## Wooden Outdoor Bucket Scales

Bring maths outdoors! Practise with measurement, weights and concepts such as heavier and lighter with this oversized outdoor scale. The scale is made of sustainable eucalyptus wood, ideal for outdoor use. The arms measure 180 wide, the height of the scale is 70cm and the feet are 80 x 80cm. The kit includes 2 galvanised buckets with 5L capacity. TEB6264 is supplied without buckets.

TEB6264	Without buckets	\$287.95
TEB6264K	With buckets	\$310.95

**Save \$20.90**

Spark students' curiosity and bring nature to the maths class!

Numbers on one side  
dots on the reverse

Great for sensory play

teachables

## Squishy Number Fish

Watch the colourful gel beads inside the fish move around when you squeeze the little fish. The number fish are great for counting activities and sensory play. The set consists of 10 fish with the numbers 1 to 10 on one side and dots on the reverse. Supplied in a jar.

TEB6251	Set of 10	\$37.95
---------	-----------	---------

With interchangeable  
clock faces, to count  
down any time  
between 5 minutes  
and 24 hours

## Time Timer MAX

The Time Timer MAX is not only extra large (43cm!), it also includes eight timers, with customisable durations and interchangeable timer faces, to count down as low as 5 minutes or as high as 24 hours. Includes a dry erase face to allow for maximum flexibility and customisation. Silent, moderate or loud alerts to suit any environment and needs. Includes coloured markers that click onto the face, to divide the remaining time into smaller sections.

TT0072	\$229.95

Write & wipe surface

## MTA Maths Topic Kits

MTA's Maths Topic Kits have been designed to make life easier for the busy teacher, ensuring that a varied and appropriate set of resources is always on hand. Each kit includes popular maths resources, which can be used to cover a number of activities. \*All kits are supplied in heavy-duty 60-litre containers. Components in each kit may vary slightly subject to availability.

### Maths Light Box Sorting Kit & A2 Light Panel

This kit (MATH22) includes the same resources as MATH23, with an additional ultra bright A2 light panel.

MATH22

\$977.95

#### Maths Light Box Sorting Kit

This kit includes everything to incorporate your light box for early maths concepts like sorting, patterning, 3D shapes, volume, area, counting and much more. The set is packed in 2 large storage containers.

- 1x Transparent Sorting Mats - Set of 6
- 1x Transparent Counting Gems - Set of 200
- 1x Transparent Counting Jewels - Set of 200
- 1x Transparent Stackable Counters - Set of 600
- 1x Transparent Round Counters 25mm - Set of 1000
- 1x Transparent Square Counters 25mm - Set of 1000
- 1x Attribute Shape Sorting Set - Set of 144
- 1x Large Translucent Geometric Shapes - 12pc
- 1x Polydron Translucent Shapes Set - 140pc
- 1x Power Polygons - 450pc
- 1x Translucent Attribute Blocks - 96pc
- 1x Translucent Pattern Blocks - 360pc
- 2x Heavy Duty Container - 80L

MATH23

\$747.95

A2 light panel

Ideal for use in combination with a Light Panel

#### Early Numeracy Kit

This kit includes a wide range of resources to let young students practise with early numeracy concepts. The hands-on resources will encourage children to actively engage during maths lessons. Packed in storage container. Contents may vary. Not all kit components are shown.

- 1 x Two-colour Counters (200pc)
- 1 x 1000 Solid Counters
- 1 x 1000 Translucent Counters
- 1 x 10 Decks of Playing Cards
- 1 x Mega Dice Case (164pc)
- 1 x Large 6-12, and 20-sided Dice
- 1 x Dominoes (6x6, 9x9 and 12x12)
- 1 x Dice in Dice (72pc)
- 30 x Student Number Lines
- 10 x Number Line 0-100
- 30 x Ten Frames Whiteboards
- 30 x Blank Whiteboards
- 2000 x Unifix Cubes
- 30 x Number Charts 0-120
- 5 x Pattern Block Sets
- 1 x Double Six Dominoes in Jar (168pc)
- 18 x Student Sand Timers

## Maths Kits

### Lower Primary Maths Kit

- 1 x Student Number Line 0-30 - Set of 30
- 4 x Sorting Bowls - Set of 6
- 1x Floor Number Line (-20-20)
- 1 x Clock Flip Charts - Set of 10
- 1 x Paddle Pop Sticks - Coloured - Set of 1000
- 1 x Teacher Learning Clock
- 1 x Giant Foam Dice - Dots - Set of 2
- 1 x Giant Foam Dice - Numbers - Set of 2
- 1 x Teddy Bear Counters (96pc)
- 4 x Unifix Cubes - Pack of 1000
- 1 x Balance Set Simple Scales - 1 Litre
- 1 x Counting Links in Jar - Set of 500
- 1 x Double Six Dominoes in Jar - Set of 168
- 1 x Transport Counters - Set of 72
- 1 x Teacher Sand Timers - Set of 9
- 1 x Large Geometric Solids - Set of 12
- 1 x Translucent Counters - Set of 1000
- 1 x Clock Dials - 12H - Set of 10
- 2 x Coloured Wooden Counting Cubes - Pack of 100
- 1 x Playing Card Box - 10 Decks in 10 Colours
- 1 x Stop Watch
- 1 x Geometric Pattern Blocks - Set of 250
- 3 x Spinner Holders - Set of 10
- 1 x Spinner Inserts Assorted Designs - Set of 38
- 1 x Bank Notes in Wallet - Set of 100
- 3 x Plastic Coins - Australian Currency - Set of 340
- 3 x Heavy Duty Container - 80L

Contents may vary. Not all items are displayed.

## Interview Kits

Don't waste your precious time searching for "stuff" trying to complete your early years numeracy interview kit. We've done it for you! That's right! The complete kit! MTA has collected all the materials you need for the Early Years Numeracy Interview Kit. We have then sorted them into the relevant sections and individually containerised them. All of the sections are then housed in a large storage container. Alternatively, each of the sections are also available individually.

### Hands on Maths Trays Complete Set

Children sort, count, pattern, graph and compare with skill-building trays that are perfect for use with any type of maths counters! Children just place the counters right into the trays to explore concepts hands on and easily keep the pieces in place as they work. Complete set includes all 5 sturdy plastic trays shown; each is a big 27 x 36cm. Counters are sold separately.

LS745

Set of 5 \$160.95

Includes 15  
activity cards!

### Geo Shape Sorting & Sequencing Set & Work Cards

This set is great for counting and sequencing. It helps to learn about and identify geometric shapes, colours and numbers, and to practise motor and coordination skills. Included: 60 plastic shape pieces in 5 colours and 6 shapes, plus 15 double-sided work cards.

JYN031

Set of 60 Shapes & 15 Activity Cards \$65.95

**ROLF**

### Circle Fun – Rolf Essentials

Students can discover which different shapes can be used to fill in a circle. In addition to discriminating between colours and shapes, children also gain an understanding of proportions, mirror images and mathematical concepts such as half, quarter and an eighth. Students can fill in the circles independently or use the example cards. The box contains 180 shapes in 6 different colours, 6 double-sided example cards with 3 levels of difficulty and 2 wooden shape boards.

### Johnstone Number Line

One hundred blue and white discs, in alternate groups of 10, on a wire frame. Can be grouped, counted etc. to carry out the four processes.

TFC10480 \$17.95  
10 or more Each \$14.25

## Rekenrek

The rekenrek supports the natural development of number sense. Although it looks like a counting frame, it is used in a different way. It is more similar to ten frames, where students learn to count in 2's, 5's and 10's. It consists of 2 rows of 10 beads, each row broken up in 2 sets of 5 beads. Using 5 and 10 as anchors for counting, adding and subtracting is clearly more effective than counting by ones and will teach them to develop addition and subtraction strategies such as doubles, plus or minus one, making tens, and compensation.

### Rekenrek Class Pack

This kit includes 1 large teacher sized Rekenrek – number rack (TFC17202), and 10 students sized number racks (TFC10635).

### Trace & Write Number Stones

Take a hands-on approach using this set of ten tactile number stones (0-9). These attractive stones offer a tactile and visual way for children to practise number formation and build confidence. The stones are made from a durable mix and are suitable for use indoors and outside. Each stone is engraved to provide important sensory feedback and measures between 12 and 13.5cm.

YD1032

Set of 10 \$114.95

### Number Pebbles

Make mathematics multi-sensory. Cast from a unique stone mix and measuring approximately 3.8cm, each tactile pebble is engraved and hand painted with a number. The set contains both number and operation pebbles, creating a playful way to introduce children to sums. Includes two of numbers 0-20, +, -, = and one each of x and ÷ (50 pebbles).

## F.U.N. Empty number line

F.U.N.™ stands for Fluency and Understanding Numbers. The F.U.N.™ Empty Number Line represents the number system while, at the same time, is a manipulative where numbers can be moved, matched and plotted, up and down the entire number line. The grade specific F.U.N. cards make this number line suitable for every grade level.

### F.U.N.™ Empty Number Line System

The possibilities for using the number line to identify equivalent numbers are endless, including whole numbers, fractions, decimals and negative numbers. Contents include two 15 x 101.5cm double-sided write-on/wipe off number line sections, 6 suction cups, 26 binder clips, 150 blue links, 25 blank write-on/wipe-off cards and user guide. A set of 50 blank write on/wipe off cards (LAD7996) can be purchased separately. Each card measures 7.6 x 10cm. Grade level cards are sold separately.

LAD7992

Each System \$149.95

### F.U.N.™ Empty Number Line Grades F-1

This set of 240 cards for grades F-1 allows you to add cards to your F.U.N.™ Empty Number Line System. Demonstrates that the magnitude of the numbers increases as a student is 'counting up' and decreases when 'counting down'. Additionally, decomposing numbers into pairs can be displayed, and comparing one digit or two digit numbers can be modeled. The number line can be used to quickly identify '10 more' or '10 less' as well as many other concepts. Cards available separately (LAD7982) or purchase the cards and Number Line System together (LAD7982K).

## Hundred Boards

The large size makes it ideal for classroom demonstrations

The most versatile number board available!

### Turn & Learn 0-120 Number Board

The Turn & Learn 0 to 120 Number Board provides teachers with a resource to encourage children to look for patterns in number sequences and use these patterns to make predictions about maths problems. The board measures 54 x 64cm.

KNB2005

\$344.95

### Benefits

- You can start an activity at zero or one.
- Numbers go beyond 100 to 120.
- You can highlight or hide patterns.
- Cubes can be turned to blank to customise the board, for example, display only the numbers from 1 to 50.
- The board can be turned upside down so that smaller numbers are at the bottom.
- White dots on the reverse side can be used for substituting and showing part or whole relationships of numbers.
- Dots can also be used to show arrays, explore coordinates, give directions and present data as a graph.
- The cubes can easily be reset and numbers cannot get lost.

## Multilink System

Multilink Cubes are an adaptable and versatile resource every classroom needs! Linking cubes are a great resource to teach mathematical concepts while having fun. Children can understand the basic rules of maths whilst playing. Starting from the age of preschool the little cubes offer ideal means for teaching and learning: counting, calculating, combining and constructing, distinguishing and defining colours and shapes – your students will learn all this while playing!

### Multilink Cubes

Whether it be sorting and patterning or finding relationships between area and volume, the Multilink system is perfect for it. Multilink cubes are an extremely versatile maths resource for a wide variety of key maths concepts. Your students will love learning through tactile and visual means. The sets are supplied in 10 bright colours and come in a sturdy storage container. Illustrated accessories not included.

### LEGO® Bricks

#### Creative Brick Set

The set allows children to create a variety of figures, objects and buildings. Children develop fine motor skills while constructing, and the building cards will inspire their creativity. Includes 1000 classic LEGO® pieces, 8 double-sided building cards, and an activity card with inspirational teaching ideas.

