 56cm.

TFC18019 \$9.30

NEW

Time Snap

Snap to it! 2 games in 1. Snap or Pair the cards. Time Snap cards will teach children digital and analogue times. Deck contains 52 cards plus instructions.

TFC15933 Each \$9.90

NEW

What Time Is It? Chart

Explore the concept of time with this vibrant chart. Reproducibles, tips and teaching information on back. Sturdy and durable. For ages 5 to 14. Measures 49.5 x 69.5cm.

TFC18017 Each \$8.10

NEW

Time Facts Chart

Organise your classroom with this fantastic time chart! Reproducible, tips and teaching information printed on the back. Measures 49.5 x 69.5cm.

TFC18023 Each \$8.10

NEW

Time Bones

100 bones depicting three means of telling the time, the children will have fun identifying what is behind the question marked slider.

ET02104 100 pieces \$93.95

Timber Backed Rubber Stamps

Excellent quality timber backed rubber stamps. Easy to hold and use giving a clean, clear stamped image.

Measurement - Time

Quizmo

The Quizmo range of games provides an exciting and educational play based learning environment. With so many categories to choose from - delivering these games in a mixed ability classroom is as easy as 1, 2, 3! Each box (game) is designed to be played as either pairs, groups or whole class activities.

NEW

Quizmo Tell Time

Read, express and compare analogue and digital time. 2 games.

LAD8237 Grades 1-5 \$43.95
2 or more - Each \$32.95

NEW

Quizmo BEE On Time

Beginning, ending and elapsed time word problems. 4 games.

LAD8235 Grades 2-5 \$43.95
2 or more - Each \$32.95

NEW

Time Match Bingo

This game is a perfect way to educate children in the consolidation of different time concepts. Have fun learning the time while matching the answers on the game card. Can be played with up to 9 players (including one as caller). Contains 8 game boards and 48 match cards. Ages 7+.

TFC15966 \$35.95

Tell The Time Bingo – Beat The Turtle

Try to beat the turtle by filling up your answer card first! Children pick up a card and place it over a matching answer on their board. But if you pick up a turtle card, it has to be placed on the turtle board. Beat the Turtle provides a fun way to learn and recognise digital, analogue and written word clock times. Contains 4 durable, wipe clean mats (25x33cm), 80 sturdy playing cards in a storage box.

LF3380 \$29.20

Triangle Match-Ups – Time

Triangle Match-Ups provides an engaging way for students to develop fluency with reading analogue and digital clocks to the hour, half hour, quarter-hour and 5-minute interval. Includes 3 sets of 60 triangles, answer cards and teacher's guide.

KNB1001 \$58.95

NEW

Clock Wise

Clock Wise provides playful practice in telling time to five-minute intervals. Players match an analog clock with the time it shows. The winner is the first to place all of his or her dominoes. The 48 dominoes are divided into four sets of 12 labelled A, B, C, and D. Clocks in Sets A and B show quarter hours and those in C and D display five-minute intervals. Combining two specific sets per game allows for three levels of play: quarter hour intervals, five-minute intervals, or both.

LAD4265 Grades 2+ \$26.90

Dominoes

Mix and match these sets of quality dominoes to teach children the various ways time is represented with clock faces, digital faces, numbers and words. All the sets work together as the times represented in each set are the same. Each set has 28 fully washable plastic dominoes (measuring 80 x 40mm) that help children to learn the 5 minute points of the clock and how to tell when it is quarter past or to the hour.

Time Dominoes Set

NEW

TFC16054 168 pieces \$95.95

A complete set of our six popular time dominoes. Set includes:

50 Time Activities

50 Time Activities is a set of 50 double-sided activity cards for teaching time skills and understanding. Topics include: speed, sequencing, clocks, counting, seconds, time devices, digital and analog, time problems, estimation, probability, 24 hour time, converting time, months, time zones. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Math manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL330 50 pieces \$35.95

Time Matters

Paul Swan and Linda Marshall have combined to create Time Matters. The authors outline how children may be taught time concepts, ranging from telling the time to the language of time and more complex ideas. Book 1 covers all the time-related content from the Australian Curriculum from Foundation to Year 3, and much more! Book 2 Develops deeper understandings of time concepts. Teachers are given the background knowledge and support required to help students understand complex time concepts such as time zones, elapsed time, time lines and the role of time in everyday life such as the reading and interpretation of timetables. Book 2 not only applies the concepts developed in the previous book, but also covers the middle and upper primary time-related content in the Australian Curriculum, and then extends these ideas.

Measurement - Volume & Capacity

	SAND	PLAYPLAS®	WATER
ADVANTAGES	Various textures Can be shaped and moulded when damp Used for tunnelling Themes: Beach, Building	Pours easily Can be scooped like sand Light weight Will not damage carpets Used all year round Will not scratch plastic containers Washable	Inexpensive Best for pouring Can be splashed Floating/Sinking Displacement activities Will not scratch plastic containers
DISADVANTAGES	Tends to get dirty Can irritate eyes Will scratch plastic containers	More expensive than sand Not easily moulded	Difficult to move around Can damage carpets Not practical in winter

Playplas®

Beat the sand, rice and water problems now! Economical Playplas® makes a great substitute. Playplas® is a non-toxic granulated polyethylene based plastic. It can be swept up easily from any surface and may be washed clean from time to time with no harmful effects. A beautifully tactile, sensory material for use in the Junior and Middle School. Develop early experiences in volume capacity and mass concepts: strengthen them later with formal measurement. Easily portable containers allow groups of 3-4 children to explore together.

Volume Relationship Set

These volume relationship sets are ingenious models to demonstrate how different geometric shapes hold the same volume. Each of the sets include clear plastic shapes to easily see the volume inside. Use the set with (coloured) liquids or Playplas (not included and sold separately).

Volume Relationship Set

Children can explore different geo shapes and demonstrate their volume ratios with this six-piece set. It includes: a square pyramid (10 x 10cm), a rectangle (5 x 10cm), a cylinder (10 x 10cm), a cube (10 x 10cm), a sphere (10cm diameter) and a cone (10 x 10cm). Most shapes feature an opening, so it is easy to fill them with either water or flowing solids.

Litre Set

Six clear containers with a common height (11cm). Ideal for teaching comparison between volume, capacity, mass and shape. Two of the containers hold a litre each, three others hold 0.5 of a litre and the sixth holds 250ml. Graduated levels are marked on each container.

TFC10869 Set of 6 \$40.95
4 or more - Each \$37.95

Volume Relationship Set - Clear

Set includes 15 pieces of different types of geometric solids. Size of biggest shape: 10.5 x 10.5 x 10.2cm. Size of smallest: 5.4 x 5.4 x 4.2cm. The shapes can be filled with liquids.

DM8312 Set of 15 \$46.95

NEW

Volume Relationship Set

This set includes 8 clear plastic shapes. All shapes have a relationship to a 10cm base.

TFC10980 Set of 8 \$23.30

NEW

Geometric Solids Transparent 5cm

It is important for children to understand the concept of volume relationships. This set of 17 relational solids contains:

- | | | |
|-------------------|------------------|------------------|
| Prisms: | Pyramids: | • 2 x Cubes |
| • 1 x Hexagonal | • 1 x Triangular | • 2 x Cylinders |
| • 2 x Triangular | • 1 x Square | • 1 x Cone |
| • 1 x Pentagonal | • 1 x Pentagonal | • 1 x Sphere |
| • 2 x Rectangular | • 1 x Hexagonal | • 1 x Hemisphere |

All measuring a relationship to 5cm bases.

TFC10513 17 pieces \$23.30

NEW

Geometric Solids Transparent 10cm

It is important for children to understand the concept of volume relationships. This set of 17 relational solids contains:

- | | | |
|-------------------|------------------|------------------|
| Prisms: | Pyramids: | • 2 x Cubes |
| • 1 x Hexagonal | • 1 x Triangular | • 2 x Cylinders |
| • 2 x Triangular | • 1 x Square | • 1 x Cone |
| • 1 x Pentagonal | • 1 x Pentagonal | • 1 x Sphere |
| • 2 x Rectangular | • 1 x Hexagonal | • 1 x Hemisphere |

All measuring a relationship to 10cm bases.

Translucent Geometric Shapes - Class Set

This kit includes one set of large translucent geometric shapes (12 pieces, JYN6221) and two sets of small translucent geometric shapes (total of 144 pieces, JYN6222). The large shapes measure 10cm high, the small shapes are 5cm. Supplied in 6 bright colours, 12 different shapes. Shapes included are a cube, large rectangular prism, small rectangular prism, triangular prism, triangular pyramid, square pyramid, cylinder, sphere, hemisphere, cone, pentagonal prism and hexagonal prism.

JYN6221K **\$238.95**

Identify the relationship between are, volume, shape, form and size!

Large Translucent Geometric Shapes

A great collection of bright, three-dimensional translucent shapes. The shapes are perfect for the relationship between 3D shapes and 2D plane surface, as each of the shapes comes with a removable cap. The large demonstration sized set consists of 12 large shapes, each measuring 10cm high, and supplied in 6 colours. The shapes included are a cube, large rectangular prism, small rectangular prism, triangular prism, triangular pyramid, square pyramid, cylinder, sphere, hemisphere, cone, pentagonal prism and hexagonal prism. The translucent shapes allow students to examine the relationship between 2D and 3D shapes, because of the removable caps on each of the shapes. The shapes can also be filled with liquids to compare volume relationships.

JYN6221 **12 pieces** **\$58.95**

Small Translucent Geometric Shapes

This bright coloured set includes 72 3D shapes, supplied in 6 colours. The set consists of 6 of each of the following shapes: cube, large rectangular prism, small rectangular prism, triangular prism, triangular pyramid, square pyramid, cylinder, sphere, hemisphere, cone, pentagonal prism and hexagonal prism. Each of the shapes measure 5cm high. The removable caps of the shapes allow students to investigate the relationship between 3D shapes and 2D plane surfaces.

JYN6222 **72 pieces** **\$93.95**

Real World Geo Shapes

3+ yrs

Relate 3D geometric shapes to real-world objects with 24 durable nets (inserts) featuring playful designs. Explore 8 common shapes: cube, cylinder, hexagonal prism, rectangular prism, triangular prism, square pyramid and triangular pyramid. Includes Activity Guide. Measures 7.5cm high.

LER4356 Set of 24 \$59.95

Set of 6

Geometric Shapes Flip Charts

The Geo flip system is designed to enable children to demonstrate their knowledge of the properties of eleven geometric shapes. The product takes the form of a collapsible triangular stand which is easy to store when not in use. Geo flips complement the 2D/3D Geometric solids sets. Comes in a set of 6. Size: 17 x 37cm.

NX8600 Set of 6 \$116.95

FREE freight on all orders over \$99. Conditions apply, see website for details.

Space & Geometry - 3D Shapes

See the normally hidden lines inside the shapes

NEW

Getting Into Solids Prisms

Gain a deeper understanding of 3D shapes and get into each solid to see and touch the normally hidden lines. Each solid base is made of high quality plastic with colour-coded etchings to correspond with the edges and apothem. Brass rods represent heights while colour-coded elastic strings represent edges. There are two different heights of brass altitude rods provided. The shorter rods allow the construction of a 16x16cm cube. Create a cylinder and five prisms: triangular, square, rectangular, pentagonal, and hexagonal. Set includes twelve bases (two in each shape) measuring approximately 16cm in diameter, seven brass altitude rods, pre-cut elastic strings in two colours, six string attachment caps, sticky notes, and assembly instructions.

Space & Geometry - 3D Shapes

Volume Relationship

These volume relationship sets are ingenious models to demonstrate how different geometric shapes hold the same volume. Each of the sets include clear plastic shapes to easily see the volume inside. Use the set with (coloured) liquids or Playplas (not included and sold separately).

Volume Relationship Set

Children can explore different geo shapes and demonstrate their volume ratios with this six-piece set. It includes: a square pyramid (10 x 10cm), a rectangle (5 x 10cm), a cylinder (10 x 10cm), a cube (10 x 10cm), a sphere (10cm diameter) and a cone (10 x 10cm). Most shapes feature an opening, so it is easy to fill them with either water or flowing solids.

GG1044 Set of 6 \$30.95

NEW

Litre Set

Six clear containers with a common height (11cm). Ideal for teaching comparison between volume, capacity, mass and shape. Two of the containers hold a litre each, three others hold 0.5 of a litre and the sixth holds 250ml. Graduated levels are marked on each container.

TFC10869 Set of 6 \$40.95
4 or more - Each \$37.95

Volume Relationship Set – Clear

Set includes 15 pieces of different types of geometric solids. Size of biggest shape: 10.5 x 10.5 x 10.2cm. Size of smallest: 5.4 x 5.4 x 4.2cm. The shapes can be filled with liquids.

DM8312 Set of 15 \$46.95

Space & Geometry - Polydron

Frameworks

Frameworks is the next generation of Polydron. It's versatility allows the user to build bigger and more complex shapes, and can become a greater ally in helping to explain the nature of space within shapes. Frameworks combines with Polydron when needed and is equally versatile when used independently. These sets are suitable for the young and advanced student, who wants to investigate and understand shapes, angles, edges, vertices, planes and tangents.

Polydron Frameworks Multi Pack

Frameworks is the next generation of Polydron with the versatility for bigger and more complex shapes. A unique joining system makes Frameworks completely compatible with original Polydron which will complement any packs already in the classroom. It is lighter and therefore students can construct more complex and bigger designs, while allowing them to see the inside of the shape and explore the space within. Investigate shape, angles, edges, vertices, planes and tangent. Includes an activity booklet.

Space & Geometry - Polydron

Polydron Engineer

Polydron Engineer stands alone as a first class engineering construction set that enables the user to see links between mathematics and design & technology. Polydron Engineer contains the latest innovations including cams and linkages which allow for the construction of hundreds of realistic models which easily demonstrate engineering principals and the workings of simple machines. The work cards that come with every set will give teachers the time needed to explore children's dexterity and understanding of following simple instructions. Children in turn will take a great deal of satisfaction and reward from the construction of the machines pictured on the cards, and from checking their work step by step. The work cards contain extension ideas which encourage children to explore their own creative ideas using the pieces contained within the sets. One of the unique points about this new and innovative set is that the pieces are completely interactive with current Polydron and Frame works pieces so it will complement all existing classroom stocks.

POLYDRON
Polydron Engineer

This set includes 250 pieces of engineering components, which creates a totally unique Design & Technology product. The set is packed in a storage container and comes with work cards.

