

Name \_\_\_\_\_

# How to Weigh an Elephant

I will need:

 pencil

 glue

 paper

 scissors

1. Cut out each sentence.
2. Put them into the right order.
3. Glue them onto the paper.

Draw a line right around the boat.

Add up the numbers and see how much the elephant weighs.

Weigh a few stones at a time on some scales.

Put the elephant on the boat.

Put stones in the boat until the line meets the water.

Take the elephant off the boat.
