

This colourful, captivating and complex puzzle depicts a cupboard. The owner of this lavish locker obviously loves pencils and paints, yarns and threads, buttons, patterns, a wheel. But there are also bizarre objects, strange references to other worlds. So dip into the craft cupboard and be seduced, enamoured and hopefully enchanted.

Colin Thompson's unique work is packed with fun and intrigue, objects and events, as can be seen in his hugely popular puzzle designs *The Bizarre Bookshop* and *Higgledy Piggledy House*. He is also well-known as a children's author and illustrator and has had over 50 books published including novels, picture books, poetry and 3 adult novels. Although born in London, Colin now lives in Australia.

A complex, colorful collage of various objects and scenes, including a banana, a red apple, a yellow umbrella, a blue and white striped shirt, a pink piggy bank, a small boat, and a clock, all arranged in a dense, overlapping pattern. The collage is framed by a thick red border. The objects are arranged in a way that creates a sense of depth and movement, with some items appearing to be part of a larger scene and others as standalone elements. The colors are vibrant and varied, creating a rich and detailed visual experience.
