

RoboCupJunior On-Stage & Rescue Workshop

Attention: Primary, High School
Teachers and Students

Full Day
Workshop

RobocupJunior On-Stage & Rescue

RoboCupJunior Australia (RCJA) is a project-oriented educational initiative that supports local, regional & international robotic events for Primary & High school students. Teams work in a cooperative & supportive environment developed by volunteer groups of teachers, past competitors & industry members in three distinct challenges; **On-Stage, Rescue & Soccer**. The focus of RoboCupJunior is the development of teamwork skills as well as technical skills in an environment of participation, fun & excitement. For more information on RobocupJunior Australia please refer to the website www.robocupjunior.org.au

The following RobocupJunior On-Stage & Rescue workshop is conducted by Modern Teaching Aids and the RCJNSW Committee and is suitable for both Novice and Experienced mentors and participants.

Teachers are invited to bring 4 student mentors on the day (not essential). Participants will have the opportunity to program with the EV3 software. EV3 robots will be available for use on the day or you may bring your own equipment.

Getting started is always a challenge so this day will focus on assisting teachers and students to prepare for the RobocupJunior On-Stage & Rescue event. Participants will be introduced to the On-Stage & Rescue rules & judging criteria with tips and hints for the On-Stage & Rescue challenge.
