

ACTIVITY SHEETS

FLEXIDOME KIT NUMBERED 1-20

These 9cm lightweight flexidomes are the perfect marker for preventing injury caused by standing or falling on conventional cones.

The sticker set is numbered 1-20. Digits are 9cm tall and printed in black on clear backing for clear visibility.

The wire holder allows for easy storage and transportation.

ACTIVITY IDEAS

TRADITIONAL USE

Number identification, or marking out circuit stations.

ALTERNATE USE

Marshalling, to indicate meeting points, etc

TABLOID SPORT ACTIVITIES

1. Marking out various activity stations.
2. Devise a course using number flexidomes in a scattered fashion. Students are to move through the course following number order in the quickest time possible eg. running, skipping, walking with egg and spoon etc

HOP, SKIP & JUMP

Teacher scatters numbers around the designated playing area. The object is for students to hop, skip or jump to a nominated numbered flexidome as fast as possible

MATCH UP

Using numbered beanbags, students are to collect one number at a time and match it up with the corresponding numbered flexidome. The first team to get the most numbers match up wins! This game can also be played with alphabet beanbags & flexidomes