Kid K'NEX Counting and Early Maths Set

Teach pre-schoolers introductory maths skills with KID K'NEX Education® Counting and Early Maths! The set includes 177 parts, such as soft, chunky rods, connectors, eyes, and fun personality parts, featuring bright colours and made with premium-quality construction. The rods and connectors are larger and flexibly designed for an easier build for pre-schoolers. Number panels from 1-20 are also featured. They easily snap onto connectors, allowing pre-schoolers to begin to understand the basics of counting, addition, and subtraction. Build maths-themed models, such as a countapillar, build-a-butterfly, a subtraction flower, a counting critter, and more! It features four double-sided activity cards, that allow preschool educators to guide 3-4 children through STEM concepts like counting, estimating, subtraction, addition, and more! Suitable for grades pre-K through 2nd.

Space & Geometry - Geoshapes

Geoshapes

Geoshapes (also called GeoFix) is an exciting geometric construction system for students to explore and discover spatial relationships and geometric shapes. Great for mathematics, science, design or just plain fun. Geoshapes can be used from the early grades right through to high school. The system consists of 15 different interlocking geometric shapes, which simply snap together to create an endless variety of 3D models. Triangle, square and rectangular panels clip into like shapes adding another feature to 3D models created. All shapes are compatible with each other.

NEW

Geoshapes Multipack

Explore solid geometry with hands-on activities using this 3D Geoshapes kit. Comes in a sturdy plastic storage container.

Contains:

- 160 x triangles
- 80 x squares
- 40 x pentagons
- 20 x hexagons
- 40 x isosceles triangles
- 20 x equilateral triangles
- 80 x right-angle triangles

← Wood

← Included in the kit

1. Wooden Pattern Blocks - 250p

Best quality polished wood. These 10mm blocks are thick enough to stand up for 3-dimensional patterning. Set contains:

- 25 x Hexagons
- 25 x Squares
- 50 x Trapezoids
- 50 x Triangles
- 50 x Rhombus
- 50 x Parallelograms

TFC30112 **250 pieces** **\$35.95**
 12 or more - Each **\$30.95**

2. Wooden Pattern Blocks - 500p

Set contains:

- 50 x Hexagons
- 50 x Squares
- 100 x Parallelograms
- 100 x Trapezoids
- 100 x Triangles
- 100 x Rhombus

FREE freight on all orders over \$99. Conditions apply, see website for details.

Pattern Blocks

Wooden Pattern Blocks & Boards

3+ yrs

Matching and mosaic fun - these 120 brightly coloured, wooden geometric shapes match the 10 designs on 5 reversible boards. Children can also produce their own designs. Perfect for developing matching and fine motor skills.

MND29 120 pieces \$46.95

Wooden Beginner Pattern Blocks

2+ yrs

With 10 adorable scenes this set includes 5 wooden, double-sided cut-out boards and lots of wooden shapes. A total of 35 pieces. Box measures 28(L) x 28(W) x 6cm(H).

MND528 35 pieces \$59.95

NEW

Fractions with Understanding

Fractions with Understanding is powerfully effective in clarifying fractional number concepts, relationships, and operations because it combines physical models, pictures, and notational representation. The 48 Thinkcards® provide a broad range of experiences with physical, pictorial, and abstract representation of fractions, equivalents, ordered relationships, relative size, common denominators, addition, subtraction, etc. Included are operations with mixed numbers.

DC10106 Grades 3+ \$116.95

Animals Pattern Blocks

Complete the colourful animal pictures with geometric pattern blocks! Just match the shapes on the five double-sided wooden boards, then choose pattern blocks to fill the recessed spaces. The 47 geometric shapes come in a rainbow of bright colours, and can also be used outside of the boards for counting, sorting and original designs. Great for developing shape and colour recognition, fine motor skills and language skills!

MND4382 \$58.95

NEW

Studies in Symmetry

The 48 pattern block activities help students develop a strong sense of line, point and rotational symmetry. Patterns range in difficulty. Comes with 270 quality card-stock pattern blocks. Can be used with standard pattern blocks.

LAD4765 Grades 3+ \$70.95

NEW

Pattern Blocks Sudoku

Students learn patterns, spatial sense, fractions, basic geometry, symmetry and number operations the fun way, with this great hands on game! Includes 36 pattern blocks, 4 double sided game boards and an answer key.

DC10533 Grades F+ \$46.95

NEW

Pattern Block Workcards

The Black and White cards have 24 double sided copy cards - outline only on one side and suggested answer on the reverse. The colour cards are colour on one side, black and white on reverse. Each card measures 210 x 210mm.

Pattern Blocks

Metric Pattern Blocks

These Metric Pattern Blocks are the creations of well-known mathematics consultants Steve Lewis and Rod Cameron who had become frustrated with the limitations of regular pattern blocks. This frustration stemmed from 2 main elements of standard pattern blocks:

- Standard pattern blocks are in inches
- Standard pattern blocks do not have 45° shapes (45° rhombus and right isosceles triangle)

What makes these blocks special is that they are labelled in English, they are metric (3cm side units), they have two new shapes, and they are supported by three special templates - the Pikinini Polygons, Laikim Polygons and Tingting Polygons templates.

NEW

Metric Pattern Blocks

Set includes:

- 15 x Equilateral triangle
- 15 x 30° Rhombus
- 15 x Trapezium
- 15 x Right Isosceles Triangle
- 15 x 45° Rhombus
- 15 x Hexagon
- 15 x Square
- 15 x 60° Rhombus
- 1 x Storage Container

TFC16077 120 pieces \$40.95

NEW

Pikinini Polygons Template

Designed for lower primary school as the first measurement and representational tool. Allows elementary students to work with metric pattern blocks and represent their designs at a 1:1 ratio (full representation).

TFC16078 Each \$9.30
10 or more - Each \$7.00

NEW

Laikim Polygons Template

Designed for middle primary school as a measurement and representational tool. The shapes metric, and allows for 2:3 representations of the pattern blocks (2cm:3cm).

TFC16079 Each \$9.30
10 or more - Each \$7.00

NEW

Tingting Polygons Template

Designed for upper primary school as a measurement and representational tool. It is metric, and allows for 1:2 representations of the pattern blocks (1.5cm:3cm).

TFC16080 \$9.30
10 or more - Each \$7.00

NEW

Pentablocks

These uniquely proportioned blocks allow students to rediscover the Greeks definition of the golden ratio. Create complex repeating patterns used in Escher's famous artwork and explore a variety of other math concepts including symmetry, congruence, ratios and fractions. Set includes pentagons, stars, obtuse isosceles triangles, acute isosceles triangles, small rhombi and large rhombi in a great partitioned storage container - complete with a teachers guide.

ETA11135 Grades 4-12 - 245 pieces \$70.95

Deci-Blocks

Deci-Blocks are designed to extend the mathematical value of pattern blocks. This compatibility enables students to do many more tasks than are possible with Pattern Blocks alone. The Deci-Blocks can be utilised to deepen student logic and reasoning to understand the main areas of Mathematics. The Deci-Blocks combined with the Pattern Blocks can be utilised to represent fractions. This is clearly one of the strengths of the Deci-Blocks.

Plastic

NEW
Deci-Blocks & Pattern Blocks

Cookie cutter design, set contains one jar of plastic Deci-Blocks and one jar of plastic Pattern Blocks.

QE13710 302 pieces \$50.95

Wood

NEW
Deci-Blocks & Pattern Blocks

Set contains one jar of wood Deci-Blocks and one jar of wood Pattern Blocks.

QE10904 302 pieces \$116.95

NEW
Deci-Blocks Set with Tasks

Deciblocks are the perfect compliment to pattern blocks (please note, pattern blocks are not included and sold separately). Deciblocks expand the power of pattern blocks by adding six additional shapes to create a base ten manipulative. Available in plastic and wood.

Use Deciblocks to explore the following list of topics in greater depth.

- Measurement
- Addition, Subtraction, Multiplication, Division
- Tessellation
- Patterning and Symmetry
- Solving Area and Perimeter
- Decimal Theory
- Algebraic Thinking
- Fractions including $1/10$, $1/7$, $7/10$, etc.
- Sorting
- Geometry
- Base Ten concepts

QE10902 52 pieces - Wood \$46.95
QE13700 52 piece - Plastic \$31.95

Take pattern blocks to the next level by adding Deci-Blocks!

NEW
Deci-Blocks Teachers' Book

With user-friendly open-ended tasks of the models, simple and fun page layout covering over 15 mathematical topics, such as measurement and algebraic thinking. These 2 resource books are a must in every classroom where Pattern Blocks and Deci-Blocks are being used! 56 pages.

QE20817 Grades F-5 \$35.95
QE20820 Grades 6+ \$35.95

NEW
Deci-Blocks Template

The Deci-Blocks Template includes all 5 Deci-Block shapes as well as the 6 Pattern Block shapes. Also included on the template is imperial and metric ruler markings along the outer edges.

QE10903 \$15.20

FREE freight on all orders over \$99. Conditions apply, see website for details.

Pattern Blocks

NEW

Geo Mirror

Polished surface clearly reflects images for lessons on symmetry, congruency, lines and planes. Use for drawing angles and bisectors, perpendicular and parallel lines. Excellent for teaching properties of geometric figures, as well as basic construction. 15cm long.

TFC17103 Each \$4.60

Maths Mirror

What is usually an abstract experience becomes a concrete experience using this math mirror. This is an excellent tool for teaching the basics including congruency and symmetry. An invaluable aid in measuring angles of reflection.

GG1062 Each \$8.10

NEW

Activities for Reflect-It Hinged Mirror

Use the Reflect-It Hinged Mirror and everyday materials to explore angle measurements, reflections, rotations, translations, symmetry and the properties of polygons. 70 pages.

ETA19153 Grades 4-8 \$32.95

Pattern Blocks

Teach the concept of symmetry with pattern blocks.

10 pieces

NEW

Mirror Double Sided 90mm x 60mm

Unbreakable and bendable. Double sided.

TFC10310 10 pieces \$23.30
10 or more - Each \$22.20

10 pieces

NEW

Mirror 100mm x 150mm

Unbreakable and flexible. Can be cut with scissors. Single sided.

TFC10484 10 pieces \$18.70
10 or more - Each \$14.00

3 pieces

NEW

Hinged Mirror 100mm x 150mm

Unbreakable extra thick (3mm) distortion free plastic mirror, taped together to assist in the discovery of reflections. Will not flex or bend.

TFC11657 3 pieces \$23.30
10 or more - Each \$11.70

10 pieces

NEW

Economy Mirrors

Flexible, double sided, plastic mirrors that are easy to cut and safe for children to use. Also tape together at right angles for multiple reflections. 4.9cm.

TFC51229 10 pieces \$5.80
10 or more - Each \$5.30

NEW

Maths Tasks Pattern Blocks Book

Challenge students and maximise the use of Pattern Blocks with our Math Tasks Pattern Blocks Teacher Guide! Each book includes 18 lessons which incorporate Pattern Blocks into maths activities in meaningful ways that help students grasp concepts with greater ease and apply this conceptual understanding to real-world tasks and challenges. Each book features:

- 18 Teacher guide activities that model concrete representations of abstract mathematical concepts
- Teacher support that provides in-depth discussions of mathematical content and critical thinking
- Easy-to-use resources that offer classroom-tested lesson plans targeting the big ideas of maths

ETA86589	Year 6-8	\$87.95

Mathematics Pattern Blocks - Paul Swan

Highly recommended! Full colour reference resource, including reproducible student worksheets. This book provides a range of developmental activities that encourage the use of manipulatives in the classroom. Clear precise illustrations and photographs show comprehensive background information, including organisation, objectives, importance of language and detailed step-by-step instructions. 88 pages.

RIC6001	Grades F-3	\$50.95
---------	------------	---------

Pattern Blocks Book - Dr Paul Swan

This book helps teachers use Pattern Blocks to develop students understanding of: geometry - shape, symmetry, tessellation, angle; measurement - perimeter and area; number - fractions; algebra - patterns.

PSB253	48 pages	\$38.95
--------	----------	---------

NEW

Pattern Block Book

Pattern Block Book is a set of reproducible student worksheets that will enable you to take maximum advantage of pattern blocks, one of the most common and versatile hands-on materials available. Each of the activities includes a Blackline Master, teaching instructions and additional follow-up activities. The activities are organised into sections that address the key maths topics of numbers and operations, geometry, measurement, algebra and probability. Designed specifically for lower primary, the book will encourage the best use of this everyday maths manipulatives and is an ideal introduction for younger students to the various learning areas of mathematics.

RIC6012	Grades F-3	\$46.95

Attribute Blocks Kit & Activity Cards Set

This kit includes the 50 Attribute Blocks Activity Set, as well as most of the resources needed to perform the 50 activities. Included in the kit is: one set of desktop attribute blocks (TEB0278), one set of 15 mini grouping circles (TFC10179), a set of 6 feely bags (TFC16262), a set of 6 sorting bowls (EC370), and the Swap & Spin Attributes Spinner Pack (TFC11268).

JNL323K

\$114.95

Attribute Block Set

Help students develop logic skills with activities to practice ordering, patterning, classifying and understanding equivalent relationships. Attribute Blocks form a strong basis for students to recognise more complex attributes in other objects and introduce more complex mathematical vocabularies. As their name suggests, Attribute Blocks are easily sorted into colour, shape, size and thickness. The first process is for early learners to sort by one attribute and then progress to determining two or more ie: same shape different size, or same colour different shape. For older students, use the Attribute Blocks to introduce mathematical language such as: line, angle, vertex, side, parallel, etc.

NEW

Attribute Blocks Pocket Set

Each set of Attribute Blocks consists of: 5 shapes, 2 thicknesses, 2 sizes and 3 colours. Organiser tray features shape supports and a removable cover. Largest square measures 3 x 3cm.

TFC10117 60 pieces \$11.60
 6 or more - Each \$10.50

Small Attribute Set

Each set of Attribute Blocks consists of: 5 shapes, 2 thicknesses, 2 sizes and 3 colours. Organiser tray features shape supports and a removable cover. Largest square measures 5 x 5cm.

TEB0278 60 pieces - 5 shapes \$26.90
 4 or more - Each \$23.40

Large Attribute Set

Each set of Attribute Blocks consists of: 5 shapes, 2 thicknesses, 2 sizes and 3 colours. Organiser tray features shape supports and a removable cover. Largest square measures 8 x 8cm.

TEB0277 60 pieces - 5 shapes \$70.95

50 Attribute Blocks Activities

5+ yrs

50 Attribute Block Activities is a set of 50 double-sided activity cards for teaching maths skills with attribute blocks. Topics include: shapes, sizes, colour, comparison, patterning, probability, sorting, venn diagrams, tripple venn diagrams, differences, carroll diagrams, fractions and perimeters. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Maths manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

TFC19010 A4 - Grades F-2 \$29.20

Attribute Blocks

Reasoning is one of the four proficiency strands in the Australian Curriculum. Written to help teachers use attribute blocks to help children learn to reason and apply logic, this book will allow you to gain the most from this resource. Working with Attribute Blocks will expose students to inductive reasoning and the series of deductive reasoning, where a series of logical arguments are strung together. The development of mathematical language 'and', 'or', 'not', 'if'... then may all be developed when using Attribute Blocks.

