Hummus  
Hut  
Hyacinth  
Hydrant  
Hyena  
Hyssop

Wind down from  
daily pressures and  
enjoy some mindful  
moments as you  
assemble this  
intriguing and  
colourful jigsaw  
puzzle.

## Hello Puzzlers, I'm back again!

Welcome to yet another deviously puzzling  
puzzle where almost everything begins with  
the letter H, or possibly one of the other ones.

This design gives you glimpses of my past and includes  
an explanation about my close personal involvement  
with herringbone. It also introduces you to Henry,  
our new whippet. Henry likes to eat all sorts,  
recently consuming parts of an expensive hearing aid  
and several pairs of glasses. Our other dog (Daisy)  
is a rescue mongrel who requires special food  
and insulin; no hearing aids and glasses for her.

We also have three pet ducks,  
one of which now has an amusing limp.

When the 'F' and 'G' puzzle came out I was 78  
(I still am) and before I become 79 I will be working on  
the next design - 'I' and 'J'.

If I can keep drawing these designs at this rate,  
I should get to 'Z' before I am 90!  
I am also working on a new picture book called  
'Yesterday' and hope that pictures from that  
will become jigsaws too.

So please enjoy this puzzle and challenge your friends  
and relations to see who can find the most words.

Good luck and very best wishes,

*Colin Thompson*