LEG5020

Set of 1000 \$147.95

### LEGO DUPLO® Bricks

#### Creative Brick Set

Set children's creativity free with this imaginative Creative LEGO DUPLO® Brick Set. Not only will it inspire big ideas in young minds, it will encourage self-expression and develop fine motor skills as they build, deconstruct and build again. Building cards provide support and inspiration so children can enjoy endless building fun!

LEG5019

Set of 160 \$143.95

### LEGO Bricks

#### Sceneries Set

This set is guaranteed to spark children's imaginations to build a wide variety of settings, models and characters. In addition to bricks in all sorts of colours, it includes special elements such as spiders, snakes, wands, pots, roast chickens, flowers, treasure chests, transparent elements and much more! The set is also great for adding that extra something to your existing LEGO sets. Ages 4+ years

LEG9385

Set of 1207 \$229.95

### LEGO Bricks

#### Small Building Plates

Features 22 building plates in three different sizes and a variety of colours. Use as a foundation for your LEGO creation, to create landscapes, or for constructing tall buildings.

LEG9388

Set of 22 \$80.95

### LEGO Bricks

#### Wheels Set

The set includes tyres in four different sizes along with plates, axles and wheel hubs to make sets of wheels and vehicle chassis for up to 12 different vehicles at the same time.

LEG9387

Set of 286 \$126.95

## Base Ten &amp; MAB

## Base 10 Class Sets

When children initially undertake the learning of numbers, it's generally done by some kind of continuum, where the numbers just go on and on and on. Rote learning of numbers does not necessarily introduce the children to the important structure of our number system, grouping of tens, hundreds, thousands and so on. Base 10, otherwise known as MAB (Multi-base Arithmetic Blocks) materials, are one of the most commonly found pieces of equipment in schools. This powerful visual model is an excellent approach to introducing and reinforcing trading/exchanging of place value in numbers.

### Number Expanders

The ability to flexibly rename numbers is essential for children to solve addition and subtraction problems. These number expanders show the different ways whole numbers from 0 to 9999 can be named. Embedded magnets assist the folding function and the write-on wipe-off surface allows children to investigate various number combinations using dry erase markers. Each set contains 10 number expanders (36 x 5.5cm each).

KNB0100

Set of 10 \$68.95

Set of 5

### Number Expanders – Decimals

These decimal number expanders help children investigate the different ways whole and decimal numbers can be renamed. Embedded magnets assist in the folding function. Suitable for use with dry erase markers. Folded size 205 x 55mm, Extended size 615 x 55mm. Each set contains 5 Decimal number expanders and a Teacher guide

## Place Value

## Introducing the latest version of the three prong abacus

Exciting design enhancements have been made to an old favourite! This three prong abacus is more powerful than ever when teaching place value. To begin with, maybe your class is only ready for units and tens. If so... simply twist the prong and remove it from the base. What is clever about this abacus is the forcing of place value. Each prong will only hold 9 beads, so when the prong is full the children must trade all 9 beads off the prong and place a new single bead on the next prong to the left. What if your class is ready to move beyond 999? Why not join the bases together to create thousands or hundreds of thousands - why not even millions!!!! Decimals - no problem, just place a sticky dot onto your frame (and/or number cards) and there we go. So much more can be achieved with this FANTASTIC Place Value Abacus. Additional coloured hex beads makes this product fit to the TFC Place Value colour code system.

## Place Value Abacus Class Set

An economical classroom kit which allows all children to use an abacus individually or to join them for more involved place value work.

Set includes:

- 9 x Place Value Abacus (TFC11859)
- 9 x Number Builders (TFC12841)
- 50 x Dice 10 Face 0-9 (TFC12726)
- 50 x Dice 12 Face (TFC12727)

## Cuisenaire Rods

### Connecting Number Rods & Activity Cards

This kit consists of the Connecting Number Rods (ZZ0310) and a set of 20x A5 sized activity cards (ZZ0311) to practise with addition and subtraction.

ZZ0310K

\$183.95

#### Connecting Number Rods

This set of 64 rods has a selection of rods numbered 1-10 and is ideal for smaller groups of children. Each rod has a number on one side and a corresponding number of dots on the reverse side. Our rods join together with ease, and tackle a number of different mathematical areas such as addition and subtraction, and multiplication and division. Each rod is colour coded to represent a number with the longest rod (number 10) measuring 20cm long x 3cm wide. All our rods are chunky and appeal to young Maths learners. Age: 3+.

ZZ0310

Set of 64 \$172.95

#### Connecting Number Rods Activity Cards

A set of 20x A5 sized activity cards designed to be used with the Connecting Number Rods, using numbers 1-20 in the questions. The set includes 10 addition and 10 subtraction colour-coded cards, with the question on the front and the answer with images on the back.

## Cuisenaire Rods

### Coloured Rods – Patterning Kit

This is a great set for kinder and preschoolers to learn mathematics, counting, fractions and develop motor skills and logical thinking. The cuisenaire learning rods include 222 unit rods in 10 sizes, supplied in a box. The smallest one is 1 cm, the longest one is 10cm. The set comes with 6 guide boards ranging from easy to difficult. This set is made out of plantation timber using non-toxic materials. Size: 32 x 28 x 7cm.

QGP461

Set of 222 \$86.95

### Number Equaliser Balance – Mini

This Mini Number Equaliser Balance is designed to help children gain insight to abstract number and operations concepts, algebraic equations and more. Used in conjunction with the larger Number Equaliser Balance (TFC11146), children can work alongside the teacher when doing operations and gain a better understanding of the concepts. Contains: balance, twenty hanging masses, 4 removable plastic compensators and an activity guide. Height 11cm

TFC11146

\$9.10

Teacher version

### Number Equaliser Balance

A robust plastic balance for demonstrating number relationships and solving mathematical problems such as simple algebraic equations. The balance incorporates pegs to hang 10g plastic weight tablets, 20 of which are supplied. Measures 65.5 x 7 x 19.5cm

GG1026

\$33.95

The most fun students will have while learning time tables!

### Time Table Swat – Multiplication Game

The most fun students will have while learning time tables! Simply select the time tables you want to practise, lay out the corresponding colour-coded 'fly' cards, solve the equation on the cards and 'swat' the correct answer first. A highly energetic and fun game to reinforce multiplication. Includes activity guide.

LER3053

\$34.95

### Triangle Match-Ups – Addition & Subtraction

These Triangle Match-Ups provide students with the opportunity to see patterns and connections between the basic addition and subtraction facts by introducing the thinking strategies: counting on, build to ten, doubles and near doubles, and bridge ten. Includes 4 sets of 40 triangle cards, answer cards and teacher's guide.

KNB2001

160 Triangle Cards \$55.95

### What's My Number? – Game of Number Patterns

Help children learn to count from 1 to 50 with this exciting number patterns game! Children will love the interactive game as they flick down numbers to best predict their opponent's number. Teaches numbers and patterns and number properties. Contains: game board (37 x 33cm), 50 number cards and 10 question and activity cards.

JNL150

\$57.95

## Operations

### Maths Grids

This maths grid make it easier to demonstrate abstract mathematical concepts, from multiplication and division to fractions and decimals. Includes 16 different sheets, producing over 50 unique grids. The write-wipe board allows to model problem solving techniques. Designed to integrate with both base ten and ten frames. Frame measures 26 x 26cm.

ETA92428

\$40.95

### Addition & Subtraction Bingo – Beat The Dragon

The children will be so intent on completing their boards before the picture of the dragon is put together that they will barely notice they are practising the addition and subtraction facts for numbers 1-10! A laminated number line 0-10 is included to allow the players to check their answers without adult supervision.

LF133

\$36.95

### Multiplication Bingo – Beat The Crocodile

Try to beat the crocodile by matching the multiplication bingo cards with the correct answer on your answer board. If the crocodile board fills up before yours, you lose, unless you fill up your answer board first. Contains 4 durable wipe clean mats (25 x 33cm), 80 sturdy playing cards in a storage container.

LF3325

\$36.95

### Magic Triangles – Addition & Subtraction

This simple format allows young children to work without adult supervision while they learn, memorise and self check the addition and subtraction facts for numbers 1-10. Use a whiteboard marker to complete the revision exercise on the back of each laminated card and check the answer on the reverse.

LF1313

\$30.95

### Magic Triangles– Multiplication & Division

The simple design allows individual students to work independently as they learn and memorise the multiplication and division facts from 1-12 and complete the revision exercise on the back of each card, using a marker on the write and wipe surface. The cards are colour coded to indicate the level of difficulty. Contains 76 sturdy laminated cards (12.3 x 12.3cm) in durable storage container.

LF2424

\$30.95

### Giant Magnetic Array Set

Easily demonstrate multiplication on the whiteboard! Giant magnetic arrays and colourful discs allow students and teachers to explore multiplication as repeated addition. Includes 2 magnetic 5 x 5 arrays and 50 discs.

### Magnetic Pizza Fraction Set

These 6 Magnetic Pizzas represent 1 whole,  $\frac{1}{2}$ ,  $\frac{1}{3}$ ,  $\frac{1}{4}$ ,  $\frac{1}{6}$  and  $\frac{1}{8}$  (24 pieces total). Introduces fraction values in written form, comparisons, equivalencies, and addition and subtraction of fractions. Includes Activity Guide. Pizzas measure 20cm each.

LER5062

\$46.95

### Pizza Fraction Fun

This clever game teaches fraction concepts and skills to different levels of learners with seven games in one. Students can practise identifying fractions, matching fraction equivalents as well as adding and subtracting fractions. Game includes 13 double-sided pizzas (only one side identifies the fractions), three double-sided spinners and one spinner arrow. Suitable for 2 to 6 players. Each pizza is 27cm in diameter.

LER5060

\$44.95

## Fractions, Decimals & Percentages

### Equivalence Tower Cubes

Durable, interlocking equivalence tower cubes are perfect for exploring and comparing fractions, decimals and percentages. Children learn by building simple, graphic mathematical models that clearly demonstrate relationships of parts to the whole. Each set contains 51 cubes.

LER2509

### Equivalence Bars

Each colourful bar is printed on all sides with either fractions, percentages, decimals or pictures. The bars fit into slots to allow easy comparisons as well as doubling up as a neat storage box. 39 colourful printed bars representing whole, halves, thirds, quarters, fifths, sixths, eighths and tenths along with their respective decimals, percentages and pictorial representations.

ET15609

Set of 39 \$74.95

### Fraction Birthday Cakes

These birthday fraction cakes are a perfect resource to teach students about fraction with everyday objects. Each cake consists of 9 layers in different colours, showing whole, whole, halves, thirds, quarters, fifths, sixths, eighths, tenths and twelfths. The 16 'candles' keep all fraction pieces together. The square cake (DC468) measures 20 x 20 x 7.3cm. The round cake (DC467) measures 20cm in diameter and 7cm high. The kit (TFC16030) consists of one round and one square cake.

## F.U.N Empty number line

F.U.N.™ stands for Fluency and Understanding Numbers. The F.U.N.™ Empty Number Line represents the number system while, at the same time, is a manipulative where numbers can be moved, matched and plotted, up and down the entire number line. The grade specific F.U.N. cards make this number line suitable for every grade level.

### F.U.N.™ Empty Number Line System

The possibilities for using the number line to identify equivalent numbers are endless, including whole numbers, fractions, decimals and negative numbers. Contents include two 15 x 101.5cm double-sided write-on/wipe off number line sections, 6 suction cups, 26 binder clips, 150 blue links, 25 blank write-on/wipe-off cards and user guide. A set of 50 blank write on/wipe off cards can be purchased separately. Each card measures .6 x 10cm. Grade level cards are sold separately.