PSB841 Grades F-6 \$38.95

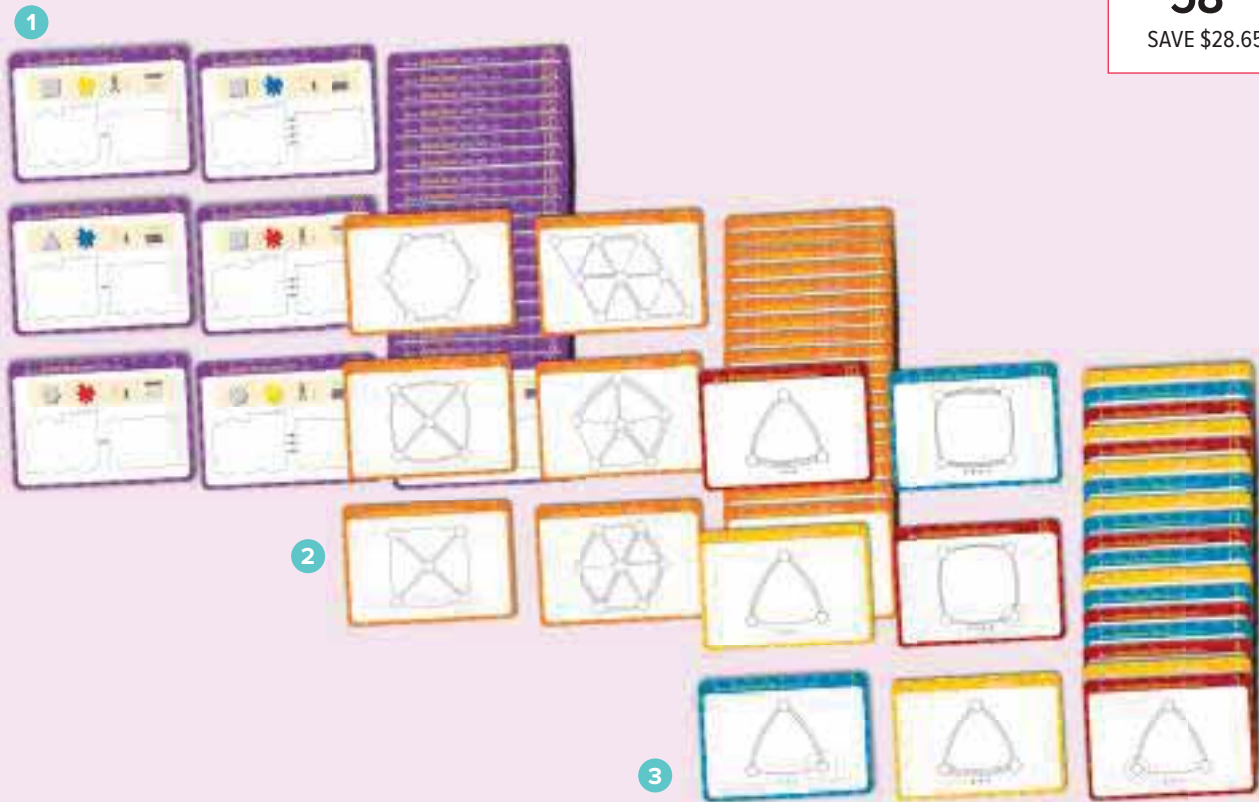

Attribute Cards Kit

NEW

TFC10074K Set of 3 \$58.95

This kit includes one of each Attribute Block Cards: Classifying Cards (TFC10074), Difference Activity Cards - Set B (TFC10075) and Difference Activity Cards - Set A (TFC10073).

~~\$87.60~~
NOW ONLY \$58.95
SAVE \$28.65

1. Attribute Blocks Classifying Cards

These delightfully detailed cards can be used for classifying, comparing, sorting and simple logic.

TFC10074 25 pieces \$29.20

2. Attribute Blocks Difference Activity Cards A

Use these 24 activities for sorting and problem solving. Ideal for grades F-3.

TFC10073 Set A - 24 pieces \$29.20

3. Attribute Blocks Difference Activity Cards B

These activity cards are perfect extension activity for those children who have advanced through Set A or simply require more thought provoking problems to solve. Ideal for grades 4-8.

TFC10075 Set B - 24 pieces \$29.20

FREE freight on all orders over \$99. Conditions apply, see website for details.

Tangrams

Tangrams

Tangrams are an excellent material with which to work on shape recognition, size comparison, spatial reasoning, pattern replications and design.

Geometric Equipment

1-Metre Ruler

This measuring metre stick is clearly marked with 1, 5 and 10cm markings. The green numbers are clearly visible on the white background. On the bottom half of the ruler, every 10 cm is marked in alternately green or white block to show 10cm increments.

TEB0423 Each \$19.80

NEW

Junior Metre Stick

Features alternate colour bars every 10cm over 1cm calibrations. Reverse side is marked in millimetres.

TFC16145 1 piece \$13.95

Teacher's 180° Protractor – 50cm

Protractor with handle for use by the teacher on a whiteboard, is white, non-magnetic and comes with an anti-slide strip under the handle for secure positioning. Non-magnetic.

WIS10600 Each \$27.50

Teacher's 1-Metre Ruler

1-metre ruler with handle for use by teacher on the whiteboard, is white, non-magnetic and comes with an anti-slide strip under the handle for secure positioning. Non-magnetic.

WIS10300 Each \$26.90

NEW

Ruler: 1m Folding

Features alternate colour bars every 10cm over 1cm calibrations. Reverse side is marked in millimetres.

DC10002 1 piece \$23.30

Measure
round objects

NEW

Transparent Metre Ruler

Transparent and flexible, these rulers can be used as number lines as well as for measuring contours and drawing straight lines. 6 clearly marked rulers in 3 colours. 1m x 5cm.

TFC16134 6 pieces \$29.20

NEW

Metre Ruler: Demoflex

Plain and colour-coded sides show the relationships between millimetre, centimetre, decimetre and metre.

TFC10404 \$11.60

NEW

Metre Ruler: Wooden Grooved

This metre ruler has a channel grooved through its centre which can be used as a number track with 1cm cubes or Coloured Rods.

TFC10184 \$9.30
10 or more – Each \$5.90

Flexible 1m Number Line/Ruler – 0 to 100

A flexible 1m number line made from durable woven vinyl, 0-100 with each decade shaded alternately in red and blue. Includes slide along number markers and is supplied in a reusable plastic container. Measures 100 x 2.5cm.

WIS80900 \$15.20

Flexible

1 Metre Number Line 1 to 1000

A flexible 1m number line made from durable woven vinyl, 0-1000 with each hundred shaded alternately in red and blue. Includes slide along number markers and is supplied in a reusable plastic container. Measures 100 x 2.5cm.

WIS80901 \$15.20

Measure round objects

3 Metre Number Line -100 to +100

A giant flexible 3m number line made from durable woven vinyl, -100 to +100 (-100 to 0 in blue, 0 to +100 in red). Includes slide along number markers and is supplied in a reusable plastic container. Measures 300 x 9cm.

WIS80922 \$93.95

3m long

NEW

Metre Cube - Plastic

This kit contains 12x 1m rods and 8 connecting pieces. Easily assembled to show students what an actual cubic metre looks like. Colours may vary.

FREE freight on all orders over \$99. Conditions apply, see website for details.

Measurement - Angles

Clinometer

Compact, with no external moving parts and a combined 'sighting' angle-reading eyepiece. A viewing window on the side allows a second person to check a reading. All angles in degrees followed by a plus or minus to indicate an upward or downward slope.

IP0506 Each \$49.95

NEW

Clinometer

A clinometer is an instrument used to measure the height of an object by determining the angle of slope. This compact clinometer has been designed with no external moving parts and a combined 'sighting' – angle reading eyepiece. A window on the side of the Clinometer allows a second person to confirm or check a reading. All angles are given in degrees followed by a plus or minus sign to indicate an upward or downward slope (inclination or declination).

NK16469 Each \$32.95

NEW

Angles Chart

Excellent tool for demonstrating and teaching angles. One side of the chart is dedicated to beginners and the other side provides graphics and details to simplify comprehension of the angles concept. Laminated chart measures 49.5 x 69.5cm.

TFC18016 Each \$8.10

NEW

Clever Catch® Geometry

The 73 colour coded questions include: coordinate system; planes, lines and angles; quadrilaterals, and triangles. Clever Catch® is played with at least two students who toss the ball to each other, answering the problem underneath or closest to their left thumb. Grades 5-8.

DC10667 Each \$29.20

NEW

I Have, Who Has?

These exciting mental math games motivate students to practice mathematical skills and vocabulary. Use as a whole class activity to reinforce a particular set of skills. Time the activity and use the same cards (dealt randomly) again in the next lesson to try to beat the previous time.

TFC10773 Geometry - Ages 9+ \$11.60
 TFC10784 Geometry - Ages 11+ \$11.60

Geolegs

Students enjoy exploring numerous geometric principles with GeoLegs the all-in-one geometry tool. Made of sturdy, clear polycarbonate, this ingenious manipulative functions as an easy-to-use protractor, a safe compass, and a polygon-building tool.

NEW

Geolegs

Each GeoLeg consists of two clear plastic arms that rotate around a central vertex which is surrounded by a degree measurement wheel. The arms have centimetre marks, and the wheel scales indicate 5 degree increments.

50 Measure Activities

50 Measure Activities is a set of 50 double-sided activity cards for teaching measure knowledge and understanding. Topics include: comparing size, width, length, area, estimation, height, 3D area, weight, volume, displacement, capacity, balances, turns, angles, temperature and volume. Later activities introduce metric measures of: 1 meter, 1 centimeter, 1 kilogram, and 1 gram. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Math manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL333 50 pieces \$35.95

NEW

Metric Measurement Chart

Demystify the metric system! Metric units for volume, mass, temperature, length and distance are featured. Grades 3 and up. Chart measures 49.5 x 69.5cm.

TFC18015 \$8.10

NEW

GeoFiguro Cards

Challenge students to master number concepts, operations and shape identification. Each card has a number and a geometric shape allowing for a wide variety of games similar to War, Memory and Rummy. Pack contains 68 cards.

ETA10716 Grades 2-5 - 68 Cards \$11.60

NEW

Area Dominoes

These 28 dominoes demonstrate the concept of surface measurement and notation in square centimetres. Printed in two colours, dominoes measure 80mm x 40mm. Instructions are included.

TFC11527 28 pieces \$23.30

NEW

Area Calculation

This set of dominoes is designed to reinforce the concept of area measurement and gives practice in calculating the area of squares and rectangles in cm^2 and m^2 . These two colour dominoes measure 80 x 40mm. Instructions are included.

TFC11528 28 pieces \$23.30

NEW

Perimeter Calculation Dominoes

Demonstrates the concept of perimeter measurement and gives practice in the different processes required to calculate the perimeter of squares and rectangles in metres and centimetres. Dominoes measure 80 x 40mm.

\$29.20

Double Nine Dominoes

4+ yrs

This set of 165 extra large dominoes (4.5 x 9cm) includes 0-9 numerals, words and dot combinations. A fun, interactive way for children to develop number knowledge. Teacher's suggestions are included.

KNB1304

165 pieces

\$52.95

NEW

Playful Polygons

Venture into learning about two-dimensional geometric shapes! Sixteen different polygons - including six kinds of triangles; seven kinds of quadrilaterals; plus pentagons, hexagons, and octagons. Includes 45 dominoes and a hexagonal starting board. For 1 to 4 players.

LAD4631

Grades 4+

\$29.20

NEW

Clock Wise

Clock Wise provides playful practice in telling time to five-minute intervals. Players match an analog clock with the time it shows. The winner is the first to place all of his or her dominoes. The 48 dominoes are divided into four sets of 12 labeled A, B, C, and D. Clocks in Sets A and B show quarter hours and those in C and D display five-minute intervals. Combining two specific sets per game allows for three levels of play: quarter hour intervals, five-minute intervals, or both.

LAD4265

Grades 2+

\$26.90

NEW

Solids Savvy

Players soon become knowledgeable about three-dimensional geometric shapes with this instructive domino game. The twelve solids include five kinds of prisms; three kinds of pyramids; plus spheres, hemispheres, cylinders, and cones shown in different orientations. Contains 45 dominoes and a hexagonal starting board. For 1 to 4 players.

LAD4630

Grades 4+

\$29.20

Mix & Match Dominoes

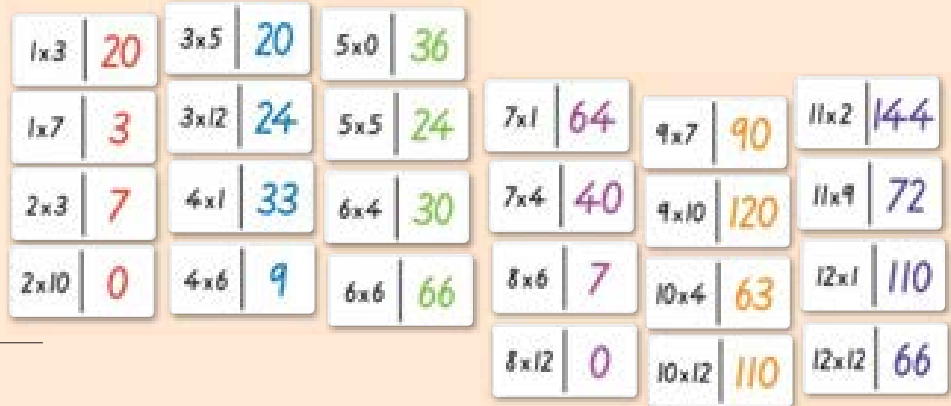

Mix and match these sets of quality Teachers First Choice dominoes to teach children the various ways time is represented with clock faces, digital faces, numbers and words. All the sets work together as the times represented are the same. Each set has 28 plastic dominoes (measuring 80 x 40mm) that help children to learn the 5 minute points of the clock and how to tell when it is quarter past or to the hour.

NEW

Multiplication Dominoes Complete Set 6 Packs

Based on the tables 1-12 these six sets of 26 colour coded dominoes can be played individually or mixed to increase difficulty.

TFC11652 156 pieces \$99.95

NEW

Division Dominoes Complete Set 6 Packs

Printed in different colours per level. Each level has 26 dominoes and can be played as a separate game or the levels can be combined for added difficulty.

