

RoboCupJunior Theatre & Rescue Workshop

Attention: Primary, High School Teachers and Students

RobocupJunior Theatre & Rescue

RoboCupJunior New Zealand (RCJNZ) is a project-oriented educational initiative that supports local, regional & international robotic events for Primary & High school students. Teams work in a cooperative & supportive environment developed by volunteer groups of teachers, past competitors & industry members in three distinct challenges; **Theatre, Rescue & Soccer**. The focus of RoboCupJunior is the development of teamwork skills as well as technical skills in an environment of participation, fun & excitement. For more information on RobocupJunior New Zealand please refer to the website www.robocupjunior.org.nz

The following Introductory RobocupJunior Theatre & Rescue workshop is conducted by Modern Teaching Aids and the RCJNZ Committee.

Teachers are invited to bring 2 student mentors per school on the day (not essential). Participants will have the opportunity to program with the EV3 software. EV3 robots will be available for use on the day or you may bring your own equipment.

Getting started is always a challenge so this day will give teachers and students the opportunity to prepare for the RobocupJunior Theatre & Rescue. Participants will build and program a simple Theatre or Rescue robot for a performance at the end of the day.
