

RoboCupJunior OnStage (Dance) Hands-on Workshop

Attention:
Primary and High School Teachers

RobocupJunior OnStage (Dance)

RoboCupJunior Australia (RCJA) is a project-oriented educational initiative that supports local, regional & international robotic events for Primary & High school students. Teams work in a cooperative & supportive environment developed by volunteer groups of teacher, past competitors & industry members in three distinct challenges; **OnStage (Dance)**, **Rescue** & **Soccer**. The focus of RoboCupJunior is the development of teamwork skills as well as technical skills in an environment of participation, fun & excitement. For more information on RoboCupJunior Australia please refer to the website www.robocupjunior.org.au

The following Introductory RobocupJunior OnStage (Dance) workshop is available to all Primary and High School Teachers conducted by Joanna Burk from Modern Teaching Aids.

Participants will have the opportunity to program with the EV3 software. EV3 robots will be available for use on the day or you may bring your own equipment.

Getting started is always a challenge so this day will give teachers and students the opportunity to prepare for the RobocupJunior Dance event. Participants will build and program a simple OnStage (Dance) robot for a performance at the end of the day.

About the Presenter

Joanna Burk has worked with LEGO® Education resources since 1998. She has a Diploma of Teaching in Primary Education & Certificate IV in Workplace Training & Assessment.

In her current role as Business Development Manager - STEM & Robotics with MTA, Joanna conducts professional development workshops for teachers in the effective use of LEGO Education & Robotics resources.

Joanna is also trained and certified in the application of the world renowned LEGO Serious Play methodology and is able to facilitate team and strategy sessions to ensure that all participants actively engage with the process.

Her presentations at curriculum days, workshops, information sessions, conferences & network meetings provide participants with a wealth of information which will assist in achieving best practice in teaching.

Joanna is also an actively involved member with RoboCupJunior competitions in Australia & New Zealand.