NEW 
Dot Dice - 25mm
 TFB13364 Each \$1.40

NEW 
Dot Dice - 36mm
 TFC10150 Each \$4.10

Special Dot Dice

This range of special dot dice is unique and offers a wider range of activities than the standard dot dice.

NEW 
Jumbo Dot Dice - 10-sided - 1-10
 TFC11375 Each \$2.30

NEW 
Jumbo Dot Dice - 12-sided - 1-4 (x3)
 TFC11422 Each \$3.70
 5 or more – Each \$3.50

NEW 
Jumbo Dot Dice - 12-sided - 1-12
 TFC11421 Each \$3.40

Operations Dice

This unique range of dice feature mathematical operations. Each 16mm dice depicts a variety of different operation signs. Use these dice with other educational dice or polyhedra dice to create random equations. The price is for each dice only.

NEW 
Operations Dice #1
 On the six faces are the signs: +, -, x, ÷ and Joker.
 TFC12886 Each \$0.60

NEW 
Operations Dice #2
 On the six faces are the following signs: ≥, <, =, ≤, >, and ≠.
 TFC12888 Each \$0.60

NEW 
Operations Dice #3
 On the six faces are the following signs: +, -, x, ÷, < and ≥.
 TFC10825 Each \$0.60

NEW 
Operations Dice #4
 On three faces are the sign + and on the other three faces are the sign -.
 TFC10219 Each \$0.60

NEW 
Operations Dice #5
 On three faces are the signs x and on the other three faces are the signs ÷.
 TFC10220 Each \$0.60

NEW 
Operations Dice #6
 On each face is the sign =, and is used to complete equations.
 TFC11395 Each \$0.60

FREE freight on all orders over \$99. Conditions apply, see website for details.

Dice - Number

Education Dice 16mm

This high quality range is especially designed for the school market. All dice are white in colour with etched markings in black, rounded corners and are 16mm³.

NEW

Education Dice 1-6

On the six faces are 1, 2, 3, 4, 5, 6.

TFC10299 Each \$0.60

NEW

Education Dice 7-12

On the six faces are 7, 8, 9, 10, 11, 12.

TFC12887 Each \$0.60

NEW

Education Dice 13-18

On the six faces are 13, 14, 15, 16, 17, 18.

TFC17143 Each \$0.60

NEW

Education Dice 19-24

On the six faces are 19, 20, 21, 22, 23, 24.

TFC17147 Each \$0.60

NEW

Education Dice 25-30

On the six faces are 25, 26, 27, 28, 29, 30.

TFC11105 Each \$0.60

NEW

Education Dice 0-5

On the six faces are 0, 1, 2, 3, 4, 5.

TFC10247 Each \$0.60

NEW

Education Dice 2-7

On the six faces are 2, 3, 4, 5, 6, 7.

TFC10281 Each \$0.60

NEW

Education Dice 4-9

On the six faces are 4, 5, 6, 7, 8, 9.

TFC10246 Each \$0.60

NEW

Education Dice 2-5

On the six faces are 2, 3, 3, 4, 4, 5.

TFC10245 Each \$0.60

NEW

Education Dice 5-9

On the six faces are 5, 6, 7, 8, 9 and Blank.

TFC11398 Each \$0.60

NEW

Education Dice 5-10

On the six faces are 5, 6, 7, 8, 9, 10.

TFC11399 Each \$0.60

NEW

Education Dice 1-3 (x2)

On the six faces are 1, 2, 3, 1, 2, 3.

TFC10244 Each \$0.60

NEW

Education Dice 6-9

On the six faces are 5, 6, 7, 8, 9 and Blank.

TFC11400 Each \$0.60

Education Dice 22mm

22mm dice are an excellent resource for the classroom. Visually large and clear - these dice with different configurations create a whole new element to using dice in a math lesson.

Sum Dice

NEW

Sum Dice 22mm
The faces have -2, -1, +2, +3, +4, +5.

TFC10254	Each	\$0.90
----------	------	--------

NEW

Sum Dice Negative Even 22mm
The faces have 1, -2, 3, -4, 5, -6.

TFC11397	Each	\$0.90
----------	------	--------

NEW

Sum Dice Negative Odd 22mm
The faces have -1, 2, -3, 4, -5, 6.

TFC11396	Each	\$0.90
----------	------	--------

NEW

Pattern Block Dice 22mm
The faces have depictions of the standard "Pattern Block" shapes and colours.

TFC11405	Each	\$1.20
----------	------	--------

NEW

Education Dice 1-6 22mm
The faces have 1, 2, 3, 4, 5, 6.

On each face are roman numerals, V, X, L, C, D, M.

TFC11402 Each \$0.70

6-Sided Fraction Dice 16mm

A set of 100 fraction dice in a jar. Each die is 6-sided, the faces show 1/2, 1/3, 1/4, 1/5, 1/6, 1/8. Size: 16mm.

TEB6218 Set of 100 \$64.95

Teachables

10-Sided Fraction Dice Fractions In Jar - Set 1

A set of 50 fraction dice in a jar. Each die is 10-sided, the faces show 1/10, 1/5, 3/10, 2/5, 1/2, 3/5, 7/10, 4/5, 9/10, 1. Comes in assorted colours.

TEB6216 50 pieces \$33.95

Teachables

10-Sided Fraction Dice Fractions In Jar - Set 2

A set of 50 fraction dice in a jar. Each die is 10-sided, the faces show 1/10, 2/10, 3/10, 4/10, 5/10, 6/10, 7/10, 8/10, 9/10, 10/10. Comes in assorted colours.

TEB6217 50 pieces \$33.95

Fraction Dice

NEW

Fractions 10ths Equivalence

10 face dice, the faces show 1/10, 1/5, 3/10, 2/5, 1/2, 3/5, 7/10, 4/5, 9/10, 1.

TFC11512 Each \$0.60

NEW

Fractions 8ths

8 face dice, the faces show 1/8, 1/4, 3/8, 1/2, 5/8, 3/4, 7/8, 1.

TFC11367 Each \$0.60

NEW

Fractions 10ths

10 face dice, the faces show 1/10, 2/10, 3/10, 4/10, 5/10, 6/10, 7/10, 8/10, 9/10, 10/10.

TFC11366 Each \$0.60

NEW

Multi Coloured Fraction Dice Set

A set of fraction dice in white, red and green. All dice faces show 1/2, 1/3, 1/4, 1/6, 1/8 and 1/12.

TFC16387 6 pieces \$4.60

NEW

Equivalence Dice Pack

Designed to promote recognition of equivalent decimal, fraction and percentage forms and can be used for games which explore the relationship between them. Colour-coded with fractions, decimals and percentages each in different colour and each representing: 1/100, 1/20, 1/10, 1/5, 1/4, 1/3, 1/2, 3/5, 3/4, 1 whole. Dice measure 3.6cm(H).

ET10307 6 pieces \$23.30

NEW

Fractions 6ths

6 face dice, the faces show 1/6, 1/3, 1/2, 2/3, 5/6, 1.

TFC10992 Each \$0.60

NEW

Fraction Dice

1/8, 1/6, 1/5, 1/4, 1/3, 1/2: use a standard or polyhedra dice to substitute the numerator on these quality fractions dice.

Dice - Reference Books

NEW

Dice Activities Building Number Sense and Power

Enhance students' number skills with these fun dice games. Activities address number and operations, reasoning, representation and communication. Includes teacher notes, complete instructions, reproducible graphs and charts. 98 pages.

RIC6006 Grades F-3 \$46.95

NEW

Jumanji Book

An exciting jungle fantasy adventure story that provides a springboard to exploring probability with dice. Hardcover 32 pages.

ETA19203 Grades F-6 \$52.95

NEW

Dice Activities for Multiplication

Ordinary dice can be used to help students learn multiplication facts with this challenging activity book. 7 different types of dice activities support differentiation and reinforce number patterns while developing fluency with facts 2-12, probability and graphing. 109 pages.

RIC6010 Grades 3-6 \$46.95

NEW

Dice Activities for Subtraction

Students have the opportunity to develop fluency with basic subtraction facts with an alternative to paper and pencil drills. These activities develop concepts of comparison and subtraction. 136 pages.

RIC6014 Grades 1-3 \$46.95

NEW

Dice Activities for Mathematical Thinking

These classroom tested activities immerse students in developing fluency with the concepts of square numbers, square roots, primes, factorials, summations and positive and negative integers. All BLM's and teachers notes provided for over 75 activities. 136 pages.

RIC6013 Grades 5-8 \$46.95

NEW

Dice Activities for Division

Dice Activities for Division presents more than 20 different games for developing fluency with divisors, dividends, quotients, and remainders. With a solid handle on division facts, students are prepared for the more complex study of fractions and pre-algebra concepts. Teacher notes include suggestions for differentiating instructions and discussion questions. Variations for each activity provide extra fun and challenge students who are ready to take their maths learning to a higher level.

RIC6016 Grades 3-5 \$46.95

NEW

The Mathematical Toolbox

Over 200 sequential math challenges, integrating a wide variety of hands on manipulatives. Each page focuses on a manipulative delivered through 8 flexible activities. Some topics covered: counting, fractions, probability, estimations, and much more. Includes teachers notes and solutions. 90 pages.

ETA19200 Grades 1-8 \$46.95

Standard Playing Cards in 10 Colours

Our Teachables playing cards have been designed to make it easy and quick to sort the cards after use. This set of 10 playing card decks are supplied in 10 vibrant colours and come in a sturdy cardboard storage box. Each deck consists of 54 standard playing cards, each card measuring 87 x 56mm. Playing cards are an extremely versatile resource to reinforce many key mathematical concepts and an absolute must-have for every classroom!

12 or more - Each		\$4.40
DC10143	Large Index	\$5.30

NEW

School Friendly Playing Cards

These playing cards have been designed for younger children. They include 0 and 11, 12, and 13, rather than Jacks, Queens, Kings and Aces. Instead of suits there are four colours and shapes (triangles, rectangles, squares and circles). The shapes on each card are presented in standard subitising patterns.

PSB527	Standard Index	\$6.95
--------	----------------	--------

Magnetic Playing Cards

Demonstrate a wide range of maths activities with playing cards by sticking them on a whiteboard! Each playing card displays the suit and the value in large format in the middle of the card for easy visibility. Each card measures 14 x 10.5cm, set of 52 cards.

TEB6057	Set of 52	\$46.95
---------	-----------	---------

NEW

Playing Card Storage Box

Handy storage container for those inevitable loose decks of standard playing cards. (Cards not included).

TFC70000	Each	\$1.80
10 or more - Each		\$0.90

NEW

Blank Playing Cards

Create your own games with this deck of 54 blank (on one face), laminated paper cards. Available in 4 colours.

TFC1969	Blank	\$3.50
20 or more - Each		\$3.20

\$40⁵⁰

NEW

School Friendly Playing Cards Kit

This kit includes the School Friendly Cards book (PSB528) and 10 decks of School Friendly Playing Cards (PSB527). The book will give you plenty of ideas to use the School Friendly Playing Cards. The child friendly playing cards display numbers 0-13 instead of the Jack, Queen, King and Ace. Furthermore comes in 4 colours and shapes instead of the suits. This completely removes the gambling association that often comes with playing cards.

PSB527K \$71.95

Cards on the Table - Dr Paul Swan

An inventive collection of more than 20 games, some using a standard pack of cards and others created from blank cards, that encourages mathematical fluency. The games are designed for a range of ages from very young through to upper primary, and cover topics such as basic number facts, the four operations, shapes, fractions and decimals, negative numbers and early algebra. BLM's. 48 pages.

PSB548 Each \$31.95

NEW

Card Capers Book - Dr. Paul Swan

Classically Australian - this book is a must in every classroom. Full of card playing activities to reinforce space, number, problem solving, probability, place value and more. Valuable for all Primary Grades. See also Domino Deductions, Dice Dilemmas and Dice Dazzlers by the same author on pages 443. 48 pages.

PSB320 Each \$31.95

Spinners

The Swap + Spin Spinner Cases and Inserts are a perfect alternative to dice in the classroom, and allow you to practise with any subject, simply by swapping the insert. Great for cross-curricular activities, while practising probability. The spinner cases measure 12.3 x 12.3cm, and the spinner inserts are 11.5 x 11.5cm. The inserts are made of plastic, and don't warp or bend.

Swap + Spin Numbers Pak

Includes:

Calculators

Only the Best Quality Calculators

These have been carefully selected to provide a calculator that will stand up to the rigours of school use at a reasonable price. All of our calculators come with a full 1 year replacement warranty. Most are solar powered with battery backup. Each level of the Primary School has been catered for in the choosing of our calculators. F-2 needs a large buttoned full display model whereas the upper Primary school has different needs in their calculator. This is reflected in the size and price. Children need different experiences throughout their school life and if they are using the same calculator in Year 6 as they had in Year 1 then any excitement is gone. They feel that it is too "childish" to use that calculator, so it is up to you the teacher to enrich their experience.

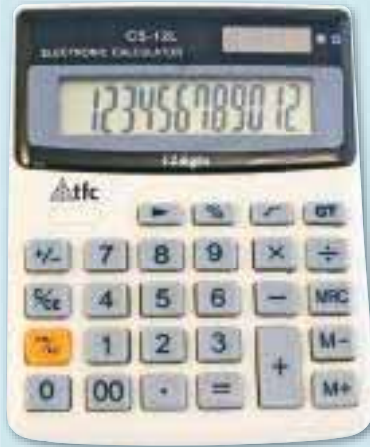

NEW

Large Display Calculator

Ideal for (but not limited to) the lower Primary school, very economical. This calculator features a protected solar cell and battery backup.

TFC10797	8 Digit	\$10.50

EasyRead TwinTime Teacher Card

This single resource can be used to demonstrate every element of the curriculum relating to analogue clocks, including writing the displayed time on the write-on-wipe-off surface. Printed both sides with 'Past and To' on one side and '12/24hr time' on the other and with 2 sets of hands, it is the perfect hand held time-teaching resource. The design of the faces makes every element easy to explain, it even shows how the hour number changes at half past when we're teaching 'Minutes Past and To the Hour'. It also allows for instant comparison between '12/24 Hour' times and 'Minutes Past and To'; very useful when you reach that part of the curriculum. 32cm x 39cm. Dial is 30cm.

ERT003 \$31.95

EasyRead TwinTime Student

Your students can follow your every move with their own double-sided clock card. This larger-than-normal card is very easy for young hands to use. The hour number boxes tell the student which hour number to read at any point in time and 1/4 hour markings for the hour hand help them place the hands in the correct positions relative to each other. The 5-minute numbers are highlighted and all the minute numbers are shown. The hands tell your students which numbers to read, or help them dial the time that you suggest. 15cm x 20cm. Dial 13.5cm.