LAD7992

\$149.95

Fraction tiles not included

### Student F.U.N.™ Empty Number Line

Now you can get the powerful F.U.N.™ Empty Number Lines into the hands of every student so they can truly internalize number sense. It has a double-sided, write on/wipe off surface so students can follow along with the teacher or use them individually. This student sized version measures 4.5 x 44.5cm. (Fraction bars not included).

#### 5-in-1 Outdoor Measure-Mate

This versatile five-in-one tool is the perfect way to introduce the concept of measurement to young learning in an outdoor setting. Its robust build means that it will cope with vigorous use in rough terrain. Perfect for non-standard measuring or the introduction of standard units. The primary aim of the set is for young learners to have fun exploring (and measuring) the natural landscape, which will be enhanced by the 'bird footprints' that the trundle wheel leaves. Set allows for the following measurement tools: vertical measure, callipers, trundle wheel, spirit level and measuring stick.

#### Wooden Outdoor Pan Scales

This outdoor pan balance is made from sustainable eucalyptus wood, and brings maths outdoors! Explore with the weight of objects found in nature, such as stones and sticks and place them on the pans. The scales measure 65cm high with a base of 65 x 22cm. The arm length is 65cm.

TEB6265 \$287.95

#### Wooden Weighted Fraction Blocks for Outdoor Scale

These wooden fraction blocks can be used in combination with the pan scales and allow students to practise with mass inquiries as well as fractions at the same time! The 1/1 block is twice as heavy as the 1/2 block, and the 1/2 block is again twice as heavy as the 1/4 block, etc. The largest block is 8 x 8 x 4cm.

TEB6266 Set of 22 \$91.95

Bag weight corresponds with the number!

#### Balance Scale with Weighted Numbers

A new way to practise with basic maths skills! This wooden balance scale comes with weighted numbered bean bags. The bean bag with the number 2 is twice as heavy as number 1. Ideal for practising with addition, subtraction, greater than and smaller than concepts. The balance measures 60 x 25 x 12cm and comes with 10 bean bags (2 of each number).

MJ101 \$172.95

## Scale

These unique scales have transparent cases that allow you to see the working mechanisms. Very robust, all metric dial (2kg version is marked in 10g and 5kg version in 25g increments) with solid steel base these are exceptional value.

### Kitchen Scales 2kg & 5kg Pack

#### Classroom Clock Kit

Keep your whole class on time! Colour-coded hour and minute functions are easy to read. Durable plastic clocks feature hidden gears that maintain correct hour and minute relationships and include built-in removable stands. The kit (LER2102) includes 24 student clocks and one Big Time Demonstration Clock. The student clock and demonstration clock are also available individually.

LER2102

1 Demonstration Clock & 24 Student Clocks \$189.95

LER2094

Demonstration Clock \$57.95

LER2095

Student Clock \$18.95

#### Clock Primary Time

As children move the minute hand this geared clock's digital display actually keeps pace! Perfect for teaching both analogue and digital time. Colour-coded, sliding shutters on digital display provide a self-check so kids know when they're on the right track. Teacher clock face is 31.5cm (dia.) and measures 37 x 38cm. Student version measures 18 x 16cm.

LER3000

Student clock \$52.95

LER2092

Teacher clock \$99.95

### Dual Time Clock

This clock can be used as both a wall clock and a table top teaching aid. The analogue and digital time are always synchronised. Both can be adjusted to any time and the other will automatically reset to the same time in 3 seconds. The sliding, removable 'covering plate' can cover either side of the clock, so that children can be asked to write down the covered time. This makes it an ideal resource to teach the concept of digital and analogue time. The digital time can be set to either 12 or 24 hour formats. 2x 'AA' batteries are required. Size: 38.5 x 21 x 4cm

STC001

\$126.95

#### Benefits

- Includes 12 and 24 hour time.
- The analogue time is synchronised with the digital time.
- Sliding, removable 'covering plate' allows for either side of the clock to be covered, so that students can learn to interchange between the two styles of time.
- The unique style of this clock allows students to grasp the difficult concept of digital and analogue time.

### Time

#### EasyRead Time Teacher Classroom Wall Clock

This product is the heart of the EasyRead Time Teaching System. Its clear design and simple 3-step teaching system make it very easy for children to learn to read the time in terms of 'minutes past' and 'minutes to' the hour. Teach your children the 3-step system and they will be able to tell the time as soon as they can confidently recognise numbers – what a great way to start the time elements of the National Curriculum.

ERT001	Each	\$57.95
ERT001-5	Set of 5	\$272.95
ERT001K	Set of 10	\$540.95

#### The 3-step teaching system: easy to learn and remember.

**Step 1:** Read the number at the end of the long hand.

**Step 2:** Say "minutes to" if it's pointing to the red side of the clock, or say "minutes past" if it's pointing to the blue side.

**Step 3:** Read the number at the end of the short hand. Like this: 8...minutes to...2. It's that easy!

### Large Magnetic Write & Wipe Clock Sheet

Demonstrate the relation between analogue and digital time in front of the classroom! This magnetic clock sheet firmly sticks to a whiteboard and has a write and wipe surface. The hands of the clock move independently. The sheet measures 35 x 50cm and is supplied in a sturdy pouch.

TEB6066

\$42.95

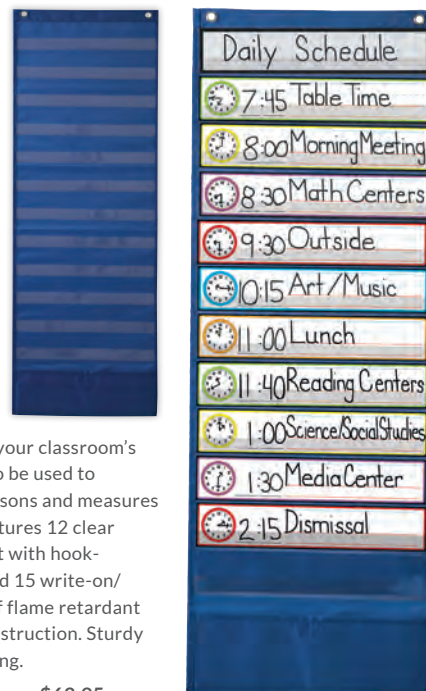

### Time Scheduling Pocket Chart

The Time Scheduling Pocket Chart is the easiest way to illustrate your classroom's daily schedule. It can also be used to reinforce time-telling lessons and measures approx. 33 x 91cm. It features 12 clear pockets, a storage pocket with hook-and-loop tape closure and 15 write-on/wipeaway cards. Made of flame retardant material and durable construction. Sturdy grommets for easy hanging.

CD8031

\$63.95

## Number Line Clock

Revolutionise the way students learn time. Students can now physically and mentally connect the concepts between an number line and time to practise with elapsed time. Once the number line is connected, it transforms back into a clock, allowing students to visualise a clock is just a circular number line. The colour-coding feature makes it easier for students to recognise groups of 5 minutes. Includes a getting started time with 4 activities. The magnetic demonstration clock measures 37 x 34cm. The Student clocks measure 15 x 11cm and come in a set of 6.

ETA92289 • Magnetic Demo Clock \$80.95  
ETA92287 Set of 6 Student Clocks \$103.95

The removable clock face turns into a number line, allowing students to visualise the concept of time

## Magnetic Elapsed Time Set

Demonstrate one of the toughest maths concepts! Segmented timeline even helps students understand that elapsed time can begin in the PM and end in the AM. Removable guide numbers support differentiation. Includes 2 magnetic clocks with hands, 24-hour timeline (4 segments), start and end time arrows, and removable guide numbers. Clocks measure 25.5cm.

LER2983

\$59.95

## Time Number Line

What is elapsed time? It is the amount of time that passes between 2 events. This Time Number Line will help students calculate the elapsed time, it is made from a write on/wipe off material, is colour coded white and purple and can be used with 1 and 2cm cubes (1cm represents half hour increments and 2cm represents 1 hour).

QE13940

Set of 10 \$14.95

## Multiple Representation Dice - Time

This set of 16 sturdy foam dice increases students' understanding of all things time! Each die has a unique time telling method such as the analogue clock, digital clock, time expressed in colloquial language and expressed in standard form language. Supplied in storage tote.

ETA91267

Set of 16 \$45.95

### Time Snap

Snap to it! 2 games in 1. Snap or Pair the cards. Time Snap cards will teach children digital and analogue times. Deck contains 52 cards plus instructions.

TFC15933

\$14.95

teachables

### Time Dice

Set of 2 dice, 1 with hours and the other with a selection of minutes.

TEB6205 Set of 2 \$9.10

### Monthly Calendar Pocket Chart

Teach and demonstrate concepts relative to time, the passage of time relative to routine events, birthdays and other special days, plus the names of days and months. Includes 31 date cards, 7 day-of-the-week cards, 12 month cards and teachers' guide. Measures 63 x 70cm. Ages 5+.

LER2210

\$51.95

## Timber Backed Rubber Stamps

Excellent quality timber backed rubber stamps. Easy to hold and use giving a clean, clear stamped image.

### Clock Stamps Set

Set includes 1 of each: Analogue Blank 50mm, 12 Hours 50mm, 12 Hours, 24 Hours 50mm, Digital/Analogue Hours 50mm, Digital/Analogue Hours and Mins 50mm, Digital/Analogue Hours and 5mins 50mm and 2 Stamp Pads, 1 x black and 1 x red.

TFC15935

Set of 7 Stamps and 2 Stamp Pads \$97.95

### Clock Stamp: Analogue Blank (50mm)

Create your own clock, 12 or 24 hour time with this blank stamp.

TFC10610

\$9.10

### Clock Stamp: 12 Hours (75mm)

Students can practise over and over again with a stamp block. 12 hours with 5 minute increments, and measures 75mm.

TFC10612

\$11.95

### Clock Stamp: 12 Hours (50mm)

Ask students to read a digital clock and draw the time in analogue with this 12 hour clock stamp. Measures 50mm.

TFC10611

\$9.10

### Clock Stamp: 24 Hours (50mm)

Reinforce 24 hour time with this clock stamp, the 12 and 24 hour times are placed next to each other to help students to relate one to another.

TFC10609

\$9.10

### Digital/Analogue Hours and Mins (50mm)

Help students to relate analogue and digital time with this stamp. Use time and time again in your classroom. Includes hours and minutes, and measures 50mm.

DC10099

\$11.95

### Digital/Analogue Hours (50mm)

This wooden clock stamp includes 12 hours and a space below for the time to be written in digital form. This allows students to learn how to convert between digital and analogue with ease. Measures 50mm

TFC10068

\$11.95

### Digital/Analogue Hours and 5mins (50mm)

Reinforce 12, 24 and digital time with this clock stamp, the 12 and 24 hour times are placed next to each other to help students to relate one to the other. Measures 50mm.

TFC10616

\$11.95

## Sand Timers

Perfect for use in games, accurate event timing and experiments. Virtually indestructible with moulded end caps and thin wall surrounds. For easy identification each timer is colour coded. Giant Timer measures 16 x 8.5cm. Mega Timer is 30 x 15.5cm.

### Giant Sand Timers

The duration of each timer is clearly marked on the top of the timer. Sand timers can be used for time related activities and experiments, and are also the perfect resource for time management. They also offer children an excellent opportunity to observe and compare the passage of time. The timers are designed with a hexagonal base and top to prevent them from rolling and potentially falling. The Giant Sand Timers measure 16cm in height and 8.5cm in width. Ages 3+.

