

Name _____

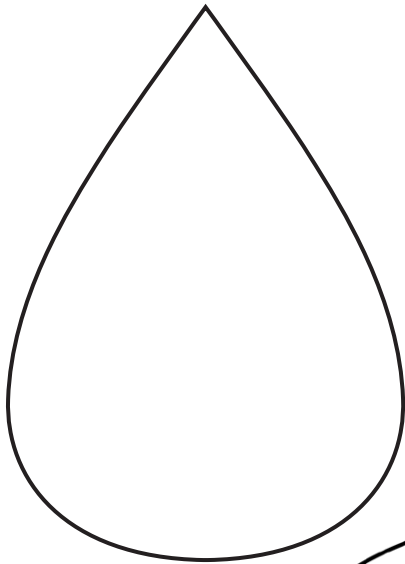

I will need:

 pencil

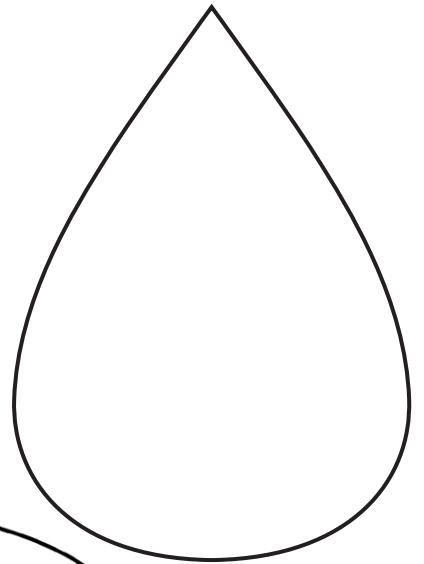

Every Drop Counts

Complete the word web by filling in the drops.

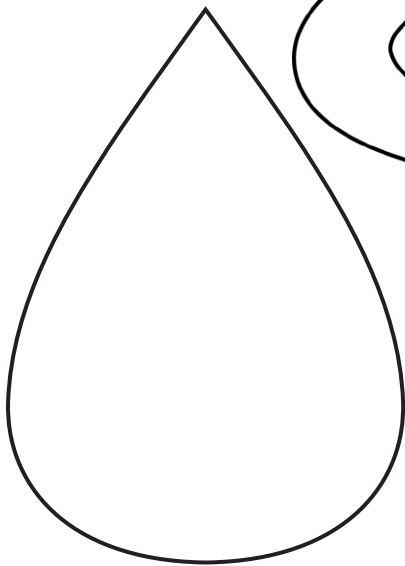

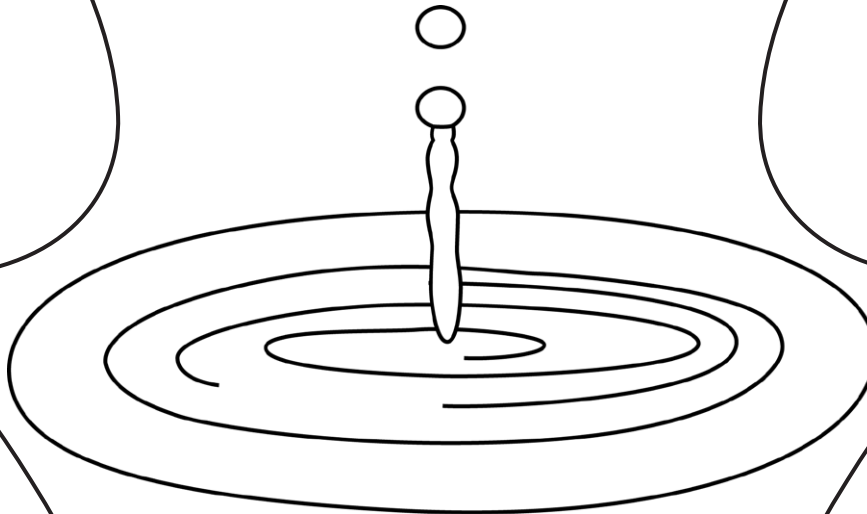

Who needs it?

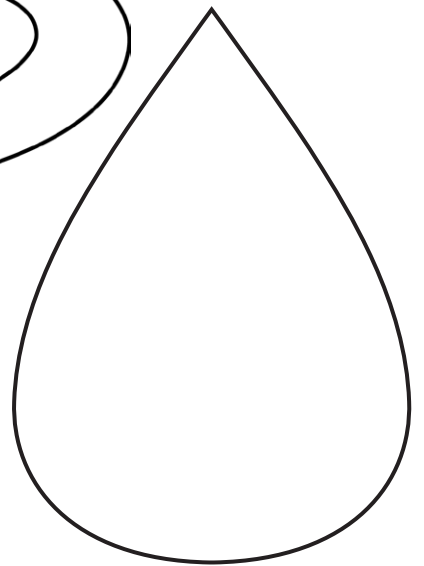

Where does it
come from?

Water is an important
resource.

Why isn't there enough
in some parts of the world?

How can we
take care of it?

Name _____

I will need:

 pencil

Every Drop Counts

1. Match the words in the circles to make compound words. Write the words you have made in the spaces provided. The first one has been done for you.
2. Use some of the compound words to complete the sentences.

when	one	_____
every	side	_____
no	out	_____
in	thing	_____
with	ever	_____
every	where	_____

Note: A line connects 'when' to 'ever'.

Living things cannot survive _____ water.

If _____ uses water carefully, then none will be wasted.

Water is _____, but only some is good to drink.