ERT004 10 pieces \$58.95

Write & Wipe Resources

Swap, Write n Wipe Sleeve

Reduce your photocopying time and budget. All photocopied sheets can be used a number of times if removed with care and stored for further use with these economical Swap, Write 'N' Wipe Sleeves. Each sleeve has a side opening, making sliding your work sheets in and out easy and without scrunching or tearing. Use these write on/wipe off sleeves with any subject where black line masters are required. The elastic loop at the top of the sleeve will keep your low odour write on/wipe off pens in place when the sleeve is not being used during the lesson, or at the end of the lesson when the sleeves are placed back into storage.

NEW

Fraction Squares Foam

Soft foam fraction squares, consisting of whole, halves, thirds, fifths, eighths, tenths and twelfths. Excellent for a concrete experience of fractions and as an introduction to percentages and decimals. Largest square (whole) measures 10 x 10cm.

TFC10858 51 pieces \$13.95

FREE freight on all orders over \$99. Conditions apply, see website for details.

Foam Manipulatives

Ten Frames

Develops numbers sense within the context of ten. Ten-Frames are two-by-five rectangular frames into which counters are placed to illustrate numbers less than or equal to ten, and are therefore useful devices for developing number sense within the context of ten. Various arrangements of counters on the ten-frames can be used to prompt different mental images of numbers and different mental strategies for manipulating these numbers, all in association with the numbers' relationship to ten. Plenty of activities with ten-frames will enable children to automatically think of numbers less than ten in terms of their relationship to ten and to build a sound knowledge of the basic addition/subtraction facts for ten which are an integral part of calculation. Suggested activities included.

**NEW****Ten Frames Numeration Board**

Tens Frame are two-by-five rectangular frames. Placing counters inside each of the 10 parts of the frames allows students to develop 'number sense' within the context of 10. Includes 4 x boards, 40 x two colour pegs and teaching notes. Multiple boards can be connected on all sides.

TFC11167

44 pieces

\$14.60

**NEW****Ten Frames Magnetic Foam**

A magnetic tens frame set to use on a magnetic whiteboard. Placing counters inside each of the 10 parts of the frames allows students to develop 'number sense' within the context of 10. Includes 4 x boards, 40 x blue pegs, 40 x two colour pegs (red & blue) and teaching notes.

TFC11171

84 pieces

\$29.20

**NEW****Five Frames Foam Numeration Board**

This foam five frame board includes 5 boards and 25 two-coloured pegs (red and blue). Use 2-colour pegs to help children visualise addition and subtraction and object to number relationships. Multiple boards can be connected on all sides.

TFC16450

30 pieces

\$9.30

**NEW****Five Frames Magnetic Numeration Board**

This magnetic foam five frames set includes 5 boards and 25 two-coloured pegs (red and blue). Five Frames and five strips are the ideal tool for supporting children to learn basic number concepts. Use with five frames activity books and cards to get the most out of the boards.

NEW

Triangle Match-Ups – Time

A complete set of our six popular time dominoes. Set includes:

- 1 x Clock Dominoes Analogue/Digital 12hr
- 1 x Clock Dominoes Analogue and Numbers
- 1 x Clock Dominoes Analogue/Digital 24hr
- 1 x Clock Dominoes Digital and Words
- 1 x Clock Dominoes Analogue and Words
- 1 x Clock Dominoes Digital and Numbers

TFC16054 168 pieces \$95.95

NEW

Clock Wise

Clock Wise provides playful practice in telling time to five-minute intervals. Players match an analog clock with the time it shows. The winner is the first to place all of his or her dominoes. The 48 dominoes are divided into four sets of 12 labeled A, B, C, and D. Clocks in Sets A and B show quarter hours and those in C and D display five-minute intervals. Combining two specific sets per game allows for three levels of play: quarter hour intervals, five-minute intervals, or both.

LAD4265 Grades 2+ \$26.90

Tell The Time Bingo - Beat The Turtle

Try to beat the turtle by filling up your answer card first! Children pick up a card and place it over a matching answer on their board. But if you pick up a turtle card, it has to be placed on the turtle board. Beat The Turtle provides a fun way to learn and recognise digital, analogue and written word clock times. Contains 4 durable, wipe clean mats (25x33cm), 80 sturdy playing cards in a storage box.

LF3380 \$29.20

4+ yrs

Adding Money Snap

Children can have fun while learning the value and relationship of money. The Snap cards (6 x 13cm) use both coin and digital values up to \$5. The varying combinations help children recognise, understand and appreciate money values. Supplied in a sturdy storage container.

LF002 66 cards \$21.00

5+ yrs

Beat the Kangaroo Money Bingo

This game (Australian Money) is played in a similar manner to traditional bingo. Children will have to complete their money bingo card before the Kangaroo's board is completed. Children will both learn and become confident when interacting with money. Contains four durable, wipe clean mats (25 x 33.5cm) and 80 sturdy playing cards in a sturdy storage box.

EC0080 Each \$38.95

4+ yrs

Money Dominoes

Children will learn to match Australian money equivalents in three ways – numeral, written and pictorial form while playing an exciting game of dominoes. Includes 45 dominoes (7 x 14cm) with instructions. Suitable for 2 to 4 players. Supplied in a sturdy storage container.

LF003 \$19.80

4+ yrs

Money Lotto

This game is designed to assist with the identification of Australian coins and to give practice in recognising that an amount of money can be tendered in many different ways. Set contains 4 cloth-backed vinyl mats (33 x 50cm), 40 plastic tiles (6 x 8cm), set of coins and 36 giant counters (3.8cm) packed in a storage bag.

LF102 Each \$66.95

NEW

MathShark

Practice maths facts anywhere with this engaging hand held game. Quizzes include: addition, subtraction, multiplication, division, fractions, decimals and percents; either randomly or sequentially. 8 skill levels to keep students challenged. Allows students to view equations both horizontally or vertically on the large LCD screen. Provides instant feedback with lights and sounds - or can be played silently. Grade 1+.

EN8490 \$93.95

NEW

Math Whiz

With all the power of traditional flash cards, this fast paced game has 8 levels of play to keep children challenged. Quizzes include: addition, subtraction, multiplication and division. Provides instant feedback with large LCD screen and sound (can be played muted). Switches to calculator function at the press of a button. Grade 1+.

Maths Games

Set of 10

NEW

Penguins on Ice Math Activity Set

Set of 10 plastic ice bars with 'small pegs' for penguin counters to sit in. Ice bars can hook together to form a 10x10 grid or the ice bars can hook together horizontally. 100 penguin counters, 10 of each colour - black, brown, purple, blue, green, pink, red, orange, yellow and white. Comes with a guide with activities and a Blackline Masters. Packaged in a box.

LER3311 Grades 2+ \$59.95

NEW

Claim Stakers

Mine for the rich content in the hundreds chart with Claim Stakers! Players develop knowledge of multiples, divisors/factors, squares, primes, and composites as they study the anatomy of the first 100 numbers. The winner is the first to claim three rows or columns. For 2 players or teams.

LAD4712 Grades 6+ \$56.95

NEW

Head Full of Numbers

Let this game go to your head! Place the three custom and the three standard dice in the fun shaker, roll them out and place them in the dice tray. Set the sand timer and have the score pad ready to record the number of unique, correct equations each player makes using the numbers rolled. Equations can use simple addition or subtraction or include multiplication and division for a more challenging game. Guide included.

LER8898 Each \$29.95

NEW

Matchmatics

Matchmatics develops mental calculation strategies and instant recall of multiplication, division, addition and subtraction facts. Matchmatics has 80 equation tiles and 40 tiles with an = sign. Each tile can be matched with other tiles where the answer to each equation is the same. Matchmatics caters for two levels, Beginners and Advanced. Matchmatics Beginners uses the four operations at a basic level where all the answers to the equations range from 1 to 10. Matchmatics Advanced also covers the four operations but at a more advanced level.

SMK180 Beginners \$58.95
 SMK190 Advanced \$58.95

NEW

Tens

Learn to add numbers to make 10, 20 & 30.

CRT12123 Each \$46.95

NEW

Dino Math Tracks

Designed to reinforce counting, place value, addition, and subtraction skills. Includes game board, 72 cards, 16 dinosaur figures, and number dice. Three levels of difficulty. 2-4 players.

LER0712 Grades 1-4 \$49.95

NEW

Monopoly

The classic family board game. Monopoly is the game of luck, chance, and wheeling and dealing. Buy and sell properties, corner parts of the board, build houses and hotels, and charge other players exorbitant rent and take them over when they can't afford it.

HU2824 Each \$50.95

NEW

Monopoly Junior

This game is specially designed for children ages 5 - 8. The aim is to make the most money from your ticket booth on the boardwalk. Children are given the chance to collect fees as other players pass - promoting math content.

HU6887 A Shorter Version \$29.20

NEW

Guess Who

The classic game of logic and reasoning. Two players each take turns to guess their opponents secret character, by asking questions which allow elimination of incorrect identities.

HU8000 Each \$46.95

NEW

Mastermind

Find the secret code by using logic, deduction and reasoning skills to win this game.

HU4422 Updated Version \$44.95

NEW

Yahtzee

Skill and chance are the elements of this classic dice game. Roll the dice 3 times to obtain the best scoring combination.

HU0284 Each \$26.90

Maths Games - Floor Games

Crocodile Hop - Floor Game

Floor mat game for early learners to work on numbers, shapes and colours. Floor mat is 'super-sized' at 250 x 75cm with a colourful river with rocks, logs and animals that will appeal to many students. Numbers and colour shapes are printed on the logs and rocks. Comes with 2 inflatable cubes, game markers and guide.

LER9544 Each \$79.95

NEW

Math Marks the Spot

Have your class begging for their math lesson with this oversized mat game! Simply shake, roll and race! Roll the big soft foam dice (number and operation) and race to find the answer on the mat. The mat has all the answers (sums and differences) to addition and subtraction problems that use numbers 1-6. Includes 3 dice and 28 cardboard game markers.

LER0383 Each \$64.95

NEW

Hippopotamus

4+ yrs

The early counting game! Hop and count your way across the river but don't get caught by the Hippopotamus! Teach counting from 1-20, simple addition, subtraction and number sequencing. Contains floor mat, inflatable dice and game guide. For 1 to 4 players.

JNL158 Each \$58.95

Snakes & Ladders Floor Game

Hand printed on durable cloth backed vinyl, this snakes and ladders game is perfect for the classroom. Instructions are printed on the bottom of the play mat for permanent reference. Includes mat, game pieces, and comes supplied in a storage tube. Play mat measures 68 x 72cm. Ages 3+ years

LF008 \$46.95

3+ yrs

Smart Toss Bean Bag Games

This fold-up bean bag board with storage pockets will not be boring for little ones as they can play 4 different games. Includes 12 (7.5cm) bean bags. The board measures approximately 61 x 48 x 30.5cm high.

LER1047 Each \$99.95

NEW

Playful Polygons

Venture into learning about two-dimensional geometric shapes! Sixteen different polygons - including six kinds of triangles; seven kinds of quadrilaterals; plus pentagons, hexagons, and octagons. Includes 45 dominoes and a hexagonal starting board. For 1 to 4 players.

LAD4631 Grades 4+ \$29.20

NEW

Solids Savvy

Players soon become knowledgeable about three-dimensional geometric shapes with this instructive domino game. The twelve solids include five kinds of prisms; three kinds of pyramids; plus spheres, hemispheres, cylinders, and cones shown in different orientations. Contains 45 dominoes and a hexagonal starting board. For 1 to 4 players.

LAD4630 Grades 4+ \$29.20

NEW

Shapes Up

Think carefully, but think fast! Players roll the die and use the specified tiles to create shapes and cover their boards with multi-coloured squares. Includes 4 game boards, 32 large triangles, 32 small triangles, 16 squares, 1 shape tray, 1 die and a timer. For 2 to 4 players.

EN3106 \$52.95

NEW

GeoGems Polygons

Uncover the gems in 2D shapes! Players develop fluency in naming and identifying the properties of six types of triangles; seven classes of quadrilaterals; plus pentagons, hexagons, and octagons. Two name card sets and four property card sets offer progressive levels of play. Covers much of 2D geometry content in state and national standards. For 2 to 4 players.

LAD4639 Grades 4+ \$56.95

NEW

GeoGems Solids

Mine the nuggets in 3D shapes! Players develop skill in naming and identifying the properties of five kinds of prisms; three kinds of pyramids; plus spheres, hemispheres, cylinders, and cones displayed in different orientations. Deals with much of the 3D geometry curriculum in state and national standards. Nets (patterns) for constructing most solids provide the added learning benefit of hands-on models. For 2 to 4 players.

A fun and engaging statistics game

Included

- 48 unique dragon cards
- 12 attribute cards
- 36 connectors
- 12 gold medal tokens
- 5 reference cards
- The Dragon Games rules

The Dragon Games

Using beautifully designed dragon cards, The Dragon Games appeals to all ages with four different easy-to-learn events: Formations, Matches, Connections and Battle. The events are fun to play and help practise mathematics skills. A great resource to teach the concept of statistics in a fun and engaging way.

STL001

\$61.95

Dragonistics Data Cards

Students will enjoy learning statistics with Dragonistics Cards. This pack has 240 Dragonistics Data Cards, each representing a unique dragon and containing multivariate data about that dragon. Explore statistical concepts and gain understanding by sorting and organising the cards. Create tables and graphs with the cards to draw meaningful conclusions. The data is designed to produce results similar to real datasets allowing students to practise using the statistical enquiry process without the time spent collecting data every time. The dataset is rich, allowing for multiple lessons. This pack contains 240 cards (44 x 66mm), which is enough for a whole class. It also contains a set of 56 Attributes Cards.

Maths Games - Dr Paul Swan

A fabulous range of board games.

Easy to use with specific math concepts and clear objectives. Frequently requested by teachers, Dr Paul Swan has developed a fun, bright, colourful range of games that can be used as lesson starters, lesson focal points or for the end of a lesson to review the key maths concepts experienced that day. This range of games is suited to Middle/Upper primary and designed to be played by 4 players, with some games requiring 1 player to be the auditor/checker. To monitor the progress of the games audit sheets have been provided and can be used for assessment purposes. Teacher notes outlining the rules and variations that can be used to differentiate the curriculum are also provided. A3 (420mm x 297mm) game boards are matt laminated to ensure durability. Each set of games is supplied in a PVC wallet complete with all required pieces including teachers notes and audit sheets.

NEW**P Swan Board Games**

A fun, bright colourful ranges of games which you can use as lesson starters, lesson focal points or at the end of a lesson to review key maths concepts. Game boards come Matt laminated to ensure durability. Includes a set of four games: Treasure Trove, Pit Stop, Space Race and Division Decision.