TFC11073	30sec - Red \$22.95	TFC11063	5min - Blue \$22.95
TFC11061	1min - Green \$22.95	TFC11075	10min - Orange \$22.95

TFC11062	3min - Yellow \$22.95	TFC11076	30min - Black \$22.95

### Mega Sand Timers

Mega Sand Timers are the perfect resource for every classroom. The unique design of the hexagonal tops and bottoms of these timers prevent them from rolling and potential falls. Sand timers are an extremely versatile learning tool, allow students to observe and compare the passage of time whilst also reinforcing time management skill in every lesson. The duration of each timer is clearly marked in the top. The Mega Sand Timers measures 30 x 15.5cm.

## Measurement

### Time

With interchangeable clock faces, to count down any time between 5 minutes and 24 hours

NEW

#### Time Timer MAX

The Time Timer MAX is not only extra large (43cm!), it also includes eight timers, with customisable durations and interchangeable timer faces, to count down as low as 5 minutes or as high as 24 hours. Includes a dry erase face to allow for maximum flexibility and customisation. Silent, moderate or loud alerts to suit any environment and needs. Includes coloured markers that click onto the face, to divide the remaining time into smaller sections.

TT0072

\$229.95

NEW

#### Time Timer Plus – 60 min

The Time Timer Plus includes a handle, rugged case and durable lens to further protect the red disk. The timer measures 14 x 18cm and has a volume control dial to switch anywhere between complete silence or a louder tone. The Time Timer will visually show students how much time is left for their tasks or activities.

TT1060

\$80.95

NEW

#### Original Time Timer

There is a world of difference between looking at a clock and being able to say that it's 3 o'clock and understanding 'how long' 5 minutes is. The Time Timer helps students of all ages understand the passage of time. The Time Timer helps students from Preschool to High school, from maths activities to practising with routines. No ticking, and an optional audible signal when time is up. AA battery required (not included).

TT1003

7.5cm \$57.95

teachables

#### Timer Electronic Clock

An ideal mathematical resource for the classroom. This versatile all digital timer counts down from any time up to 24 hours. May also be used as a count up timer. Features large, easy-to-read 13mm display.

TFC17116

\$22.95

teachables

#### Clock, Alarm & Timer

Large LCD display with clock, alarm and double timer. This compact timer has a stand and a magnet. Can count up and down, with memory function. It measures 9 x 1.5 x 6.4cm. Replacement battery is 'AAA'.

CEC192

\$16.95

teachables

#### Kitchen Timer

A versatile 60 minute timer with bell. Bold dial with easy to set knob.

Each \$9.85

### Time Tracker Mini

Set it and go! Easy to use simple visual timer features clear, 3 colour lighted display and clear, 1-2-3 operation. Time can be set in 5 minute increments from 5 minutes to 2 hours. Requires 2 AAA batteries (not included).

LER6909

\$43.95

### Time Tracker – Visual Timer and Clock

It's never been easier to keep kids on track! Allows quick programming of 3 coloured lights and 6 sound effects that alert children to time remaining; customise them to suit your needs. Helps children learn to manage play time, homework, music practice sessions, independent reading—even time outs! Features 180° viewing and a large, easy-to-read LCD display. Offers volume control and pause feature. Measures 22.8cm high. Requires 4 AA batteries (not included).

LER6900

\$99.95

### Time Tracker Magnetic

This Time Tracker adheres to any magnetic surface in the classroom or at home! Features clear, 3 colour lighted display and simple-to-program alarms (1 second to 24 hours). Alarms can be visual, audio or both. Handy flip-out stand for tabletop use. Measures 17.8cm high. Requires 4 AA batteries (not included) and 3 LR44 button-cell batteries (included).

LER6968

\$52.95

### 50 Time Activities

50 Time Activities is a set of 50 double-sided activity cards for teaching time skills and understanding. Topics include: speed, sequencing, clocks, counting, seconds, time devices, digital and analogue, time problems, estimation, probability, 24 hour time, converting time, months, time zones. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Maths manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL330

\$34.95

### Dual Power Timer

These handy sized timers can time up or down to 99 mins and 59 seconds. A bleeping alarm is sounded to say the time has been reached. Having dual power functionality means they are always charged and ready to go. The push buttons have been designed for ease of use. The timers can be used in numerous situations where a hands free time period needs to be set or measured such as in scientific experiments, for circle time, for games, for the timing of tests and a hundred and one other uses. Colour coded for easy identification.

CT92079

Set of 5 \$64.95

### Time Matters

Paul Swan and Linda Marshall have combined to create Time Matters. The authors outline how children may be taught time concepts, ranging from telling the time to the language of time and more complex ideas. Book 1 covers all the time-related content from the Australian Curriculum from Foundation to Year 3, and much more! Book 2 Develops deeper understandings of time concepts. Teachers are given the background knowledge and support required to help students understand complex time concepts such as time zones, elapsed time, time lines and the role of time in everyday life such as the reading and interpretation of timetables. Book 2 not only applies the concepts developed in the previous book, but also covers the middle and upper primary time-related content in the Australian Curriculum, and then extends these ideas.

## Measurement

### Volume & Capacity

#### Volume/Capacity Theme Kit

This invaluable kit contains the most commonly used resources in the Primary classroom to investigate volume and capacity. Supplied complete in its own storage tub, this kit is ideal for a rotate/share organisation. Each kit may be arranged to suit the individual requirements of each school, catering for the fact that you may already have some of the items in stock. Please call for expert advice on tailoring a kit to your needs. Each standard kit contains the following items:

- 1 x Measuring Cylinders 7pc
  - 1 x Volume Relationship Set 6pc
  - 1 x Volume Relationship Set 8pc
  - 1 x Playplas® 15 Litres
  - 1 x Litre Set
  - 1 x Litre Cube
  - 2 x Measuring Cup Clear
  - 1 x Measuring Cups 4pc
  - 2 x Measuring Spoons 5pc
  - 1 x Relational Solids 17pc
  - 1 x Measuring Beakers 7pc
  - 1 x Measuring Jugs 3pc
  - 1 x Funnels 3 sizes
  - 1 x Storage Container
- Contents may vary.

## Measurement

### Volume & Capacity

## Volume Relationship Sets

These volume relationship sets are ingenious models to demonstrate how different geometric shapes hold the same volume. Each of the sets includes clear plastic shapes to easily see the volume inside. Use the set with (coloured) liquids or Playplas (not included and sold separately).

teachables

### Litre Set

Six clear containers with a common height (11cm). Ideal for teaching comparison between volume, capacity, mass and shape. Two of the containers hold a litre each, three others hold 0.5 of a litre and the sixth holds 250ml. Graduated levels are marked on each container.

TFC10869  
4 or more

Set of 6 \$45.95  
Each \$40.65

### Volume Relationship Set

Children can explore different geo shapes and demonstrate their volume ratios with this six-piece set. It includes: a square pyramid (10 x 10cm), a rectangle (5 x 10cm), a cylinder (10 x 10cm), a cube (10 x 10cm), a sphere (10cm diameter) and a cone (10 x 10cm). Most shapes feature an opening, so it is easy to fill them with either water or flowing solids.

GG1044

Set of 6 \$33.95

## Playplas®

Beat the sand, rice and water problems now! Economical Playplas® makes a great substitute. Playplas® is a non-toxic granulated polyethylene based plastic. It can be swept up easily from any surface and may be washed clean from time to time with no harmful effects. A beautifully tactile, sensory material for use in the Junior and Middle School. Develop early experiences in volume capacity and mass concepts: strengthen them later with formal measurement. Easily portable containers allow groups of 3-4 children to explore together.

### Playplas® Kit For Junior School

- 1 x Playplas® 15 Litres

## Geometric Folding Shapes Activity Cards

Hands-on activities help students make concrete connections between 3D and 2D concepts. This selection of ready-to-go activities targets geometry and measurement topics, including describing and comparing shapes, symmetry, surface area, area, Euler's formula and more. Coordinates with popular Folding Geometric Shapes (TFC10763). Provides differentiated instruction through 38 different hands-on activities, each clearly labelled with primary focus skills. Supports individual students as well as small groups and centres. Includes storage box and answer card.

TFC10772

Set of 20 \$16.95

## Frameworks

Frameworks is the next generation of Polydron. Its versatility allows the user to build bigger and more complex shapes, and can become a greater ally in helping to explain the nature of space within shapes. Frameworks combines with Polydron when needed and is equally versatile when used independently. These sets are suitable for the young and advanced student, who want to investigate and understand shapes, angles, edges, vertices, planes and tangents.

See inside the shape  
and explore the  
space within

### Polydron Frameworks

Frameworks is the next generation of Polydron with the versatility for bigger and more complex shapes. A unique joining system makes Frameworks completely compatible with original Polydron which will complement any packs already in the classroom. It is lighter and therefore students can construct more complex and bigger designs, while allowing them to see the inside of the shape and explore the space within. Investigate shape, angles, edges, vertices, planes and tangent. Includes an activity booklet.

## Space & Geometry

Geoshapes

### Geoshapes

Geoshapes (also called GeoFix) is an exciting geometric construction system for students to explore and discover spatial relationships and geometric shapes. Great for mathematics, science, design or just plain fun. Geoshapes can be used from the early grades right through to high school. The system consists of 15 different interlocking geometric shapes, which simply snap together to create an endless variety of 3D models. Triangle, square and rectangular panels clip into like shapes adding another feature to 3D models created. All shapes are compatible with each other.

#### Geoshapes Multipack

Explore solid geometry with hands-on activities using this 3D Geoshapes kit. Comes in a sturdy plastic storage container.

Contains:

- 160 x triangles
- 80 x squares
- 40 x pentagons
- 20 x hexagons
- 40 x isosceles triangles
- 20 x equilateral triangles
- 80 x right-angle triangles
- 20 x rectangles
- 1 x activity book.

## Attribute Blocks

### Attribute Block Sets

Help students develop logic skills with activities to practise ordering, patterning, classifying and understanding equivalent relationships. Attribute Blocks form a strong basis for students to recognise more complex attributes in other objects and introduce more complex mathematical vocabularies. As their name suggests, Attribute Blocks are easily sorted into colour, shape, size and thickness. The first process is for early learners to sort by one attribute and then progress to determining two or more ie: same shape different size, or same colour different shape. For older students, use the Attribute Blocks to introduce mathematical language such as: line, angle, vertex, side, parallel, etc.

teachables

#### Small Attribute Blocks Set

Each set of Attribute Blocks consists of: 5 shapes, 2 thicknesses, 2 sizes and 3 colours. Organiser tray features shape supports and a removable cover. Largest square measures 3 x 3cm.

## Grouping Circles

Flexible and collapsible circles 50cm in diameter (TEB0974). The set consists of six circles – two each of red, yellow and blue. The mini set (TFC10179) are 25cm in diameter and consists of fifteen circles – five each of red, yellow and blue. Ideal for a wide range of logic studies and perfect for use with any Attribute Block Set or Sorting Counters.

### Large Logical Blocks Set in Container

This large set consists of 128 pieces, and comes in 4 shapes, 4 colours, 2 sizes and 2 thicknesses. Perfect for young children to develop shape and colour recognition or by older children to explore sets, classification, and relationships. Made from heavy duty plastic and supplied in sturdy storage container. The large circle measures 6cm diameter x 1cm.

JYN071

Set of 128 \$80.95

Includes an additional colour compared to traditional attribute blocks

32 pieces

### Mini Attribute Solids 3D

It just got easier to introduce shapes, sizes and relationships with these colourful plastic geometric pieces. This 32 piece set includes 4 sizes of 8 shapes: triangular, rectangular and hexagonal prisms, triangular and square pyramid, cube, cone and cylinder. Includes teachers guide. Shapes measure from 1.25 to 4.5cm.

LER0913

Set of 32 \$29.95

### 50 Attribute Blocks Activities

5+ yrs

50 Attribute Block Activities is a set of 50 double-sided activity cards for teaching maths skills with attribute blocks. Topics include: shapes, sizes, colour, comparison, patterning, probability, sorting, venn diagrams, tripple venn diagrams, differences, carroll diagrams, fractions and perimeters. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Maths manipulatives used effectively throughout and presented in clear photography. Contains 50 double-sided activity cards and a contents card that can act as a check off list.

