LEARNING RESOURCES®

Demonstrieren Sie, wie die Pinzette richtig gehalten wird. Stellen Sie sicher, dass jedes Kind seine Finger richtig auf der Pinzette positioniert. Das Öffnen und Schließen der Pinzette kann dann geübt werden. Jedes Kind sollte wissen, wie eine Pinzette „funktioniert“.

**Spanish:**

Conjunto de 12 pinzas, pares en varios colores: rojo, azul, verde, naranja, amarillo y púrpura.

Las pinzas son una gran herramienta para el desarrollo de la fuerza y destreza de las manos,

muñecas y dedos. Desde temprana edad, es aconsejable que los niños desarrollen actividades que estimulen el desarrollo motriz fino.

Enseñe cómo tomar las pinzas de modo correcto. Asegúrese que los niños coloquen los dedos correctamente sobre las pinzas. Practique abriendo y cerrando las pinzas. Asegúrese de que cada niño sepa “cómo” funcionan las pinzas.

## Enjoy some fine motor fun with tweezers!

### Set of 12 tweezers includes:

Two of each color: red, blue, green, orange, yellow, purple.

Tweezers are a great tool for developing fine motor skills in the hands, wrists, and fingers. At a young age, children should be engaged in activities that promote fine motor development. These activities will be of great benefit when children learn to hold a pencil, write their name, and perform day-to-day tasks in school.

The following activities involve tweezers and other objects that build strength and dexterity in the hands and fingers. Demonstrate how to hold the tweezers correctly. Make sure each child positions his or her fingers correctly on the tweezers. Practice opening and closing the tweezers. Ensure that each child knows how the tweezers "work."

### Tweezers Activities & Games:

Because cotton balls are very lightweight they can help young children build strength in the fingers and hands. Set a pile of cotton balls on your work surface and give your child a pair of tweezers. Have your child attempt to pick up one cotton ball at a time and place the cotton balls in a small bowl. Work on math skills simultaneously by counting the cotton balls when you put them in the bowl.

Use the tweezers to pick up objects such as small blocks, nuts and bolts, candies, etc. Transfer these objects from one bowl to another. Always encourage your child to

transfer (or move) the objects from left to right, which is the direction used when reading. If your child is successful at moving these larger objects, try picking up smaller objects such as beads and small, round buttons.

Involve the whole family in a fine motor game: use tweezers to pick up household objects of various sizes. Place a variety of objects in a pile in the middle of a flat playing surface. Assign each object a point value. The larger objects (cotton balls, blocks, etc.) should be worth 1 point. The medium-size objects (nut and bolts, buttons, candy pieces) should be worth 2 points. The smallest objects (coins, pieces of string, flat buttons, seeds) should be worth 3 points, as these are the most difficult to pick up. The youngest player goes first and uses the tweezers to pick up an object and transfer it to a bowl. Record the points based on object size. Play continues until someone reaches 10 points.

### French:

Ensemble de 12 pincettes comprenant deux exemplaires de chaque couleur : rouge, bleu, vert, orange, jaune, violet.

Les pincettes sont un excellent moyen de développer la dextérité et de muscler les mains, les poignets et les doigts. Dès le plus jeune âge, la pratique d'activités favorisant le développement moteur fin est bénéfique.

Montrez aux enfants comment tenir les pincettes. Veillez à ce qu'ils positionnent tous correctement leurs doigts. Laissez-les s'exercer à ouvrir et fermer les pincettes. Vérifiez que chaque enfant comprend le fonctionnement des pincettes.

### German:

Dieser Satz von 12 Pinzetten schließt je zwei in den folgenden Farben ein: rot, blau, grün, orange, gelb, violett.

Pinzetten sind ein ausgezeichnetes Werkzeug und entwickeln die Kraft und Geschicklichkeit der Hände, Handgelenke und Finger. Kinder sollten schon in einem sehr jungen Alter an Aktivitäten teilnehmen, die ihre feinmotorischen Fähigkeiten fördern.
