

March in the Chinese New Year Parade

Material

- Red construction paper
- Scissors
- Tape or Stapler
- Battery operated tealights
- Markers, stickers, or other items to decorate

Time

10 minutes

Difficulty

Easy

Instructions

Step 1

Take a piece of red paper and cut in half (hamburger style.) Then take each half and fold in half long ways (hotdog style.)

Step 2

Take your scissors and cut from the crease up towards edges while folded. Leave 1 cm at the top. Cut strips of 1 cm all the way across.

Step 3

Open your fold. Take the time now to decorate your paper with whatever you like.

Step 4

Take the two short edges of the paper and meet to make a cylinder. Tape or staple shut. Push down on top to open the lantern.

Step 5

Use a battery-operated tea light or candle (with adult's help!) and place on your favourite map. Now send Cubetto on a parade of lights!!