JNL323

\$34.95

### Attribute Blocks Book

Reasoning is one of the four proficiency strands in the Australian Curriculum. Written to help teachers use attribute blocks to help children learn to reason and apply logic, this book will allow you to gain the most from this resource. Working with Attribute Blocks will expose students to inductive reasoning and the series of deductive reasoning, where a series of logical arguments are strung together. The development of mathematical language 'and', 'or', 'not', 'if'... then may all be developed when using Attribute Blocks.

PSB841

\$39.95

### Heavy duty and double sided

teachables  
 ■■■■■

### Logic Mats

Produced on heavy duty washable vinyl. Each set of mats consists of 2 circles intersection, 2 circles not intersecting, 3 circles intersecting and a 5 x 5 matrix. Size suitable for most desktop Attribute Block sets.

TFC11552

Set of 2 \$17.95

### Maths Mirror

5+ yrs

The set is used to teach children about analysing geometric shapes, congruence, similarity and symmetry of the shapes. The built-in plastic sheet support acts as a real mirror. With metric and imperial graduation on the edges and a protractor on the end, it's also good for drawing and measuring.

### Dinosaur Bones Match and Measure Set

These dinosaur bones, cast from a durable and unique mix, are just waiting to be discovered. Bury them in sand, soil or even water! The range of bone increase in size by 2cm and can be used to introduce the concept and language of measurement, doubling and halving. The set includes 16 bones, two of each size: 6, 8, 10, 12, 14, 16, 18 and 20cm. Age 3+.

YD1033

Set of 16 \$114.95

### Dinosaur Bones Match and Measure Activity Cards

Use the Dinosaur Bones Match and Measure Set with these match and measure activity cards. Encourage students to match, count, compare, order and measure the bones they discover. Made from durable PVC, the cards are tough enough to use in the outdoor area (including water play). Each set includes 16 colourful plastic cards measuring 27.5 x 21cm.

YD1034

Set of 16 \$64.95

### 50 Measurement Activity Cards

50 Measure Activities is a set of 50 double-sided activity cards for teaching measure knowledge and understanding. Topics include: comparing size, width, length, area, estimation, height, 3D area, weight, volume, displacement, capacity, balances, turns, angles, temperature and volume.

JNL333

16mm

## Decimal Dice

Dice are a very versatile resource in every classroom and a must have in every classroom. Not only can these dice be used for place value and higher value numbers, they can cover a wide range of other maths activities and concepts. Roll the die and ask students what the number is that comes before the number on the die. And which number comes after. Roll two dice and multiply them. Or ask if the number is even or odd. There are so many activities you can do!

### Place Value Decimal Dice: 0.0-0.9

A colourful set of 100 place value decimal dice, showing 0.0 to 0.9. The set is supplied in a storage jar.

TFC11423	Each Die	\$0.60
TFC12697	100pc in Jar	\$49.95

### Place Value Decimal Dice: 0.00-0.09

A colourful set of 100 place value decimal dice, showing 0.00 to 0.09. The set is supplied in a storage jar.

TFC11424	Each Die	\$0.60
TFC12698	100pc in Jar	\$49.95

### Place Value Decimal Dice: 0.000-0.009

A colourful set of 100 place value decimal dice, showing 0.000 to 0.009. The set is supplied in a storage jar.

TFC11425	Each Die	\$0.60
TFC12699	100pc in Jar	\$49.95

## Place Value Dice Jars

Practise with place value and identify the value of each digit in a number with the 6 different type of dice. By throwing one of each of the dice, you can create a 6 digit number. Perfect for addition and subtraction with larger numbers, for practising expanded notation, rounding of numbers, the multiplicative relationship between places and much more.

### Place Value Dice Units

A set of 100 place value dice, showing the numbers 0-9. Supplied in a jar.

TFC12726

## Fraction Dice

Dice are a great way to practise with fractions. They can be used for addition and subtraction with fractions, or multiplication as well as division. Practise with larger than and smaller than, or a wide range of other fraction games. Combine the fraction dice set with other dice resources such as operation dice to create a wider variety of possible games to play.

### 10-Sided Fraction Dice Set 1

A set of 50 fraction dice in a jar. Each die is 10-sided, the faces show 1/10, 1/5, 3/10, 2/5, 1/2, 3/5, 7/10, 4/5, 9/10, 1. Comes in assorted colours.

TFC11512  
TEB6216

Each Die \$0.70  
Set of 50 \$28.95

### 10-Sided Fraction Dice Set 2

A set of 50 fraction dice in a jar. Each die is 10-sided, the faces show 1/10, 2/10, 3/10, 4/10, 5/10, 6/10, 7/10, 8/10, 9/10, 10/10. Comes in assorted colours.

TFC11366  
TEB6217

Each Die \$0.70  
Set of 50 \$28.95

### 6-Sided Fraction Dice 16mm

A set of 100 fraction dice in a jar. Each die is 6-sided, the faces show 1/2, 1/3, 1/4, 1/5, 1/6, 1/8. Size: 16mm.

TFC10243  
TEB6218

Each Die \$0.70  
Set of 100 \$63.95

### Decimal Dice

The faces show 0.25, 0.33, 0.50, 0.67, 0.75, 1.00.

TFC11393 Each Die \$1.30

### Multi Coloured Fraction Dice Set

A set of fraction dice in white, red and green. All dice faces show 1/2, 1/3, 1/4, 1/6, 1/8 and 1/12.

TFC16387 Set of 6 \$3.40

## Operations Dice

This unique range of dice feature mathematical operations. Each 16mm dice depicts a variety of different operation signs. Use these dice with other education dice or polyhedra dice to create random equations. The price is for each dice only.

### Operations Dice #1

On the six faces are the signs: +, -, x, ÷ and Joker.

TFC12886

Each Die \$0.70

### Operations Dice #4

On three faces are the sign + and on the other three faces are the sign -.

TFC10219

Each Die \$0.70

### Operations Dice #5

On three faces are the signs x and on the other three faces are the signs ÷.

TFC10220

Each Die \$0.70

## Dice Education

### Dice Domes

Unique dice shakers offer quiet, controlled learning. Pop out base to insert up to 6 dice in each dome. Includes 4 different colour domes and 12 dice (numerals 1-6 and the +/- signs). Great for centres, games, maths activities and more. Domes measure approximately 10cm in diameter.

### Colourful Foam Ten Frames Dice

Practise subitising and counting in a fun way! This set of 12 sturdy foam dice have ten frame or twenty frame configurations on each side and rounded corners for easy rolling. Includes activity guide.

ETA86887

Set of 12 \$34.95

### Colourful Foam Number Representation Dice

Increase students' understanding of number representation with this set of 16 sturdy foam dice. The dice represent the numbers from 1 to 20 in ten frame, tally marks, base ten and numeral format. They have rounded corners for easy rolling and are integrable into any classroom games. Includes activity guide.

ETA86889

Set of 16 \$45.95

### Multiple Representation Dice - Fractions

These set of sturdy multi coloured foam dice are quiet, safe and have rounded corners for easy rolling. The fraction set includes area models, set models, fractions on a number line and fractions written in standard form.

ETA91268

Set of 16 \$45.95

### Multiple Representation Dice - Equivalency

These set of sturdy multi-coloured foam dice are quiet, safe and have rounded corners for easy rolling. The equivalence set includes area model, decimal, percent and traditional fraction. Supplied in storage tote.

ETA91269

Set of 16 \$45.95

### Multiple Representation Dice - Time

This set of 16 sturdy foam dice increases students' understanding of all things time! Each die has a unique time telling method such as the analogue clock, digital clock, time expressed in colloquial language and expressed in standard form language. Supplied in storage tote.

ETA91267

Set of 16 \$45.95

### Tens Frame, Number & Name Dice

This set of 6 dice consists of 2 of each: tens frames, numbers and names. The dice are made of PU and have a soft landing. Each dice measures 42mm.

KNB2117

Set of 6 \$28.95

## Foam and Vinyl Polyhedra Dice

Available in a variety of colours, as indicated. These polyhedra dice land quietly and safely and lend themselves to a vast range of maths activities.

## Foam, PVC or Vinyl Dice

Ideal for whole class activities. They land quietly and safely and lend themselves to a vast range of number games, probability experiments and maths activities. Randomly supplied in a variety of colours as indicated.

## Spinners

## Spinners

The Swap + Spin Spinner Cases and Inserts are a perfect alternative to dice in the classroom, and allow you to practise with any subject, simply by swapping the insert. Great for cross-curricular activities, while practising probability. The spinner cases measure 12.3 x 12.3cm, and the spinner inserts are 11.5 x 11.5cm. The inserts are made of plastic, and don't warp or bend.

## Smart Spinner Case

The Smart Spinner Case allows you to create endless probability games, simply by just swapping the insert. The Smart Spinner case measures 12.3 x 12.3cm. For use with the Swap + Spin inserts – or create your own (inserts are 11.5 x 11.5cm). They can also be used on an overhead projector. Available in each, set of 5 or set of 30.

## Spinners & Graphing Resources

Turn your whiteboard into graph paper!

### Magnetic Whiteboard Graph Sheets

This magnetic sheet sticks to your whiteboard and takes the hassle out of drawing a grid onto your whiteboard. Simply stick the sheet onto the board, and transform your whiteboard into a graph sheet. The sheet measures 75 x 100cm and features 2.5x2.5cm grids. Depending on your needs, you can stick the sheet onto your board horizontally or vertically. The XY Axis Graph sheet (TEB6263) features a darker X and Y line through the middle of the sheet, making this the ideal resource for all your graphing activities.

TEB6246 Graph Sheet \$68.95  
TEB6263 XY Axis Graph Sheet \$68.95

TEB6263

Also available as XY axis graph paper

Great for classroom demonstrations

### Magnetic Whiteboard Spinner Set

A fun spin on classroom activities! Use these 3 giant 28cm spinners to turn any whiteboard into a fun game or activity for the whole class. Draw a circle, write in the content and attach the spinner.

EN1768

Set of 3 \$54.95

teachables

### Spinner Arms

Make your own spinners. These unique spinner arms allow you to create your own spinner cards. The base is removable from the arrow section allowing it to be re-used. Eight colours are available and each bag of 10 is a single colour only. Red, blue, green, yellow, white, black, purple and orange. Measures 7cm.

## Only the Best Quality Calculators

These have been carefully selected to provide a calculator that will stand up to the rigours of school use at a reasonable price. All of our calculators come with a full 1 year replacement warranty. Most are solar powered with battery backup. Each level of the Primary School has been catered for in the choosing of our calculators. F-2 needs a large buttoned full display model whereas the upper Primary school has different needs in their calculator. This is reflected in the size and price. Children need different experiences throughout their school life and if they are using the same calculator in Year 6 as they had in Year 1 then any excitement is gone. They feel that it is too "childish" to use that calculator, so it is up to you the teacher to enrich their experience.

## Desk Top Calculators

### Desk Top Calculator – 8 Digits

Turn your whiteboard into graph paper!

Also available as XY axis graph paper

### Magnetic Whiteboard Graph Sheets

This magnetic sheet sticks to your whiteboard and takes the hassle out of drawing a grid onto your whiteboard. Simply stick the sheet onto the board, and transform your whiteboard into a graph sheet. The sheet measures 75 x 100cm and features 2.5x2.5cm grids. Depending on your needs, you can stick the sheet onto your board horizontally or vertically. The XY Axis Graph sheet (TEB6263) features a darker X and Y line through the middle of the sheet, making this the ideal resource for all your graphing activities.