PSB18081 Pack A \$58.95

**NEW****P Swan Board Games**

Dr. Paul Swan has developed a fun, bright, colourful range of games that can be used as lesson starters, lesson focal points or for the end of a lesson to review the key maths concepts experienced that day. This range of games is suited to upper/middle primary and also designed to be played by 4 players. Games included are Stop the Clock, Coin Collector, Fraction Action and Get in Shape.

PSB18086 Pack B \$58.95

**NEW****Dr Paul Swan - Board Games**

Each game can be used separately, but the real strength of these games becomes apparent when all three games are used together. The placement of equivalent fractions, decimals and percentages on the boards match. Children will soon learn that one tenth, 0.1 and 10% are all related. Also they will learn that fractions, decimals and percentages may in some cases be used interchangeably. For 4-6 players, the set includes teacher notes. The following components are included with each game:

- High quality playing board
- Bag of plastic MAB units
- Plastic counters
- Teacher notes
- 50 plastic MAB longs
- 6 student grid cards
- Dice

PSB140 Fracto Game \$52.95
 PSB141 Decimo Game \$52.95
 PSB142 Percento Game \$52.95

Mabble – Crosswords with Numbers

A simple, easy to learn game that accesses the Number and Algebra strand by requiring players to come up with mathematical equations in a similar manner to a crossword puzzle. Includes board, 138 plastic tiles with numbers, operations and blank tiles, instructions and score pad. Supplied in a box. Developed by Dr. Catherine Attard.

Multispin & Spindiv Games Kit

PSB431K Set of 16 Games \$71.95

Kit of Multispin (PSB431) and Spindiv (PSB432). A total of 16 games.

~~\$77.90~~
NOW ONLY \$71.95
 SAVE \$5.95

Developed by Dr. Paul Swan

1. Spindiv 2-9 Division Games

Eight games based on dividing by 2 to 9. These games are designed for two or three players. Players take turns to flick the spinner and calculate the division fact. Each game is played along the style of bingo where players win if they can place three counters in a row, diagonal or column.

PSB432	Set of 8	\$38.95
--------	----------	---------

2. Multispin 2-9 Multiplication Games

Eight games based on the 2x to 9x table. These games are designed for two or three players. Players take turns to flick the spinner and calculate the table fact. Each game is played along the style of bingo where players win if they can place three counters in a row, diagonal or column. It allows to differentiate tables practice so that small groups focus on the table facts that they need to learn.

PSB431	Set of 8	\$38.95

Maths Games - Thinkfun

90cm
(dia)**ThinkFun - Balance Beans Game**

Set up the Red Beans according to the Challenge Card. Then carefully place the colourful Beans on the Seesaw to keep it from teetering. When you balance the Seesaw, you are actually balancing an equation! Features: Game Tray and Base, 9 Game Tokens (3 Single Beans, 3 Double Beans and 3 Triple Beans), 40 Challenges from Easy to Super Hard with Solutions, Instruction Manual and Game-Go Bag.

TN1140

Each

\$44.95

**ThinkFun - Solitaire Chess Game**

The rules are simple – first set up the pieces, following one of the 60 challenge cards, then capture and eliminate all but one piece, using only the moves allowed in traditional chess. You must capture a piece with every move, so this game is fast-paced and always exciting! Single player game.

TN3400

Each

\$40.95

**ThinkFun - Laser Maze Game**

Lights and mirrors may make it feel like magic, but it's really science and a good dose of brain power that's needed to direct the laser beam through this series of mind challenging mazes. Single player game.

TN1004

Each

\$70.95

**ThinkFun - Circuit Maze Game**

Your goal is to arrange the tokens to create a real circuit that lights up the different coloured Beacons. These clever circuit-building puzzles provide a boost of brainpower and a wonderful introduction to electrical engineering. Single player game.

TN1008

Each

\$87.95

**ThinkFun - Rush Hour Jr. Game**

The ice cream delivery truck is caught in traffic so must squeeze past jumbled cars and buses before it can deliver the ice cream. Ages: 6-8 years will put their problem solving skills to the test. Includes 4 levels of play and 40 mind challenge cards with solutions. A single player game.

TN5041

Each

\$38.95

**ThinkFun - Rush Hour Game**

Set up the traffic challenge and battle the gridlock as you slide the blocking vehicles out of your way to find a path for your red car to exit! Features four levels of difficulty, allowing players to progress at their own pace. With 40 all-new challenges, it's even more bumper-to-bumper fun for all ages! Ages: 8 to adult, single player game.

TN5000

Each

\$38.95

**NEW**

ThinkFun - ShapeOmetry Game

ShapeOmetry is a fun way to develop spatial, abstract, and quantitative reasoning skills. To solve the puzzle challenges, stack green pieces on top of blue pieces, or vice versa, to create identical shapes. Through hands-on play, students build key skills, strategies and mathematical understandings, such as part-to-whole relationships. Ages 6+ years.

TN5971

Each

\$46.95

Maths Games - Thinkfun

**NEW**

ThinkFun - Chocolate Fix Game

Using the clues, fill the tray with all nine chocolate pieces in their correct positions. Similar to Sudoku, you must examine all clues on the challenge card before making a move. Ages 8+ years, single player game.

TN1530

Each

\$40.95

**NEW**

ThinkFun - Shape by Shape Game

Shape By Shape is an advanced Tangram-style game, made more difficult because you also fill in the frame around each shape you make. With 60 challenges, Shape By Shape is a great exercise in conceptual thinking and spatial relationships. Box Size: 13.3 x 4.4 x 20.3cm

TN5941

Each

\$35.95

**NEW**

Thinkfun - Brainteaser Kit

Students build problem solving and critical thinking skills as they play through 8 Brainteaser Centres, using hints to help scaffold learning as-needed. Each challenge helps students to build visual, spatial and logic skills, make sense of problems and plan solution pathways, reason abstractly and quantitatively and communicate a thinking process. A learning guide and hint cards included is included in the kit.

TN1450

Each

\$40.95

**NEW**

ThinkFun - Math Dice Jr. Game

Roll the 12-sided Target Die to get your target number, then roll the five 6-sided Scoring Dice. Using addition and/or subtraction, combine the Scoring Dice to match the target number, moving one space on the Scoring Track for every Scoring Die used. The first player to reach the finish line wins! Ages 6+, for 2 or more players.

TN1515

Each

\$23.30

**NEW**

ThinkFun - Zingo! Time-Telling Game

Players learn to read the hour and minute hands on an analogue clock and make the translation to digital time. With two levels of play, it's perfect for familiarising young players with the clock and a great educational game for them to grow with. Ages 5+ years, a 2 to 6 player game.

Maths Games - 24® Game

24® Game

The object of 24® Game is to make 24. One may accomplish this goal by adding, subtracting, multiplying, and/or dividing numbers. All four numbers on the card must be used, but only once. There is at least one solution to every card. Each game has 3 challenge levels - easy (1 dot), medium (2 dot) and tough (3 dot).

NEW

24® Game Tournament

This Signature Edition Tournament Kit makes planning and implementing a 24® Challenge tournament easy! A 24® Game competition gets students excited about maths and are an excellent vehicle for propelling students into the world of mathematics.

Includes:

- 1 Single Digits 96-Card Game
- 1 Double Digits 96-Card Game
- 1 Variables 96-Card Game
- 8 Tournament Mats
- 1 "Gold" Medal
- 4 24® Game Lanyards
- Score Cards & Instructions
- Tournament Organisation/ Rules included.

DC10850 Kit \$198.95

DC10844

DC10666

NEW

24® Game Original Single Digit

The object of the game is to make 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. There is at least one solution to every card. There are three levels of difficulty. The numbers on the wheels are single digits.

DC10844 48 Card Deck \$26.90
 DC10666 96 Card Deck \$46.95

DC10846

DC10573

NEW

24® Game Double Digit

The object of the game is to make 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. There is at least one solution to every card. There are three levels of difficulty. The numbers on the wheels are single or double digits for an added difficulty.

DC10846 48 Card Deck \$26.90
 DC10573 96 Card Deck \$46.95

DC10836

DC10568

NEW

24® Game Multiply/Divide

The object of the game is to make 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. There is at least one solution to every card. There are three levels of difficulty. The numbers on the wheels are single digits.

DC10836 48 Card Deck \$26.90
 DC10568 96 Card Deck \$46.95

DC10829

DC10567

NEW

24® Game Add/Subtract

Try to make the target number on the activity card by using addition or subtraction only! The target number for 1 and 2 Dot Cards is always between 3 and 10. The target number for 3 Dot Cards is always 24. Use all numbers on the wheel, but use each only once.

DC10829 48 Card Deck \$26.90
 DC10567 96 Card Deck \$46.95

NEW

24® Game Factor / Multiples

Players work together to create wheels of numbers that share a common factor. If the numbers are touching, they have to have a common factor. Use any card with the same common factor, regardless of the colour in the corner. Can be used as an individual or group activity. Cards have a self-check feature (answer on back) to allow students to practice or review multiplication facts without supervision.

DC10569 96 Card Deck \$46.95

NEW

24® Game Variables

Find a variable number (any whole number from 1 to 9) which, when used with the other numbers on the card, can make 24 on both wheels.

DC10574 96 Card Deck \$46.95

NEW

24® Game Fractions / Decimal

Object of the game is to make 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. There is at least one solution to every card.

DC10576 96 Card Deck - Grades 5+ \$46.95

NEW

24® Game Algebra/Exponents

Make 24! For Exponents: To make 24 you can add, subtract, multiply or divide. You must use all four numbers on each card, but each number can only be used once. You can use only one exponential operation in your solution. For Algebra: Find the value for x and/or y (any whole number from 1 to 9) which, when used together with the other number card, makes 24. Add, subtract, multiply and divide.

DC10566 96 Card Deck - Grades 6+ \$46.95

NEW

24® Game Game Integers

Object of the game is to make positive 24. You can add, subtract, multiply and divide. Use all four numbers on a card, but use each number only once. Cards in this edition can also be solved for negative 24. Each card has at least one solution to make positive 24 and negative 24.

DC10575 96 Card Deck \$46.95

FREE freight on all orders over \$99. Conditions apply, see website for details.

Maths Games - Quizmo

Quizmo

Quizmo is a fun bingo-style classroom classic! The engaging games offer multiple levels of difficulty and the double-sided board games and calling cards provide extra value. Most 'calling cards' also double up as flash cards! With so many topics to choose from, and with the ability to play the games in pairs, small groups or complete classrooms, this series provides practise and reinforcement with some of the most challenging maths concepts for students!

**NEW****Quizmo Graphing Inequalities**

By playing Graphing Inequalities Quizmo® students will: 1. Solve an inequality through single-step and multi-step computation. 2. Graph one or more inequalities on a number line. 3. Solve and graph a compound or conjunction inequality. 4. Identify a number line graph that represents an inequality. Includes: 40 double-sided game boards, 140 double-sided calling cards, plastic markers and instruction guide.

LAD8244	Grades 5+	\$43.95
2 or more		\$32.95

**NEW****Quizmo Fractions & Decimals**

Build an understanding of the relationship between fractions and decimals. Students will understand the relationships between fractions and decimals, build computational skills in addition and subtraction of fractions and decimals. 36 double-sided playing cards, 2 levels of play, plastic bingo markers, etc. Includes 140 questions at 2 levels of difficulty.

LAD8242	Grades 3+	\$43.95
2 or more		\$32.95

**NEW****Quizmo Tell Time**

Provide kids with plenty of practice in reading, expressing and comparing analogue and digital times on the hour, half, quarter and at 5-minute intervals. The 36 double-sided game boards feature on Side 1, clocks with analogue faces and side 2 portrays digital notation for time telling. The 70 double-sided calling cards feature times on analogue clocks, in digital notation and in words.

LAD8237	Grades 1-5	\$43.95
2 or more		\$32.95

**NEW****Quizmo Place Value**

Students will understand the place value from ones to millions, build number sense skills in relation to place value. Examples are more, less, between, even and odd. And they will build listening skills. There are 70 questions covering place value from ones to hundreds and 70 questions covering place value from thousands to millions.

LAD8240	Grades 2-8	\$43.95
2 or more		\$32.95

**NEW****Quizmo Add and Subtract**

Students will develop and strengthen memory skills of sums and/or differences through $9 + 9$ and/or $18 - 9$, develop computational skills for addition and/or subtraction facts and develop and promote cooperative learning. No reading required. Includes 40 double-sided cards (80 game boards), 100 calling cards that double as flash cards and plastic markers.

LAD8239	Grades 1-5	\$43.95
2 or more		\$32.95

**NEW****Quizmo Multiply/Divide**

Students will develop and strengthen memory skills of products and/or quotients through 9×9 and/or $81 \div 9$, computational skills for multiplication and/or division facts and develop and promote cooperative learning.

LAD8243	Grades 3+	\$43.95
2 or more		\$32.95

NEW

Quizmo Math Vocabulary

Improve student computational skills with this bingo-style game promoting multiplication and division of positive and negative numbers. Includes 40 double-sided cards (80 game boards), 100 calling cards that double as flash cards and plastic markers.

LAD8238 Grades 2-8 \$43.95
2 or more \$32.95

NEW

Quizmo Geometry

The front (terms) side has the scrambled answers that match the definitions of the red side of the calling cards. The back (shapes and symbols) side has the scrambled answers that match the terms/definitions of the blue side of the calling cards. On the front side of the 70 two-sided (colour-coded) calling cards, players answer with geometry term definitions. On the reverse side players match geometry shapes and symbols.

LAD8241 Grades 4-8 \$43.95
2 or more \$32.95

NEW

Quizmo Integers Multiplication and Division

Improve student computational skills with this bingo-style game promoting multiplication and division of positive and negative numbers. Includes 36 double-sided game boards, 120 colour-coded calling cards, plastic markers, and instructional guide.

LAD8233 Grades 4+ \$43.95
2 or more \$32.95

NEW

Quizmo Numbers

Numbers Quizmo® is designed to give early learners a variety of enjoyable game experiences that will help them associate the numerals one through twenty with their names and values. This "bingo"-style game, with its easy-to-read game cards has three different levels of play. Contains 36 double-sided game boards, 30 calling cards that can double as flash cards, plastic markers and instructional guide.

TFC10375 Grades F-3 \$43.95
2 or more \$32.95

NEW

Quizmo BEE On Time

This challenging game develops skills in calculating beginning, ending and elapsed time. Includes 40 double-sided game boards at 4 levels of difficulty, providing practice in reading and comparing analogue and digital time notation and in words a variety of times of the day: on the hour, half hour, quarter hour, five minute and less than five minute intervals.

