

Make an Obstacle Course with Blocks

Material

- Blocks, Duplo, Lego, or other construction toys
- Your favourite map
- Blind Grab Template
- Small bag (we use the button's bag)

Time

10 minutes

Difficulty

Very Easy

Instructions

Step 1

Gather your favorite construction or block toys. We decided to go with a theme.

Step 2

Begin constructing your obstacles. Think about different types of architecture.

Step 3

Cut out each square from your Blind Grab Template. Fold each square in half and place in the bag.

Step 4

Shake your bag and pick one out. Put an obstacle on that square. Repeat until all your obstacles are on the map.

Step 5

Challenge yourself to navigate Cubetto from Compass to opposite corner without hitting any obstacle!