TEB6246

## Write &amp; Wipe Resources

## Swap, Write n Wipe Sleeve

Reduce your photocopying time and budget. All photocopied sheets can be used a number of times if removed with care and stored for further use with these economical Swap, Write 'N' Wipe Sleeves. Each sleeve has a side opening, making sliding your work sheets in and out easy and without scrunching or tearing. Use these write on/wipe off sleeves with any subject where black line masters are required. The elastic loop at the top of the sleeve will keep your low odour write on/wipe off pens in place when the sleeve is not being used during the lesson, or at the end of the lesson when the sleeves are placed back into storage.

## Swap, Write 'N' Wipe Sleeve Class Set

30 Sleeves, 30 Whiteboard Wipers,  
36 Whiteboard Markers (TFC11941),  
all in a storage container.

## Reference Books

Dr Catherine Attard

### Dr Catherine Attard

Catherine is an Associate Professor in primary mathematics education, a Western Sydney University Distinguished Teaching Fellow, and a Senior Researcher at the Centre for Educational Research. She is a multiple award-winning educator recognised nationally for transforming teaching and learning in primary mathematics at Western Sydney University for over 10 years. Catherine combines great dedication for teaching engaging mathematics with her own experiences as a primary classroom teacher and her research to motivate and inspire pre-service and qualified teachers. She presents workshops and keynotes nationally and internationally and is a past president of the Mathematical Association of New South Wales, past editor of the professional journal, Australian Primary Mathematics Classroom, and current Secretary of the Mathematics Education Research Group of Australasia.

### Engaging Maths Books

These three books are developed to provide teachers with rich and open ended activities and lesson-ideas. CAT001 includes over 200 activities across each of the strands of the maths curriculum and is suitable for Years 3 to 6. CAT002 focuses on the Number & Algebra strands and includes resource lists, curriculum links, implementation ideas, reflection starters, ideas for differentiation and Blackline Masters for students from Foundation to Year 6. CAT005 provides teachers with some professional learning in relation to using iPads® and other tablets to enhance the teaching and learning of mathematics in the primary classroom.

CAT001	Higher Order Thinking	\$39.95
CAT002	Exploring Number	\$39.95
CAT005	iPad Activities for Teaching & Learning	\$39.95

### Engaging Maths: Everyday Investigations

Engaging Maths: Everyday Investigations books are a combination of a book, a set of photo cards and a disc with these photos. It is a collection of rich, open-ended tasks based on more than 30 photographs of items that children see in their day-to-day lives. The photographs are used as a stimulus for a wide range of engaging mathematics that highlight the usefulness of mathematics and makes links between 'classroom' maths and real-life maths. Available for Early Years and Grades 3 to 6.

CAT003	Early Years	\$66.95
CAT004	Grades 3 to 6	\$66.95

### Mabble – Crosswords with Numbers

Get your students hooked on maths with Mabble. A simple, easy to learn game that accesses the Number and Algebra strand by requiring players to come up with mathematical equations in a similar manner to a crossword puzzle. Mabble provides an excellent opportunity to work on the four proficiencies of problem solving, understanding, fluency and reasoning from the Australian Curriculum: Mathematics. This game is suitable for children and adults of all ages. Includes board, 138 plastic tiles with numbers, operations and blank tiles, instructions and score pad. Supplied in a box.

CAT101-1	Each	\$40.95
CAT101	Set of 8	\$327.60 \$298.95

### Floor Mabble – Crosswords with Numbers

Maximise the fun with this floor-sized version of the Mabble game! The floor mat measures a large 1 metre square, and comes with 140 number and operation tiles (each measuring 6cm square).

CAT102	\$137.95
--------	----------

## Dr Paul Swan

Dr Paul Swan is an award-winning author who has had a long association with Modern Teaching Aids. He spends his time, speaking at conferences, working with teachers and school leaders and writing new books, games and materials to support teachers across Australia. Recently he was made a life member of the Mathematical Association of Western Australia and he has been awarded an Honorary Fellowship of the Australian Council for Educational Leaders.

## Dr Paul Swan Dice Book Kit

This kit includes one of each of the three dice games books, written by Dr Paul Swan. These books will help you use dice for a wide variety of subjects.

PSBKIT9

Set of 3 \$109.95

### Dice Games for Place Value

Students gain a better understanding of place value with these games and activities. Games can be adapted easily to a mixed ability classroom. Later sections cover topics such as percentages, multiples and pattern. 48 pages.

PSB328

\$40.95

### Dice Games for Tables

Complements the popular Tackling Tables book also by Dr. Paul Swan (see page 430). Links are made between related tables such as the 2, 4 and 8 times table and the 3 and 6 times tables. Variations are provided for each game to cater for mixed level abilities within the class. Games make use of readily available dice. Game boards are ready to be copied so you can start playing straight away! 48 pages.

PSB19000

\$40.95

### Dice Dilemmas

Activities using 6 and 10 sided dice, this book can be used from Foundation through to Grade 6. A must for every classroom, this book encourages mathematical concepts such as problem solving, place value, mental computation and chance concepts. 48 pages.

## Dr Paul Swan Book Pack

This Dr. Paul Swan book pack includes the three most versatile maths manipulatives to cover a wide range of subjects. Included in the pack are Dice Dazzlers, Card Capers and Domino Deductions.

PSBKIT1

Set of 3 \$91.95

### Dice Dazzlers

These games will have your students working enthusiastically either individually, in small groups or with the whole class. Topics covered are number recognition and ordering, place value, arithmetic operations, multiplication facts, square and prime numbers, early explorations of chance and strategy and more! Teachers notes, game extensions and variations are also included in this powerful classroom MUST HAVE! 48 pages..

PSB322

\$32.95

### Card Capers

Classically Australian - this book is a must in every classroom. Full of card playing activities to reinforce space, number, problem solving, probability, place value and more. Valuable for all Primary Grades. See also Domino Deductions, Dice Dilemmas and Dice Dazzlers by the same author. 48 pages.

PSB320

\$32.95

### Domino Deductions

Develop maths skills using an everyday classroom resource. Activities from this book make learning interesting and fun whilst promoting mathematical thinking. BLM's. 48 pages.

PSB323

## Reference Books

Dr Paul Swan

## Paul Swan – My Word Book

My Word Mathematic, written by Dr Paul Swan and David Dunstan is a book that focuses heavily on the vocabulary of maths. This book includes a list of all Curriculum Substrands, organised by year level. With focus on word building, troublesome words and words & symbols with specific mathematical meanings, this book is perfect to help your class understand and answer questions with ease.

PSB101

\$34.95

## Paul Swan – The Money Book

This book is designed to help children come to grips with money in an age where they rarely see a physical transaction. Participation in the games and activities contained in the book will help children develop their financial literacy as children pass through a series of money milestones.

PSB103

\$45.95

## Toying With Tangrams

The Tangram is a puzzle made up of 7 pieces: triangles, squares and a parallelogram. Teach mathematical concepts such as shape, symmetry, similarity, congruence, perimeter, area and fractions with Tangrams using this wonderful book by Dr Paul Swan. 64 pages.

PSB329

\$32.95

## Paul Swan – Enrichment Mathematics

This is a new publication by three well-known authors, Dr Jack Bana, Ms Linda Marshall and Dr Paul Swan, suitable for both teachers and parents. The content of this book is linked to the Australian Curriculum in Mathematics and is designed for students to pursue very interesting maths topics that are often missed in standard classroom lessons. Includes 17 detailed topics with work sheets and answers.

PSB102

\$45.95

## Mathematical Games with School Friendly Cards

Designed to help young children learn key early number concepts while playing simple card games, this book will give you plenty of ideas to use School Friendly Playing Cards for a wide range of mathematical activities. Playing cards is a popular pastime for children and adults alike. Young children enjoy playing card games but sometimes are confused by all of the extraneous information depicted on a standard playing card. They sometimes have difficulty remembering the difference between clubs and spades – if they can even remember their names! They may not remember whether a Jack is of higher value than a Queen or King. Are Aces high (11) or (1)? When using cards to develop fluency in mathematics, these issues can prove a distraction and irritation to children, hence the development of these simpler, child-friendly cards.

PSB528

\$37.95

### Developing Unifix Maths

The book provides a range of developmental activities to encourage the best use of Unifix (SimFit) in the classroom. Produced in full colour, with photographs as well as illustrations of the materials used in classrooms by teachers and children. Student worksheets also included. Suitable for all primary years. Contains 88 pages.

RIC6000

\$49.95

### Mathematics Pattern Blocks

This book provides a range of developmental activities to encourage the best use of pattern blocks in the classroom. Produced in full colour, with photographs as well as illustrations of the materials used. Student worksheets also included. Suitable for all primary years. Contains 81 pages.

RIC6001

\$49.95

## Check the Clues Book Pack – Dr Paul Swan

The Check the Clues A,B,C,D & E books by Dr Paul Swan and David Dunstan offer schools a whole school approach to word problem solving using a co-operative group approach. The books have been designed to improve the students' comprehension of mathematics word problems, and to build mathematical understanding through problem solving and reasoning. The Check the Clues series uses Polya's four step problem solving approach: understand the problem, devise a plan, carry out the plan and look back. Teachers are provided with the Australian Curriculum links, language (vocabulary), notes, answers and references.

### Attribute Blocks

Reasoning is one of the four proficiency strands in the Australian Curriculum. Written to help teachers use attribute blocks to help children learn to reason and apply logic, this book will allow you to gain the most from this resource. Working with Attribute Blocks will expose students to inductive reasoning and the series of deductive reasoning, where a series of logical arguments are strung together. The development of mathematical language 'and', 'or', 'not', 'if'... then may all be developed when using Attribute Blocks.

PSB841

\$39.95

### Geoboard Gems

In this publication from the ever popular Paul Swan, Geoboards are used to explore triangle types, quadrilaterals and other polygons. Other activities cover perimeter, area, Pick's Rule and even algebra. Each activity is linked to content descriptions from the Australian Curriculum. There are dot-paper recording sheets for 9, 16 and 25 pin Geoboards (and circular ones, too) for photocopying, as well as colourful task cards. 48 pages.

PSB843

\$39.95

### Make it Count

This book is based around a counting trajectory that begins with the pre-requisites for counting right through to mental strategies for adding single-digit numbers. The activities are coded according to difficulty. The book includes a set of colour A3 games that may be photocopied by teachers and used with their classes. 88 pages.

## Time Matters

Paul Swan and Linda Marshall have combined to create Time Matters. The authors outline how children may be taught time concepts, ranging from telling the time to the language of time and more complex ideas. Book 1 covers all the time-related content from the Australian Curriculum from Foundation to Year 3, and much more! Book 2 Develops deeper understandings of time concepts. Teachers are given the background knowledge and support required to help students understand complex time concepts such as time zones, elapsed time, time lines and the role of time in everyday life such as the reading and interpretation of timetables. Book 2 not only applies the concepts developed in the previous book, but also covers the middle and upper primary time-related content in the Australian Curriculum, and then extends these ideas.

RIC6123

Book 2 – Grades 4-6 \$49.95

### Pocket Dice Books

These books from Dr. Paul Swan let you make the most of your pocket dice. Each book provides plenty of ideas and photocopiable inserts for activities across many aspects of mathematics. Most suitable for 10cm pocket dice. Available for years F-2, 3 and 4 or 5 and 6.

PSB831	Years F-2	\$45.95
PSB848	Years 3-4	\$39.95
PSB855	Years 5-6	\$39.95

### STEM Ideas with Rainbow Pebbles Ages 4-8

This 48-page book from Dr Paul Swan is full of STEM activities using rainbow pebbles in the classroom. Rainbow Pebbles can be used for a much wider range of activities than just counting and sorting, and Dr Paul Swan shows this in easy to follow, but very effective and fun activities. With links to the Australian Curriculum.

