Ravensburger

Following the huge popularity of the original Bizarre Bookshop, our UK development team persuaded Colin Thompson to create this new design especially for us.

There are some fascinating titles just waiting to be discovered on the shelves of this very Bizarre Bookshop. Many may remind you of well-known works but with a quirky difference, thanks to Colin Thompson's brilliant imagination. So as you assemble the jigsaw you'll reveal titles such as Five go Stockbroking, The Lion, The Witch and The Modem and Last Croissant in Paris. There are also curious creatures, weird windows and magical worlds hidden amongst the colourful tomes. Look very closely and you'll even see the original Bizarre Bookshop puzzle pack. Entertainment, amusement and hopefully delight await you.