LAD8235 Grades 2-5 \$43.95
2 or more \$32.95

NEW

Quizmo Integers Addition and Subtraction

Students will develop an understanding of positive and negative numbers and computational skills involving positive and negative numbers. This valuable practice will help students reinforce and improve quick recall of facts. Includes 36 double-sided game boards, 120 colour-coded calling cards, plastic markers, and instructional guide.

LAD8234 Grades 4+ \$43.95
2 or more \$32.95

Clever Catch®

An encouraging way to engage students in mathematical problem solving. Played with two or more players - the Clever Catch® is a fun and encouraging way to engage students in mathematical problem solving. Students simply toss the Clever Catch® to each other and answer the problem underneath their left thumb. Each problem is clearly identified in its own space ensuring children will know which problem to answer. Games can be moderated by teacher or student using the provided answer sheets. Repair patch also included. All Clever Catch® balls are 61cm in diameter.

NEW

Clever Catch® Pack

DC10624K 4 pieces \$132.95

Pack consists of:

- 1 x Clever Catch® Division (DC10621)
- 1 x Clever Catch® Addition (IDC0624)
- 1 x Clever Catch® Subtraction (DC10625)
- 1 x Clever Catch® Multiplication (DC10669)

Catch the ball and solve the problem under your left thumb!

67 colour coded questions identifying factoring, simplifying and solving equations, exponents and roots.

DC10578 Grades 5-8 \$29.20

NEW

Clever Catch® - Pre Algebra 1

65 colour coded questions identifying integers, coordinate system, number sense and properties.

DC10581 Grades 5-8 \$29.20

NEW

Clever Catch® - Fraction, Decimal & Percentages

There are 122 facts on this ball! The Clever Catch® provides an excellent way for students to discover concepts and applications to learn fractions, decimals and percentages.

DC10597 Grades 3+ \$29.20

NEW

Clever Catch® - Geometry 1

The 73 colour coded questions include: coordinate system; planes, lines and angles; quadrilaterals, and triangles. Clever Catch® is played with at least two students who toss the ball to each other, answering the problem underneath or closest to their left thumb.

DC10667 Grades 5-8 \$29.20

Teach fraction, percentages and decimals.

Match™ games can be used individually in the classroom to reinforce concepts of fraction, percentages and decimals. In every game, each tile has a matching tile for example: 1/2 and 2/4 will make a match. There are also 20 bonus tiles in every box that can be used to vary the level of challenge. These games are an excellent resource to use within a differentiated classroom. Match™ Fractions can be mixed up with Match™ Percentage and Match™ Decimal. This is an excellent way to better understand the connection between fractions, percentage and decimal. If you mix up all three boxes, every tile will match with at least five other tiles.

NEW

Match™

Set consists of:

- 1 x Match™ Fractions (DC10594)
- 1 x Match™ Percentages (DC10595)
- 1 x Match™ Decimals (DC10596)

TFC16029	Set of 3	\$116.95
DC10594	Fractions - Grades 3+	\$46.95
DC10595	Percentages - Grades 3+	\$46.95
DC10596	Decimals - Grades 3+	\$46.95

SET OF 3
\$116⁹⁵
SAVE \$23.90

Teach fractions, shapes, number and operations.

Match™ games can be used individually in the classroom to reinforce a range of mathematical concepts from fractions, shapes, number and operations. In every game, each tile has a matching tile, and when some Match™ sets are combined the number of matching tiles increase as well as the levels of difficulty increase.

NEW

Match™ - Shapes and Colours

Includes 12 different shapes and colours. Each shape comes in four tiles. Each shape comes in three sizes, with the same colour and also a tile with a similar shaped item. Two, three or four tiles may be matched. 48 tiles.

DC10628 \$46.95

NEW

Match™ - Addition 1-30

4 + 4 and 2 + 6 makes a match with this game. Perfect beginning number range of 1-30. 60 tiles.

DC10633 \$58.95

NEW

Match™ - Subtraction 1-30

Contains answers from 1-30. 7 - 4 and 9 - 6 will make a match! When introducing this game an ideal number range is 1-10. This is a great way to gauge your students ability level and then increase the amount of tile answers accordingly. 60 tiles.

DC10630 \$58.95

NEW

Match™ - Shapes & Colours

Two tiles match, for instance 4 x 3, and 6 x 2 will make a match. Since the tiles contain only calculations and not answers, the abstraction level is raised, and students memory span is being exercised. Start with a few tiles at the introduction of the game and then increase the tiles as required. A number range of 2-20 is a great starting point. Can be mixed with Match™ Addition, Match™ Subtraction and Match™ Division. 80 tiles.

DC10631 \$187.95

NEW

Match™ - Division 1-10

Contains answers from 1-10. Two and two tiles match: for instance 6 ÷ 2 and 9 ÷ 3 will make a match. Allows differentiation by selecting appropriate tile range for students. Use tiles 1-5 to begin then extend to answers from 6-10. 80 tiles.

DC10632 \$46.95

NEW

Match™ - Numbers & Quantities

Match™ Numbers and Quantities consist of a tile range with numbers and quantities 1 to 12. Each number/ quantity comes in 4 tiles. The number itself, a calculation which gives the same answer, one tile with the same number of shapes and one picture tile with the same number of things. Two, three and four tiles match, so all tiles with the answer 5 can be matched. 48 tiles.

DC10634 \$58.95

FREE freight on all orders over \$99. Conditions apply, see website for details.

Maths Games - I Have, Who Has?

I Have, Who Has?

games are an engaging way to practice and reinforce math skills with the whole class or in small groups. These fast-paced card games are perfect for developing fluency with basic facts, for use as a quick assessment of students' understanding, as a centre activity, or for a whole-class review. Provides practice with fractions, the concept of lowest terms, addition and subtraction with fractions, and fraction/decimal equivalents.

1. Flashbot

4+ yrs

Flashbot® (the flash card robot) is a fun, new flash card flipper that helps children learn key reading and mathematical facts. Feed the flash card into the Flashbot's mouth and see the answer magically appear below. Comes with 20 demonstration flash cards. Other flash card sets sold separately.

JNL200 162 pieces \$46.95

2. Addition Flashcards

5+ yrs

This value pack of flash cards includes 3 sets of 54 cards for teaching addition. Covers addition to 10, to 20 and to 100. Visual arrays are provided to help children see the mathematical relationships. A perfect activity for independent or guided learning.

JNL204 162 pieces \$23.30

3. Subtraction Flashcards

5+ yrs

This value pack of flash cards includes 3 sets of 54 cards for teaching subtraction. Covers subtraction under 10, under 20 and under 100. Visual arrays are provided to help children see the mathematical relationships. A perfect activity for independent or guided learning.

JNL205 162 pieces \$23.30

4. Multiplication Flashcards

6+ yrs

This value pack of flash cards includes 3 sets of 54 cards for teaching multiplication. Covers multiplication by 2, 3, 4, 5 and 10; multiplication by 6, 7, 8, 9; and division 2-10. Visual arrays are provided to help children see the mathematical relationships. A perfect activity for independent or guided learning.

JNL206 162 pieces \$23.30

Reference Books - Dr Catherine Attard

Dr Catherine Attard

Catherine is an Associate Professor in primary mathematics education, a Western Sydney University Distinguished Teaching Fellow, and a Senior Researcher at the Centre for Educational Research. She is a multiple award-winning educator recognised nationally for transforming teaching and learning in primary mathematics at Western Sydney University for over 10 years. Catherine combines great dedication for teaching engaging mathematics with her own experiences as a primary classroom teacher and her research to motivate and inspire pre-service and qualified teachers. She presents workshops and keynotes nationally and internationally and is a past president of the Mathematical Association of New South Wales, past editor of the professional journal, *Australian Primary Mathematics Classroom*, and current Secretary of the Mathematics Education Research Group of Australasia.

Engaging Maths Books

These three books are developed to provide teachers with rich and open ended activities and lesson-ideas. CAT001 includes over 200 activities across each of the strands of the maths curriculum and is suitable for Years 3 to 6. CAT002 focuses on the Number & Algebra strands and includes resource lists, curriculum links, implementation ideas, reflection starters, ideas for differentiation and Blackline Masters for students from Foundation to Year 6. CAT005 provides teachers with some professional learning in relation to using iPads® and other tablets to enhance the teaching and learning of mathematics in the primary classroom.

CAT001	Higher Order Thinking	\$37.95
CAT002	Exploring Number	\$37.95
CAT005	iPad Activities for Teaching & Learning	\$37.95

Engaging Maths: Everyday Investigations

Engaging Maths: Everyday Investigations books are a combination of a book, a set of photo cards and a disc with these photos. It is a collection of rich, open-ended tasks based on more than 30 photographs of items that children see in their day-to-day lives. The photographs are used as a stimulus for a wide range of engaging mathematics that highlight the usefulness of mathematics and makes links between 'classroom' maths and real-life maths. Available for Early Years and Grades 3 to 6.

CAT003	Early Years	\$64.95
CAT004	Grades 3 to 6	\$64.95

Includes more than 30 photo cards

Mabble – Crosswords with Numbers

Get your students hooked on maths with Mabble. A simple, easy to learn game that accesses the Number and Algebra strand by requiring players to come up with mathematical equations in a similar manner to a crossword puzzle. Mabble provides an excellent opportunity to work on the four proficiencies of problem solving, understanding, fluency and reasoning from the Australian Curriculum: Mathematics. This game is suitable for children and adults of all ages. Includes board, 138 plastic tiles with numbers, operations and blank tiles, instructions and score pad. Supplied in a box.

CAT101	Set of 8	\$265.95
CAT101-1	Each	\$37.95

Floor Mabble – Crosswords with Numbers

Maximise the fun with this floor-sized version of the Mabble game! The floor mat measures a large 1 metre square, and comes with 140 number and operation tiles (each measuring 6cm square).

CAT102		\$122.95
--------	--	----------

Dr Paul Swan

Dr Paul Swan is an award-winning author who has had a long association with Modern Teaching Aids. He spends his time, speaking at conferences, working with teachers and school leaders and writing new books, games and materials to support teachers across Australia. Recently he was made a life member of the Mathematical Association of Western Australia and he has been awarded an Honorary Fellowship of the Australian Council for Educational Leaders.

Check the Clues Book Pack - Dr Paul Swan**NEW**

PSBKIT10 Kit of 3 Books \$178.95

The Check the Clues A,B,C,D & E books by Dr Paul Swan and David Dunstan offer schools a whole school approach to word problem solving using a co-operative group approach. The books have been designed to improve the students' comprehension of mathematics word problems, and to build mathematical understanding through problem solving and reasoning. The Check the Clues series uses Polya's four step problem solving approach: understand the problem, devise a plan, carry out the plan and look back. Teachers are provided with the Australian Curriculum links, language (vocabulary), notes, answers and references.

1. Attribute Blocks

Reasoning is one of the four proficiency strands in the Australian Curriculum. Written to help teachers use attribute blocks to help children learn to reason and apply logic, this book will allow you to gain the most from this resource. Working with Attribute Blocks will expose students to inductive reasoning and the series of deductive reasoning, where a series of logical arguments are strung together. The development of mathematical language 'and', 'or', 'not', 'if'... then may all be developed when using Attribute Blocks.

PSB841 Grades F-6 \$38.95

2. Make it Count

This book is based around a counting trajectory that begins with the pre-requisites for counting right through to mental strategies for adding single-digit numbers. The activities are coded according to difficulty. The book includes a set of colour A3 games that may be photocopied by teachers and used with their classes. 88 pages.

PSB827 Each \$38.95

3. Geoboard Gems

In this publication from the ever popular Paul Swan, Geoboards are used to explore triangle types, quadrilaterals and other polygons. Other activities cover perimeter, area, Pick's Rule and even algebra. Each activity is linked to content descriptions from the Australian Curriculum. There are dot-paper recording sheets for 9, 16 and 25 pin Geoboards (and circular ones, too) for photocopying, as well as colourful task cards. 48 pages.

RIC6122

RIC6123

1. Money Matters

Dr Paul Swan once again delivers comprehensive quality classroom activities in this detailed book about Money! Full of practical ideas and resources for introducing and developing money concepts to students, this book integrates the mathematical ideas associated with money and societal issues. This fantastic teacher resource includes comprehensive teachers notes, games and activities, BLM's, checklists and more. 122 pages.

RIC6011 122 pages \$50.95

2. Time Matters

Paul Swan and Linda Marshall have combined to create Time Matters. The authors outline how children may be taught time concepts, ranging from telling the time to the language of time and more complex ideas. Book 1 covers all the time-related content from the Australian Curriculum from Foundation to Year 3, and much more! Book 2 Develops deeper understandings of time concepts. Teachers are given the background knowledge and support required to help students understand complex time concepts such as time zones, elapsed time, time lines and the role of time in everyday life such as the reading and interpretation of timetables. Book 2 not only applies the concepts developed in the previous book, but also covers the middle and upper primary time-related content in the Australian Curriculum, and then extends these ideas.

Toying With Tangrams

The Tangram is a puzzle made up of 7 pieces: triangles, squares and a parallelogram. Teach mathematical concepts such as shape, symmetry, similarity, congruence, perimeter, area and fractions with Tangrams using this wonderful book by Dr Paul Swan. 64 pages.

PSB329 64 pages \$31.95

NEW

Mathematical Games with School Friendly Cards

Designed to help young children learn key early number concepts while playing simple card games, this book will give you plenty of ideas to use School Friendly Playing Cards for a wide range of mathematical activities. Playing cards is a popular pastime for children and adults alike. Young children enjoy playing card games but sometimes are confused by all of the extraneous information depicted on a standard playing card. They sometimes have difficulty remembering the difference between clubs and spades – if they can even remember their names! They may not remember whether a Jack is of higher value than a Queen or King. Are Aces high (11) or (1)? When using cards to develop fluency in mathematics, these issues can prove a distraction and irritation to children, hence the development of these simpler, child-friendly cards.

PSB528 Each \$42.95

Maths Terms and Tables

More than a dictionary of mathematical terms this reference includes diagrams and examples where possible to illustrate the concepts being discussed. Half of this book is dedicated to definitions of mathematical terms that teachers, parents and students will come across in the Primary and Lower Secondary School. The second half is filled with simple to use tables where mathematical ideas are grouped together. 116 pages.

Australian Curriculum Mathematics - Number and Algebra

Australian Curriculum Mathematics resource books – 'Number and Algebra' (Foundation to Year 6) is a series of seven books specifically written to support the new national curriculum. These books are a compilation of resources designed to assist teachers in implementing the Number and Algebra strand of Australian Curriculum Mathematics. All sub-strands are included – Number and Place Value, Fractions and Decimals, Money and Financial Mathematics, and Patterns and Algebra – as well as the content descriptions of each sub-strand and the four proficiency strands. The mathematical content has been edited by a noted mathematics consultant Richard Korbosky.