PSB817

\$39.95

### Maths Terms and Tables

More than a dictionary of mathematical terms this reference includes diagrams and examples where possible to illustrate the concepts being discussed. Half of this book is dedicated to definitions of mathematical terms that teachers, parents and students will come across in the Primary and Lower Secondary School. The second half is filled with simple to use tables where mathematical ideas are grouped together. 116 pages.

### BrainSnack

Stimulate young minds. Suitable for any primary classroom. Stimulate and challenge young minds while introducing and developing a wide range of problem solving and logic strategies. BrainSnack© is a complete problem solving resource for your classroom providing 300 levelled problem solving logic cards. The cards are easy to use and understand. They are graded by a star system, one star being easiest and three stars being the most difficult. When the problem solving cards are presented to the students they are required to draw on a range of mathematical understandings and processes. Problems are carefully graded and grouped into specific learning areas.

Set of 16 \$7.50

Each \$5.45

### Geometric Folding Shapes Activity Cards

Hands-on activities help students make concrete connections between 3D and 2D concepts. This selection of ready-to-go activities targets geometry and measurement topics, including describing and comparing shapes, symmetry, surface area, area, Euler's formula and more. Coordinates with popular Folding Geometric Shapes (TFC10763). Provides differentiated instruction through 38 different hands-on activities, each clearly labelled with primary focus skills. Supports individual students as well as small groups and centres. Includes storage box and answer card.

TFC10772

Set of 20 \$16.95

### Probability Work Cards

The Probability Work Cards are a set of 12 full colour, double sided activity cards at three levels of difficulty. The colour coding on the front of the cards make it easy for the students to identify the level at which they need to work.

TFC11486

Set of 12 \$14.95

## Maths Activity Cards

## 50 Maths Activities

Each set consists of 50 double-sided activity cards for teaching maths skills. The front side provides teaching objectives, resources used and procedure. The other side provides visual examples. Maths manipulatives used effectively throughout and presented in clear photography. For more information about the individual sets, please refer to our website.

## Early Years Big Books

Young students have a natural love for stories and learning. These Big Books build on this enthusiasm to help you introduce key mathematical concepts. These engaging, large format storybooks (43 x 33cm) develop and reinforce mathematical language and understanding by stimulating discussion on specific concepts from the Australian Curriculum: Mathematics (Foundation - Year 2). The beautifully illustrated Big Books utilise rhyme and repetition to aid understanding. Each series (related to a year) consists of 12 books and is supported by a Big Book Tunes CD with 12 songs - one song for every title in that series.

### ThinkFun – Math Dice Chase Game

Math Dice Chase tests your ability to quickly do mental maths. Hurry to roll the dice, call out your answer, and pass the dice before you get caught with a second pair in front of you!

TN1505

\$25.95

### ThinkFun – Math Dice Game

Roll the three scoring dice and combine these numbers using addition, subtraction, multiplication, division, or even powers to build an equation that is closest, or equal to, the target number.

TN1510

\$22.95

### ThinkFun – Math Dice Jr. Game

Roll the 12-sided Target Die to get your target number, then roll the five 6-sided Scoring Dice. Using addition and/or subtraction, combine the Scoring Dice to match the target number, moving one space on the Scoring Track for every Scoring Die used. The first player to reach the finish line wins! Ages 6+, for 2 or more players.

TN1515

\$25.95

### ThinkFun – Laser Maze Game

Lights and mirrors may make it feel like magic, but it's really science and a good dose of brain power that's needed to direct the laser beam through this series of mind challenging mazes. Single player game.

TN1004

\$75.95

### ThinkFun – Chocolate Fix Game

Using the clues, fill the tray with all nine chocolate pieces in their correct positions. Similar to Sudoku, you must examine all clues on the challenge card before making a move. Ages 8+ years, single player game.

TN1530

\$41.95

### ThinkFun – Shape by Shape Game

Shape By Shape is an advanced Tangram-style game, made more difficult because you also fill in the frame around each shape you make. With 60 challenges, Shape By Shape is a great exercise in conceptual thinking and spatial relationships. Box Size: 13.3 x 4.4 x 20.3cm

TN5941

\$37.95

### ThinkFun – Balance Beans Game

Set up the Red Beans according to the Challenge Card. Then carefully place the colourful Beans on the Seesaw to keep it from teetering. When you balance the Seesaw, you are actually balancing an equation! Features: Game Tray and Base, 9 Game Tokens (3 Single Beans, 3 Double Beans and 3 Triple Beans), 40 Challenges from Easy to Super Hard with Solutions, Instruction Manual and Game-Go Bag.

TN1140

\$49.95

### ThinkFun – Roller Coaster Challenge

This game will challenge students to solve maze runs. Set up the board based on instructions on the challenge cards and determine where to place the remaining pieces.

TN1046

\$91.95

### ThinkFun – Lunar Landing

You must use your five loyal helper-bots to find a way back to the ship's emergency entry port – or you'll be stranded in space forever! Created by the inventors of Rush Hour, Lunar Landing is one of the greatest logic puzzles of all time.

TN6802

\$36.95

### ThinkFun – Clue Master Game

A fun logic game that develops the skill of deductive reasoning, a key ability in maths, science, computer programming, and many other fields.

TN1521

\$40.95

### ThinkFun – Circuit Maze Game

Your goal is to arrange the tokens to create a real circuit that lights up the different coloured Beacons. These clever circuit-building puzzles provide a boost of brainpower and a wonderful introduction to electrical engineering. Single player game.

TN1008

\$75.95

### ThinkFun – Rush Hour Jr. Game

The ice cream delivery truck is caught in traffic so must squeeze past jumbled cars and buses before it can deliver the ice cream. Ages: 6-8 years will put their problem solving skills to the test. Includes 4 levels of play and 40 mind challenge cards with solutions. A single player game.

TN5041

\$40.95

### ThinkFun – Rush Hour Game

Set up the traffic challenge and battle the gridlock as you slide the blocking vehicles out of your way to find a path for your red car to exit! Features four levels of difficulty, allowing players to progress at their own pace. With 40 all-new challenges, it's even more bumper-to-bumper fun for all ages! Ages 8 to adult, single player game.

### Mabble - Crosswords with Numbers

A simple, easy to learn game that accesses the Number and Algebra strand by requiring players to come up with mathematical equations in a similar manner to a crossword puzzle. Includes board, 138 plastic tiles with numbers, operations and blank tiles, instructions and score pad. Supplied in a box. Developed by Dr. Catherine Attard.

CAT101-1 Each \$40.95  
 CAT101 Set of 8 \$298.95

### Floor Mabble - Crosswords with Numbers

Maximise the fun with this floor-sized version of the Mabble game! The floor mat measures a large 1-metre square, and comes with 140 number and operation tiles (each measuring 6cm square). Developed by Dr Catherine Attard.

CAT102 \$137.95

*Practise with number pattern from 1 to 10*

### 6 Number Pattern Games

This set of educational games and activities is designed for introducing children to number patterns 1-10. Children will love playing with numbers, counting, and discovering patterns to win each game. These games have been designed at an early level to cover numbers and vocabulary from 1 to 10. Board games printed double sided to help save the environment. After mastering these games, children will be ready to progress to 6 Mathematics Games (JNL403). Contains 2 board games, 3 number games, 16 dominoes, die, spinner and counters.

## Maths Games

### Maths Board Games

These three sets of maths board games offer excellent value for money! Each game is printed on heavy durable board, and can be played in pairs or in small groups of up to 6. The instructions are printed on each game so you don't need to worry about losing them! Each boxed set comes with 6 game boards (42 x 30cm), 20 counters, a die and spinners.

#### 6 Maths Board Games Basic Set

This set of 6 board games covers the following topics: Place value to 100, colour and shape, counting 1 - 100, addition to 12, subtraction from 10, and time: yesterday, today and tomorrow.

SMK030

\$68.95

#### 6 Maths Board Games Pack 1

Practise and revise the four operations and other key maths concepts with these colourful fun games. This set of 6 board games covers the following topics: Place value, Subtraction, Addition, multiplication, division and time.

SMK031

\$68.95

#### 6 Maths Board Games Pack 2

This set of 6 board games covers key maths concepts, such as addition, subtraction, multiplication, division, percentage, decimals and fractions and word problems.

SMK032

\$68.95

Covers numbers 0-20, 0-100  
and place value 0-1000

### 6 Mathematics Games

This set of educational games and activities is designed for teaching mathematics, including numbers 0-20, 0-100 and place value 0-1000. Children will love learning addition and subtraction as they solve number equations to win the game. Board games are printed double sided to help save the environment. The design of these games builds on previously taught number pattern skills and follows on from 6 Number Pattern Games (JNL402). Contains 4 board games, 18 dominoes, 1 flipper, spinner, counters and die.

JNL403

## Number & Algebra

### Natural Number Stacker 1-10

This inviting number stacker will be a valuable resource to teach early number concepts by helping children to make connections within and between numbers to ten. The bases measure 50mm and show four different representations for each number: numeral, standard 1-5 dice array, random dot array and 10-frame pattern. Great to support early number sense and counting, children will be able to clearly see the quantity or 'howmanyness' of each number, subitise through different patterns, 1:1 counting, 1 more/1 less and difference. Made from responsibly sourced beech wood, each set includes ten number posts (60-170mm) and 55 rings.

YD1133

\$160.95

Collect objects and place them in the corresponding tray

### Wooden Number Tracing & Counting Trays

These number tracing and counting trays can be used in a variety of ways. Collect things in nature and display the correct amount in the corresponding tray, or fill the trays with colour sand or play dough and trace the numbers. Balls not included. Comes with storage box.

QGP486

Set of 10 \$74.95

### Create & Play Matching Blackboard Discs

A versatile set of 20 blackboard discs to endlessly create your own matching pairs, numbers or letter discs or games. Each disc has chalkboard on one side and is made of beech wood. The discs measure 50mm and are supplied in a set of 20 discs.

FR3004

50mm - 20pc \$43.95

### All About Me - Sorting Houses

Give your counters a home! This set of 6 coloured houses adds new play value to your All About Me Family Counters. Sort by colour, identify family members, and best of all: Make your family and put them in the houses!

LER3370

Set of 6 \$57.95

### Realistic Ocean Counters

Counting, sorting and matching under the sea! Explore the world of ocean life with this set of 50 realistically painted ocean counters featuring 10 different whales, sharks and more. Supplied in a storage tub.

LER0799

50pc \$91.95

## Number &amp; Algebra

## Number Footprint Mats

Make learning numbers fun with Number Footprints a dinosaur themed sensory floor sticker. Contains the numbers from 1 to 20. Not only can they use it as an educational material where you can play the "number stomp" game where the teacher calls out a number or equation and the students look for the right answer and "stomp" it, but it can also be used as a decoration for the room. Includes 20 multisensory floor stickers.

JNL626

\$57.95

## Squishy Number Fish

Watch the colourful gel beads inside the fish move around when you squeeze the little fish. The number fish are great for counting activities and sensory play. The set consists of 10 fish with the numbers 1 to 10 on one side and dots on the reverse. Supplied in a jar.

TEB6251

Set of 10 \$37.95

## Number Stamps

Sturdy number stamps that are great for students to learn number sense while improving their fine motor skills. The set includes the numbers 0-9, supplied in a jar. Can be purchased individually or as a kit with a 6-colour ink pad.

TEB6252

Set of 10 \$22.95

TEB6252K

Numbers 0 to 30 \$7.95

## Colourful Foam Number Representation Dice

Increase students' understanding of number representation with this set of 16 sturdy foam dice. The dice represent the numbers from 1 to 20 in ten frame, tally marks, base ten and numeral format. They have rounded corners for easy rolling and are integrable into any classroom games. Includes activity guide.

