

RoboCupJunior OnStage (Dance) & Rescue Workshop

Attention: Primary, High School
Teachers and Students

RobocupJunior OnStage (Dance) & Rescue

RoboCupJunior Australia (RCJA) is a project-oriented educational initiative that supports local, regional & international robotic events for Primary & High school students. Teams work in a cooperative & supportive environment developed by volunteer groups of teacher, past competitors & industry members in three distinct challenges; **OnStage (Dance), Rescue & Soccer**. The focus of RoboCupJunior is the development of teamwork skills as well as technical skills in an environment of participation, fun & excitement. For more information on RoboCupJunior Australia please refer to the website www.robocupjunior.org.au

Teachers are invited to bring 2 student mentors on the day (not essential). Participants will have the opportunity to program with the EV3 software. EV3 robots will be available for use on the day or you may bring your own equipment.

Getting started is always a challenge so this day will give teachers and students the opportunity to prepare for the RobocupJunior OnStage (Dance) & Rescue event. Participants will be introduced to the OnStage (Dance) & Rescue rules for 2018 & judging criteria and tips and hints for the OnStage (Dance) & Rescue challenge. Participants will build and program a simple OnStage (Dance) or Rescue robot for a performance at the end of the day.