Problem Solving in Mathematics

This wonderful series of books is aimed at developing problem-solving and mathematical thinking in primary students. Specifically design to extend and challenge the higher ability students the worksheets cover topics such as: spatial visualisation and logical reasoning, establishing criteria, interpreting, analysing, organising and using information, strategic thinking, using patterns, identifying and using number understandings and reasonings and proportional reasoning.

BrainSnack

Stimulate young minds. Suitable for any primary classroom. Stimulate and challenge young minds while introducing and developing a wide range of problem solving and logic strategies. BrainSnack® is a complete problem solving resource for your classroom providing 300 levelled problem solving logic cards. The cards are easy to use and understand. They are graded by a star system, one star being easiest and three stars being the most difficult. When the problem solving cards are presented to the students they are required to draw on a range of mathematical understandings and processes. Problems are carefully graded and grouped into specific learning areas.

Australian Curriculum Mathematics - Money

Australian Curriculum Money is a three-book series that supports the teaching and learning of all areas related to money. Money is a very important aspect of students' lives and therefore is an area that needs to be covered well. Written using the Australian national curriculum, Australian Curriculum Money will provide teachers with a comprehensive approach to teaching and helping their students understand money. Through the proficiency strands of Understanding, Fluency, Problem-solving and Reasoning, teachers will be able to immerse students in this area. These resource books contain a large variety of activities including teachers notes, warm-up activity ideas/hands-on tasks, blackline master worksheets, assessment tasks, and a checklist and answers at the end of each year level.

Got Maths! Book Pack – Grades 3 to 6

Learning maths doesn't have to be a drag. The Got Maths! series for grades 3-6 provides students with quick and concise explanations for those pesky little maths skills that cause students trouble. Visual representations assist in the understanding of difficult maths concepts. From geometry to algebra, students will gain skills for maths success. Each book has 32 pages and measures 19 x 25cm. Suitable for grades 3 to 6.

Early Years Big Books

Young students have a natural love for stories and learning. These Big Books build on this enthusiasm to help you introduce key mathematical concepts. These engaging, large format storybooks (43 x 33cm) develop and reinforce mathematical language and understanding by stimulating discussion on specific concepts from the Australian Curriculum: Mathematics (Foundation - Year 2). The beautifully illustrated Big Books utilise rhyme and repetition to aid understanding. Each series (related to a year) consists of 12 books and is supported by a Big Book Tunes CD with 12 songs - one song for every title in that series.

Gratnells
provides high
quality storage
solutions, loved
by teachers

NEW Gratnells

Customise your own STORAGE!

It's really easy.

1. Start with a choice of Tall (GT70330) or Medium (GT70331). Three Column Frame.
2. Choose Shallow, Deep, Extra Deep or Jumbo Trays in our range of colours. Every tray will need a pair of Runners (GT70332).
3. Choose Shelf with Clips (GT70333) or Lid (GT70303) requirements to suit.

Note: Each column of the Tall Frame (GT70330) can hold 17 Shallow Trays.
Each column of the Medium Frame (GT70331) can hold 13 Shallow Trays.

$$2 \times A = 1 \times B$$

$$1 \times A + 1 \times B = 1 \times C$$

$$4 \times A = 1 \times D$$

A= Shallow Tray
B= Deep Tray
C= Extra Deep Tray
D= Jumbo Tray

GrateNells Adjustable Trolleys

GrateNells adjustable trolleys are the fully flexible answer for moving equipment around an education environment. Simply slide any of the four heights of trays into the trolleys and you are ready to go safely and efficiently.

NEW

Three Column Frames

Our storage frames can hold Shallow, Deep, Extra Deep and Jumbo Trays in any combination that suits your school. Our tray sizes are interchangeable between the frames so you can easily move equipment around the school as needed. These frames come complete with tops, feet and back diagonal bars for added strength. Does not include trays, runners or shelves with clips.

GT70331	GrateNells Adj Frame Med - 105.5 x 42 x 150cm	\$795.95
GT70330	GrateNells Adj Frame Tall - 105.5 x 42 x 185cm	\$818.95

Available in two heights

GratStack® Super safe, super tough. Child and teacher-friendly, safe, sturdy and easy to use, Gratnells click-together GratStack® gives you flexible storage.

NEW 

Customise your own STORAGE!

It's really easy.

1. Identify what your storage needs are. You can expand and customise your storage horizontally or vertically.
2. There are 2 different shelves - Shallow Tray Shelf (TFC70323) and Deep Tray Shelf (TFC70325). Both shelves contain a tray, stackers and a base. Simply stack each shelf to create your tray combination requirements.
3. To complete your custom storage, pick a Top (TFC70310) per column and either Plugs (TFC70313) or Castors (TFC70314)

FREE freight on all orders over \$99. Conditions apply, see website for details.

LEGO® Education WeDo 2.0

Make science come to life

Designing
Investigating
Modeling
Coding

LEGO® Education WeDo 2.0

With real-world science projects, including engineering, technology and coding, students experience how science comes to life. WeDo 2.0 builds students' confidence to ask questions, define problems and design their own solutions, by putting discovery in their hands and their minds.

...enable teaching across science topics

Life Science

Investigate life cycles, habitats, traits, environmental changes and more.

Engineering

Design projects involving constraints, prototype and test models. Example project: Create a solution to assist with the rescue of animals in dangerous situations.

Physical Science

Explore forces and motion, cause and effect, and more. Example project: Investigate the factors that make a car go faster, to help predict future motion.

Earth and Space Science

Discover the various climates, research of weather patterns and examine weather-related hazards. Example project: Design an automatic LEGO® floodgate to control the water level of a stream according to various precipitation patterns.

Build students' confidence to ask questions and solve problems

WeDo 2.0 Curriculum Solution

LEG45300 **\$307.95**   

This set is based upon the latest science standards and was created to enhance students' curiosity and science skills. The set includes a Smarhub, a Medium Motor, Motion Sensor a Tilt Sensor and enough building elements for two students. The software provides an easy-to-use programming environment and includes the WeDo 2.0 Curriculum Pack, which covers life, physical, earth and space sciences, as well as engineering.

Solution includes

- WeDo 2.0 Core Set 
- WeDo 2.0 Software & Curriculum Pack    
- WeDo 2.0 eLearning 
- WeDo 2.0 Curriculum, including Life Science, Engineering, Physical Sciences, Earth and Space Science and new Computational Thinking projects

A captivating science teaching solution

What's included in the Curriculum Solution?

Core Set

Containing the LEGO bricks and technology elements needed to make elementary students motivated and make science projects come to life.

Curriculum content

Real life projects based on national standards to develop students practices within science, including engineering, technology and computing.*

Teaching software

Intuitive software including integrated curriculum content, easy drag and drop programming and teachers guide.*

Assessment tools

Project integrated assessment grids and rubrics for both teacher and student led assessment.*

eLearning program

Five eLearning modules to give full teaching support from implementation to activation.*

Technical support

Ongoing telephone and online support to help you with any questions.

Community

Access to the LEGO Education community of teachers for additional ideas, tips and new connections.

What can I add on?

Complementary products

Rechargeable power add-on solution for easy battery management is available to supplement the WeDo 2.0 solution.

Training and professional development

Check our Professional Learning calendar on teaching.com.au to find training near you.

Replacement Packs

The ideal way to replace key LEGO elements for the WeDo 2.0 sets.

*Available for free download from LEGOeducation.com.au/downloads

Everything educators need to achieve their teaching goals

LEGO® MINDSTORMS® Education EV3 Curriculum Solution

LEG45544-1 **\$725.95**

This set contains everything you need to start teaching STEM and computer science using the exciting LEGO® MINDSTORMS® concept. It offers full teacher support, including STEM and computing teaching materials, and a comprehensive eLearning program.

The system includes the Intelligent EV3 Brick, a compact and powerful programmable computer that makes it possible to control motors and collect sensor feedback using the intuitive icon-based programming and data logging software that is delivered with the set.

The set is delivered in a sturdy storage bin with a sorting tray, three Servo Motors, five Sensors (Gyro, Ultrasonic, Colour and 2x Touch), a Rechargeable Battery, connecting cables and Building Instructions. Battery charger (LEG8887) is required and sold separately.

Solution includes

- LEGO MINDSTORMS Education EV3 Core Set 1
- EV3 Lab and EV3 Programming Download www
- EV3 Design Engineering Projects Curriculum 15 45-180 www
- EV3 Coding Activities 8 80-135 www
- EV3 eLearning www
- EV3 Maker Activities 6 90-120 www

How to get ahead in STEM learning

The LEGO MINDSTORMS Education EV3 motivates students to design, build and program robots using motors, sensors, gears, wheels, axles and other technical components, to gain a better understanding of how technology works in real-world applications.

The solution enables students to understand and interpret two-dimensional drawings to create three-dimensional models; build, test, troubleshoot and revise designs; apply maths and science concepts on real-life applications; and master programming and data logging functions.

Teach STEM with a Mission to Mars using LEGO® MINDSTORMS® Education EV3 Space Challenges

EV3 Space Challenge Curriculum

Included

This curriculum conforms to national curriculum standards and contains challenge and learning missions based around the theme of space. Three research projects, co-developed with space experts, providing rich opportunities for students to explore and create innovative solutions to current space exploration topics. The EV3 Space Challenge Set* includes three learning mats, a challenge mat, dual lock tape and all of the LEGO® elements required to build the challenge models*. The accompanying digital content provides student-ready materials, teacher notes and Building Instructions. *Not included and sold separately.

The EV3 Space Challenge Curriculum is only available for desktops with EV3 Lab. It requires the LEG45570 EV3 Space Challenge Set.

Dash & Dot | K-Year 5

exclusive

Dash & Dot are exciting, hands-on learning tools for students from K to Year 5. Dash & Dot don't require assembly, and grow with your students from beginners through to meaningful curricular and educational programs. Encourage students to continue building critical thinking, creativity, communication and collaboration skills for tomorrow's job market. The robots are Bluetooth enabled, no WiFi needed! Both robots charge in an hour!

Programming Language/Software: Path, Go, Blockly, Wonder and Xylo - all free to download, Apple Swift Playground, Scratch

Compatibility: iOS 8.1+, Android 4.4.2+, Kindle 5.1.2+ - See full list on our website

Age Group
K-Year 5

Why Dash & Dot?

- Dash & Dot instantly appeal to every student with their cute personality. You will have trouble getting students to leave the classroom!
- Dash charges super quick, giving you more play time and less down time
- Dash & Dot are designed to introduce coding to students, with easy-to-use block based programming
- Dash & Dot improve team work, problem solving skills and patience, will covering cross-curricular topics with hundreds of projects
- In-depth curriculum available (challenge cards, 36+ free lessons and premium lessons included with the teacher guide and online subscription)
- Participate in the annual global Wonder League to compete against other students

SAVE \$395.45

Dash & Dot Educational Robots

Dash & Dot are robots with a personality! Program Dash to do anything from reacting to the sound of a clap to performing a victory dance to detecting and avoiding obstacles. Dash can detect objects in front and behind, can record custom sounds, moves in precise increments, and can move in angles. Push the boundaries of what is possible with Dot, a small but mighty robot. Dot is responsive and can interact with Dash with it's sophisticated technology. He expresses emotions with lights and sounds and detects when it's moved.

Dash & Dot Learn To Code Curriculum Resources

Need inspiration for activities with Dash & Dot for small group work? These Learn to Code Curriculum Resources are the perfect starting point! The Challenge Cards (DW011) includes 72 cards with challenges, organised into six coding levels A through F. Each level covers two or three of the six fundamental coding concepts: sequences, loops, events, conditionals, functions, and variables.

The Challenge Cards & Curriculum Guide (DW021) includes, beside the Challenge cards, a spiral bound curriculum guide, to help you walk through all the implementation suggestions, recommendations and best practises. Also included is a one-year subscription to the Wonder Workshop Code to Learn Lesson Library. Please note that the curriculum guide is in line with the American Code.org's Computer Science Fundamental Series.

Cue Robot | Year 5–8

Meet Cue! Cue is Wonder Workshop's most advanced robot to date. Cue is a witty robot with attitude that is powered by new breakthrough Emotive AI systems. Cue delivers a level of personality, intelligence and interactive communication unlike any other robot on the market. Give Cue more advanced capabilities by building powerful programs at the skill level that's right for you. Create dynamic graphical programs to make Cue react to sensor input with lifelike behaviours. With Control mode, you can directly pilot Cue or engage any of three Emotive AI modes as you seek, avoid, and explore. Cue is the perfect classroom companion for more complex and advanced coding.

Programming Language/Software: Cue App (based on MakeCode from Microsoft), code with Block or JavaScript, Apple Swift Playground
Compatibility: a Bluetooth Smart/4/LE-enabled device is required. For full list of iOS, Android and Kindle supported devices, see our website

Age Group
Year 5–8

Why Cue Robot?

- Designed for increased coding capabilities (graduating students from blocks to text based programming)
- Cue has its own personality, intelligence and interactive communication
- New features include breakthrough Emotive AI systems, additional memory, improved sensors, proximity sensors, encoders, gyro, accelerometer and microphones
- Next level coding and programming without the need to build or assemble the robot
- New set of accessories designed for high schools

Programmable LED & Buttons

Customise your experience with Cue

3 Microphones

Real-time voice triangulation

2 Powered Wheels

Quick navigation and distance tracking on nearly any surface

Real-time Bluetooth

Fast, easy connections to Apple iOS, Android and Kindle mobile devices

Proximity Sensors

Detects objects left, right and behind

SET OF 12

NEW

Student Cash Drawers

These four Student Cash Drawers and Shopping Cards can be used for a range of activities that help children learn about money. The cash drawers are made from durable ABS plastic and have the coin denomination molded into the compartments. The double-sided write and wipe cards – one with a price, the other side blank – make them suitable for use with children of all ages.

Each set includes

- 4 Student Cash Drawers
- 120 Coins & 100 Notes (235 x 205 x 30mm)
- 40 Cards (100 x 57mm)
- 12 Black plastic card stands
- 1 Spinner (110 x 110mm)
- Teacher's Guide with BLMs

KNB030 Student Cash Drawer with Coins & Notes \$93.95
 KNB040 Student Cash Drawer Only - Set of 4 \$46.95

Maths Equipment & Resources 2018

Genie joins MTA

We are delighted to welcome Genie Educational into the MTA family. All of your favourite Genie brands and resources are now available from MTA.

Widest Range – over 3,500 maths resources

Best Brands – all your favourite Genie, TFC, Teachables resources now at MTA

MTA Created – over 2000 resources have been developed by MTA and Genie with the input of local educators

Curriculum Relevant – all of our maths resources support local curriculum outcomes

FREE freight on all orders over \$99.
Conditions apply, see website for details.