ETA86889

Set of 16 \$45.95

## Number & Algebra

Now comes with activity cards!

### Beads Small & Threaders & Activity Cards

This set of 300 plastic beads comes with 3 different shapes and 6 colours. Additionally it also comes with 6 coloured laces. Each shape based on 13mm and they are all of excellent quality. Now supplied with 5 double-sided activity cards!

GG1041N

306pc \$40.95

### Rekenrek Answer Boards

Reinforce number recognition, counting, addition and subtraction, and write the equation and answer on the answer board! The beads help students visualise the concept, and the answer board with handle allows students to share their work. Includes 4 sets of answer boards.

ETA86148

Set of 4 \$60.95

Now includes activity cards!

### Number Sticks – Cuisenaire Rods & Activity Cards

These number rods display the number at the top of the rod and have 1cm marks on one side but are blank (no marks or numbers) on the reverse. Each set consists of 250 pieces: 100 x one, 30 x two, 20 x three, 20 x four, 20 x five, 15 x six, 12 x seven, 12 x eight, 11 x nine and 10 x ten. Comes with 5 double-sided activity cards.

GG1028N

Set of 250 \$40.95

### 120 Bead Magnetic Demo Rekenrek Line

Demonstrate addition, subtraction and number relationship in a way that students can visualise. This magnetic 120 bead demonstration rekenrek helps students develop number concepts and learn the basic facts up to ten and more. The magnetic ends mount to any magnetic whiteboard, and the elastic bands inside the rods make it easy to fold. Total bead line measures 124cm and comes with storage bag and activity guide.

ETA86991

\$60.95

### Connecting Number Rods Activity Cards

A set of 20x A5 sized activity cards designed to be used with the Connecting Number Rods, using numbers 1-20 in the questions. The set includes 10 addition and 10 subtraction colour-coded cards, with the question on the front and the answer with images on the back.

ZZ0311

Set of 20 \$34.95

### Circle Fun – Rolf Essentials

Students can discover which different shapes can be used to fill in a circle. In addition to discriminating between colours and shapes, children also gain an understanding of proportions, mirror images and mathematical concepts such as half, quarter and an eighth. Includes 180 shapes in 6 different colours, 6 double-sided example cards with 3 levels of difficulty and 2 wooden shape boards.

RO6004

\$172.95

Made from 100% agricultural waste!

### Junior Rainbow Pebbles Eco-Friendly Material

These eco-friendly Rainbow Pebbles are made from rice stems and rice husks and are supplied in beautiful natural colours. The set includes 36 pebbles in 3 shapes and 6 colours, and 8 double-sided A4 activity cards.

EC1520

Set of 36 & Activity Cards \$74.95

### STEM Ideas with Rainbow Pebbles Ages 4-8

This 48-page book from Dr Paul Swan is full of STEM activities using rainbow pebbles in the classroom. Rainbow Pebbles can be used for a much wider range of activities than just counting and sorting, and Dr Paul Swan shows this in easy to follow, but very effective and fun activities. With links to the Australian Curriculum.

PSB817

\$39.95

Great on light panels

### Transparent Sorting Trays

This three pack of transparent sorting trays are the perfect size (30.5cm x 43.2cm x 2.5cm) to use on the A3 sized light panel. The 3-dimensional style holds loose materials, so nothing will roll away. Includes 3 different styles: Venn diagram, web tray and bar chart. Teacher's guide included.

QE14684

Set of 3 \$34.95

6 Sets of 4 trays

**\$114<sup>95</sup>**

Save \$16.75

### Transparent Deluxe Ten Frame Trays

These transparent ten frames trays are an ideal resource to practise with counting and number concepts on a light box. The set consists of 4 trays, measuring 19 x 8.3 x 2 cm each, and also include 80 transparent counters.

QE14685

Set of 4 Trays & 80 Counters \$21.95

QE14685-6

6 Sets of 4 Trays & 80 Counters \$114.95

### Pop-Up Maths Games with Ten Frames

Teach number sense, composing and decomposing numbers, adding and subtracting with this pop-up maths ten frame game. Includes 4 double-sided whiteboard ten frame boards, 40 two-colour frog counters, 2 dice, 20 number cards, 2 cups, 4 markers and a teacher guide.

ETA86875

\$57.95

### Colourful Foam Ten Frames Dice

Practise subitising and counting in a fun way! This set of 12 sturdy foam dice have ten frame or twenty frame configurations on each side and rounded corners for easy rolling. Includes activity guide.

ETA86887

Set of 12 \$34.95

## Number & Algebra

Sticks to any flat surface!

### Clingy Wall Ten Frames Set

An entirely new way to practise with counting in 2's and 5's, number patterns, addition and subtraction and much more with these Clingy Wall Ten Frames. Made from a new material, these pieces will stick to any flat surface! Each set consists of 4 frames and 40 counters (20 green and 20 blue).

ETA92856

Set of 4 \$40.95

Sticks to any flat surface!

### Clingy Wall Pattern Blocks Set

Stick these pattern blocks to any flat surface! No need for a magnetic whiteboard. The demonstration set provides a highly visual way to learn and explore sorting and patterning, fractions, sequencing and many more maths activities.

ETA928573

\$40.95

### Place Value Answer Boards

Help students practise with place value, adding, subtracting, and multiplying. The double-sided write and wipe answer boards with attached handles feature one to ten thousand on one side and one to millions on the reverse. Each board measures 30x x30cm. Supplied in set of 4 boards.

ETA86145

Set of 4 \$40.95

Great for light boxes!

### Place Value Action Tiles with Trays

These place value trays are a great tool to visualise place value concepts. Easily display decomposing and composing numbers. The set includes 3 trays and 120 Place Value Action Tiles. The tray measures 39.5 x 27.3cm and is labelled with thousands to units. The tiles includes the values 1, 10, 100 and 1000 (30 tiles of each value). Trays also available without the place value tiles.

QE74032

Set of 3 Trays and 120 Action Tiles \$40.95

QE74030

Set of 3 Trays Only \$34.95

### Magnetic Whiteboard Graph Sheets

This magnetic sheet sticks to your whiteboard and takes the hassle out of drawing a grid onto your whiteboard. Simply stick the sheet onto the board, and transform your whiteboard into a graph sheet. The sheet measures 75 x 100cm and features 2.5x2.5cm grids. Depending on your needs, you can stick the sheet onto your board horizontally or vertically. The XY Axis Graph sheet (TEB6263) features a darker X and Y line through the middle of the sheet, making this the ideal resource for all your graphing activities.

TEB6246

Graph Sheet \$68.95

TEB6263

XY Axis Graph Sheet \$68.95

Turn your whiteboard into graph paper!

TEB6263

Also available as XY axis graph paper

### Toucans to 10 - Sorting Set

These colourful Toucans are a fun and engaging tool to assist students with addition and subtraction equations from 1 to 10. Simply draw a fact card, solve the equation and deliver the card to the correct toucan. Set includes 10 toucans numbered 1 to 10, and 120 fact cards with addition and subtraction equations.

LER5458

Set of 10 \$94.95

NEW

### Pop-Up Maths Games with Rekenreks

Teach number sense, composing and decomposing numbers, adding and subtracting with this ready-to-go Rekenrek learning centre. The in-depth activity is shown on both sides. Includes a pop-up easel box, 4 double-sided ten frame whiteboards, 40 two-colour frog counters, 2 numeral dice, 2 cups, 20 number cards, 4 markers and an a teacher guide.

ETA86874

\$57.95

### Number Line Clock

Students can now connect the concepts between a the concept of time on a number line and elapsed time. Once the number line is connected, it transforms back into a clock, allowing students to visualise a clock is just a circular number line. The magnetic demonstration clock measures 37 x 34cm. The Student clocks measure 15 x 11cm and come in a set of 6.

ETA92289 Magnetic Demo Clock \$80.95  
ETA92287 Set of 6 Student Clocks \$103.95

The removable clock face turns into a number line, allowing students to visualise the concept of time

### Multiple Representation Dice - Time

NEW

This set of 16 sturdy foam dice increases students' understanding of all things time! Each die has a unique time telling method such as the analogue clock, digital clock, time expressed in colloquial language and expressed in standard form language. Supplied in storage tote.

ETA91267 Set of 16 \$45.95

NEW

### Rainbow Angle Circles

Exploring angles has never been more engaging! Made from durable plastic, these brightly coloured maths manipulatives help students visualise angles through hands-on learning. The colour-coding teaches students to compose and decompose angles, build meaning to degrees and rotational relationship, and inquiry based learning. Includes 36 plastic segments, 192 pieces and getting started activities.

ETA91049

Set of 6 \$80.95

### 5-in-1 Outdoor Measure-Mate

NEW

This versatile five-in-one tool is the perfect way to introduce the concept of measurement to young learning in an outdoor setting. Its robust build means that it will cope with vigorous use in rough terrain. Perfect for non-standard measuring or the introduction of standard units. The primary aim of the set is for young learners to have fun exploring (and measuring) the natural landscape, which will be enhanced by the 'bird footprints' that the trundle wheel leaves. Set allows for the following measurement tools: vertical measure, callipers, trundle wheel, spirit level and measuring stick.

LER0339 \$80.95

Spark students' curiosity  
and bring nature to the  
maths class!

### Wooden Outdoor Bucket Scales

NEW

Bring maths outdoors! Practise with measurement, weights and concepts such as heavier and lighter with this oversized outdoor scale. The scale is made of sustainable eucalyptus wood, ideal for outdoor use. The arms measure 180 wide, the height of the scale is 70cm and the feet are 80 x 80cm. The kit includes 2 galvanised buckets with 5L capacity. TEB6264 is supplied without buckets.

## Base 10 Class Set – Green, Yellow, Red, Blue

Equipment such as Base 10, place value arrows, dice and 3 prong abacuses are all coloured sequenced to promote place value recognition for the struggling students. Colour prompting can be a powerful trigger for the students at the time of trading or exchanging items and/or representing a group of numbers. The colour sequence for our place value items are: green for thousands, yellow for hundreds, red for tens and blue for units.

This set contains:

- 5 green cubes
- 50 yellow flats
- 200 red longs
- 500 blue units
- 1 Storage Container
- 1 Bonus Base 10 Combo Mat
- 1 Bonus Know How Introducing MAB Guide

## Volume/Capacity Theme Kit

This invaluable kit contains the most commonly used resources in the Primary classroom to investigate volume and capacity. Supplied complete in its own storage tub, this kit is ideal for a rotate/share organisation. Each kit may be arranged to suit the individual requirements of each school, catering for the fact that you may already have some of the items in stock. Please call for expert advice on tailoring a kit to your needs. Each standard kit contains the following items:

- 1 x Measuring Cylinders 7pc
- 1 x Volume Relationship Set 6pc
- 1 x Volume Relationship Set 8pc
- 1 x Playplas® 15 Litres
- 1 x Litre Set
- 1 x Litre Cube
- 2 x Measuring Cup Clear
- 1 x Measuring Cups 4pc
- 2 x Measuring Spoons 5pc
- 1 x Relational Solids 17pc
- 1 x Measuring Beakers 7pc
- 1 x Measuring Jugs 3pc
- 1 x Funnels 3 sizes
- 1 x Storage Container

Contents may vary.

## Standard Playing Cards in 10 Colours

Our Teachables playing cards have been designed to make it easy and quick to sort the cards after use. This set of 10 playing card decks are supplied in 10 vibrant colours and come in a sturdy cardboard storage box. This makes it possible to efficiently sort the decks after use. No more mixed up decks! Each deck consists of 54 standard playing cards, each card measuring 87x56mm. Playing cards are an extremely versatile resource to reinforce many key concepts and an absolute must-have for every classroom.
